

Institute “Talgha”

**Planned and executed scientific-research projects financed by the state budget of Georgia for 2016
(Concerns scientific –research institutes)**

#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Work supervisor	Work performers
1	The new model of renewing of current energy	M . Chiraqadze	SH. KhizaniShvili K. Giorgadze
#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Work supervisor	Work performers
2	Development of new generation dosimeters for the purpose of continuous monitoring of radio-ecological conditions	Z. Chakhnakia	S. Paghava Z. Sikhmashvili G . Japaridze
#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Work supervisor	Work performers
3	Exploring natural radio-active gas- spatial and tempotal distribution of radonium concentration in educational blocks , with the purpose of evaluating the risks of radonium	Z. Chakhnakia	S. Padhava Z. Sikhmashvili G. Japaridze

	on the health of staff and students.		
The project #76 - 01-2875 is submitted to GTU administration			

I. 2.

#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Work supervisor	Work performers
4	Convexional generater operating on sun energy	K. GiorgadzeKKK	N. Vachnadze N. Ushveridze
#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Work supervisor	Work performers
5	Electronic spinner relaxation in anizotropic material in zero and low frequency field.	N. Fokina	A. Chakhnakia N. Ushveridze G. Khubuluri
#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Work supervisor	Work performers
6	Water floating turbin model	M. Chiraqadze	Sh. Khizanishili K. Giorgadze
