

GTU and UniFg 1st Joint R&D International conference - JoRDI

“Dynamics and recent trends of vary industries in EU and Georgia: ICTs adoption in supply chain management”

On 17-19 October, 2018 Georgian Technical University will host GTU and UniFg I joint R&D international conference “Dynamics and recent trends of vary industries in EU and Georgia: ICTs adoption in supply chain management”.

The purpose of the conference is to bring together researchers, scientists, practitioners, students for a corporate scientific discussion about current and emerging research issues, problems, questions, findings, new achievements, current advances in knowledge and new perspectives relevant to involve the technologies in the business processes more actively. It also hosts discussions, data analysis, case studies, and industrial practices in form of research papers. The conference will be the excellent opportunity to share data and experiences face to face between researchers from all over the world, promote international academic researches, discuss research and exchange ideas, share knowledge and results in theory, popularize works of scientists in international journals, integrate scientists into the world processes, and to find global partners for future collaboration.

The subjects covered by the conference include:

- Big Data Analytics and ICT
- Precision Agriculture
- ICT for Sustainability Issues
- Healthcare Technologies
- Digital Marketing
- Supply Chain Management

The abstracts of the articles will be published in the conference proceedings.
