2. **Text Structure:**

- First and last name;

- Article Title;

- Abstract Georgian, English or Russian languages, up to a maximum of 150 words;

- Key words;

- The text;

- References.

Poster Sessions

During the conference there will be the possibility to display posters of scientific papers in the common areas and to answer the questions of attendees during the breaks.

Guidelines for Preparing a Poster Presentation:

Presenters will interact with attendees while standing next to their Poster Presentation. Attendees at Poster Presentations will stroll by looking for topics of interest.

Presenters need to attract attention with a good topic and a visually interesting presentation.

Organization and clarity are critical. A poster presentation should attract people's interest as they walk by and then be easily reviewed to stimulate a one-to-one discussion with the presenters. The goal is to encourage informed discussion about your research. The poster should be easily readable from 1.5 meters (4 feet) away.

Support: Although we will provide you with tools (adhesive tape, etc.) for hanging your poster, it is recommended that you bring your own materials as a backup.

Format: There will also be other authors with their poster presentations in the gallery. For that reason, we encourage you to avoid exceeding the dimensions of a **50 cm** width **and 80 cm** high and hang your posters vertically.

Type of letter, font and size: We recommend using the following font and font size: **Type of font: Arial – Title: At least 36 points. – Headings: 30 points or more. – Text: At least 24 points.**

Other recommendations: We recommend you to use illustrations, schemas and graphics so that your presentation can be more attractive.

Poster - presentation fee - **20 EUR.**

Participants of the poster - presentation will be awarded **Certificates** and their posters will be published in the conference proceedings
