

ვახტანგ კაკაბაძის შრომების სია 1964-2009 წლებში

1	A discontinuous problem of linear conjugation with summable coefficients. (Russian) <i>Soobshch. Acad. Nauk Gruz. SSR</i> 34 (1964), 519-524.
2.	On a discontinuous problem of linear conjugacy. (Russian) <i>Soobshch. Akad. Nauk Gruz. SSR</i> 36 (1964), 539-544.
3.	The problem of linear conjugacy in the case of the infinite line. (Russian) <i>Soobshch. Akad. Nauk Gruz. SSR</i> 47 (1964), 7-12.
4.	On a linear conjugacy problem in the case of a denumerable set of closed contours. (Russian) <i>Soobshch. Akad. Nauk Gruz. SSR</i> 37 (1965), 31-36.
5.	The linear problem of conjugacy in the case of a denumerable set of closed contours. (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 34 (1968), 103-122.
6.	Singular Cauchy integrals. (Russian) <i>Soobshch. Akad. Nauk Gruz. SSR</i> 53 (1969), 529-532.
7.	A certain property of a singular Cauchy integral. (Russian) <i>Soobshch. Akad. Nauk Gruz. SSR</i> 61 (1971), 15-16.
8.	On belonging to the classes E_p of Analytic functions which are representable by a Cauchy type integral. (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 42 (1972), 87-94.
9.	On the boundedness of Cauchy singular integrals in weight Lebesgue spaces. (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 43 (1973), 111-119.
10*	On the boundary value problem of linear conjugation with measurable coefficients (with V. Kokilashvili). (Russian) <i>Dokl. Akad. Nauk SSSR</i> 224 (1975), 1008-1011; English transl.: <i>Sov. Math. Dokl.</i> 16 (1975), 1339-1343.
11.	Certain properties of singular integrals and of Cauchy type integrals. (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 47 (1975) (<i>Sb. Rad. Teor. Funkcii</i> 6), 34-52.
12.	Correction (with V. Kokilashvili). (Russian) <i>Dokl. Akad. Nauk SSSR</i> 227 (1976), 776.
13.	Some properties of the Cauchy singular integral along open curves. (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 53 (1976), 62-72.
14*	Linear integral equations with p -mean singular integral. (Russian) <i>Dokl. Akad. Nauk SSSR</i> 231 (1976), 1293-1295; English transl.: <i>Sov. Math. Dokl.</i> 17 (1976) (1977), 1724-1727.
15.	A boundary value problem of linear conjugation with measurable coefficients (with V. Kokilashvili). (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 55 (1977), 59-92.
16.	On the boundedness of Cauchy singular operator in L_p -spaces. (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 58 (1978), 187-196.
17.	On a discontinuous problem of linear conjugation with summable coefficients for one class of curves (with V. Kokilashvili). (Russian) <i>Soobshch. Akad. Nauk Gruz. SSR</i> 91 (1978), No. 1, 25-27.
18.	A singular Cauchy integral on a countable set of closed contours. (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 65 (1980), 122-130.
19*	Discontinuous problems in linear conjugation and singular integral equations (with V. Kokilashvili). (Russian) <i>Differentsialnye Uravneniya</i> 16 (1980), 1650-1659; English transl.: <i>Differ. Equations</i> 16 (1981), 1067-1075.
20.	On the singular Cauchy operator on a countable set of concentric circles (with G. Khuskivadze). (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 69 (1982), 80-92.
21.	On the boundedness of the singular Cauchy operator in Lebesgue spaces in the case of nonsmooth contours (with G. Khuskivadze). (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 69 (1982), 93-107.
22.	A discontinuous Riemann-Hilbert problem. (Russian) <i>Reports of enlarged session of the seminar of I. Vekua Institute of Appl. Math.</i> 1 (1985), 168-170.
23.	The homogeneous discontinuous problem of linear conjugation in case of a countable

	connected domain. (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 82 (1986), 127-141.
24.	On the derivative of conformal mapping (with G. Khuskivadze). (Russian) <i>Soobshch. Akad. Nauk Gruz. SSR</i> 127 (1987), 473-475.
25*	On the Noether property of linear singular integral equations in weighted Lebesgue spaces. (Russian) <i>Z. Anal. Anwend.</i> 8 (1989), No. 3, 231-236.
26.	An approximate solution of a class of Noether equations (with A. Saginashvili). (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 88 (1989), 15-26.
27.	On an application of the problem of linear conjugation to the study of properties of a conformal mapping (with G. Khuskivadze). (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze</i> 88 (1989), 27-40.
28.	On Riemann-Hilbert problem in domain with non-smooth boundary (with G. Khuskivadze). (Russian) <i>Reports of enlarged session of the seminar of I. Vekua Institute of Appl. Math.</i> 5 (1990), No. 1, 153-156.
29.	On Dirichlet problem for harmonic functions in domain with piecewise smooth boundary (with G. Khuskivadze). (Russian) <i>Reports of enlarged session of the seminar of I. Vekua Institute of Appl. Math.</i> 7 (1992), No. 1.
30.	Riemann-Hilbert problem in the domain with nonsmooth boundary (with G. Khuskivadze). (Russian) <i>Trudy Tbiliss. Mat. Inst. Razmadze Akad. Nauk Gruzii</i> 106 (1993), 105-122.
31.	On the boundedness of Cauchy singular operator from the space L_p to L_q , $p > q \geq 1$ (with G. Khuskivadze). <i>Proc. Georgian Acad. Sci., Math.</i> 1 (1993), No. 4, 443-452.
32.	On the boundedness of Cauchy singular operator from the space L_p to L_q , $p > q \geq 1$ (with G. Khuskivadze). <i>Georgian Math. J.</i> 1 (1994), No. 4, 395-403.
33.	On the Riemann-Hilbert problem in the domain with non-smooth boundary (with V. Kokilashvili). <i>Georgian Math. J.</i> 4 (1997), No. 3, 279-302.
34.	Neumann problem in the class of harmonic functions in domain with a piecewise-Lyapunov boundary (with V. Kokilashvili). <i>Mem. Differential Equations Math. Phys.</i> 12 (1997), 114-121.
35.	On the inclusion of the Cauchy type integrals into the Smirnov's classes (with G. Khuskivadze). <i>Proc. Razmadze Math. Inst.</i> 114 (1997), 71-79.
36.	On conformal mapping of simply connected domains with a piece-wise smooth boundary (with G. Khuskivadze). <i>Proc. Razmadze Math. Inst.</i> 114 (1997), 81-88.
37.	On the continuity of the Cauchy operator from the space $L_p(\Gamma)$ to $L_q(\Gamma)$ for $p > q \geq 1$ (with G. Khuskivadze). <i>Proc. Razmadze Math. Inst.</i> 114 (1997), 124-126.
38.	On the conformal mapping of a circle onto a domain with an arbitrary piecewise smooth boundary (with G. Khuskivadze). <i>Proc. A. Razmadze Math. Inst.</i> 116 (1998), 123-132.
39*	Boundary value problems for analytic and harmonic functions in domains with non-smooth boundaries. Applications to conformal mappings (with G. Khuskivadze and V. Kokilashvili). <i>Mem. Differential Equations Math. Phys.</i> 14 (1998), 1-195.
40.	On conformal mapping of the domain with a piecewise smooth curve on the same domain (with G. Khuskivadze). (Russian) <i>Reports of enlarged session of the seminar of I. Vekua Institute of Appl. Math.</i> 13 (1998), No. 1, 20-22.
41.	On harmonic functions from Smirnov's class (with Z. Meshveliani). <i>Proc. A. Razmadze Math. Inst.</i> 121 (1999), No. 1, 159-160.
42.	Riemann-Hilbert problem in the domains with piecewise smooth boundaries (with V. Kokilashvili). (Russian) <i>Bull. Georgian Acad. Sci.</i> 159 (1999), No. 1, 11-14.
43.	On the Dirichlet and Neumann problems in the domains with piecewise smooth boundaries (with V. Kokilashvili). (Russian) <i>Bull. Georgian Acad. Sci.</i> 159 (1999), No. 2, 181-183.
44.	On Smirnov classes of harmonic functions and the Dirichlet problem (with Z. Meshveliani). <i>Proc. A. Razmadze Math. Inst.</i> 123 (2000), 61-91.
45.	On the boundedness of Cauchy singular integral operator (with G. Khuskivadze). <i>Proc. A. Razmadze Math. Inst.</i> 124 (2000), 107-114.

46.	On a dirichlet problem in Smirnov classes of harmonic functions (with Z. Meshveliani). <i>Proc. A. Razmadze Math. Inst.</i> 126 (2001), 53-57.
47.	On a representation of the derivatives of conformal mappings (with G. Khuskivadze). <i>Georgian Math. J.</i> 8 (2001), No. 3, 513-520.
48.	A problem of linear conjugation for analytic functions with boundary values from the Zygmund class (with V. Kokilashvili). <i>Georgian Math. J.</i> 9 (2002), 309-324.
49.	Zaremba's problem in one class of harmonic functions (with G. Khuskivadze). <i>Proc. A. Razmadze Math. Inst.</i> 132 (2003), 143-147.
50.	The dirichlet problem for harmonic functions with boundary values from Zygmund classes (with V. Kokilashvili). <i>Georgian Math. J.</i> 10 (2003), No. 3, 531-542.
51*.	Boundary value problems for analytic and harmonic functions of Smirnov classes in the domains with nonsmooth boundaries (with V. Kokilashvili and Z. Meshveliani). <i>Proc. Conf. in Madeira in honour of Prof. G. Litvinchuk, Kluwer Academic Publishers</i> , (2003), 175-196.
52.	On the conformal mapping of simply connected domain with non-Jordan boundaries (with G. Khuskivadze). <i>Proc. A. Razmadze Math. Inst.</i> 136 (2004), 85-90.
53.	On a property of harmonic functions from the Smirnov class (with G. Khuskivadze). <i>Mem. Differential Equations Math. Phys.</i> 33 (2004), 87-94.
54.	On Zaremba's boundary value problem for harmonic functions of Smirnov classes (with G. Khuskivadze). <i>Mem. Differential Equations Math. Phys.</i> 32 (2004), 29-58.
55.	On a property of harmonic functions from the Smirnov class (with G. Khuskivadze). <i>Mem. Differential Equations Math. Phys.</i> 33 (2004), 87-94.
56.	Boundary value problems for analytic functions in the class of Cauchy type integrals with density in $L^{p(\cdot)}$ (with V. Kokilashvili and S. Samko). <i>Hindawi Publishing Corporation, Boundary Value Problems</i> , (2005), 43-71.
57.	One necessary condition for the continuity of singular Cauchy operator in Lebesgue spaces with a variable exponent. <i>Proc. A. Razmadze Math. Inst.</i> 138 (2005), 103-106.
58*.	Boundedness in Lebesgue spaces with variable exponent of the Cauchy singular operator on Carleson curves (with V. Kokilashvili and S. Samko). <i>Operator Theory: Advances and Applications</i> , Vol. 170 (2006), 167-186. Birkhauser Verlag Basel/Switzerland.
59.	Zaremba's problem for harmonic functions from this Smirnov's weighted classes in domains with piecewise Lyapunov boundaries (with G. Khuskivadze). <i>Proc. A. Razmadze Math. Inst.</i> 142 (2006), 129-133.
60.	On Hardy classes of analytic functions with a variable exponent (with V. Kokilashvili). <i>Proc. A. Razmadze Math. Inst.</i> 142 (2006), 134-137.
61.	The Dirichlet problem for harmonic functions from the Smirnov class with a variable exponent (with V. Kokilashvili). <i>Georgian Math. J.</i> 14 (2007), №2, 289-299.
62.	Zaremba's problem in the Smirnov class of harmonic functions in domains with piecewise Lyapunov boundaries (with G. Khuskivadze). <i>Proc. A. Razmadze Math. Inst.</i> 143 (2007), 79-94.
63.	On the Dirichlet problem for harmonic functions from Smirnov classes in double-connected domains (with G. Khuskivadze). <i>Proc. A. Razmadze Math. Inst.</i> 144 (2007), 41-60.
64.	On the Riemann-Hilbert problem in weighted classes of Cauchy type integrals (with V. Kokilashvili). <i>Lecture Notes of TIGMI</i> , (2007), 43-52.
65.	The Riemann-Hilbert problem in domain with piecewise smooth boundaries in classes of Cauchy type integrals with density from $L^{p(\cdot)}(\Gamma)$, (with V. Kokilashvili). <i>Proc. A. Razmadze Math. Inst.</i> 145 (2007), 103-109.
66*.	Riemann problem in the class of Cauchy type integral with density in $L^{p(\cdot)}(\Gamma)$ (with V. Kokilashvili and S. Samko), <i>Doklady Akademii Nauk</i> , V. 421 (2008), №2, 164-167,

	<i>(Doklady Mathematics</i> 78 (2008), №1, 510-513.
67*	The Riemann-Hilbert problem in weighted classes of Cauchy type integrals with density from $L^{p(\cdot)}(\Gamma)$, (with V. Kokilashvili). <i>Complex Anal. and Operator Theory</i> . V. 2 (2008), №4, 569-591.
68.	The Dirichlet problem for harmonic functions of Smirnov classes in doubly-connected domains with arbitrary piecewise smooth boundaries (with G. Khuskivadze). <i>Proc. A. Razmadze Math. Inst.</i> 146 (2008), 67-78.
69.	On convergence of sequences of functions in Hardy classes with a variable exponent (with V. Kokilashvili). <i>Proc. A. Razmadze Math. Inst.</i> 146 (2008), 124-126.
70.	Boundary value problems for analytic and harmonic functions in the frame of variable exponent analysis (with V. Kokilashvili). <i>Fift International Conference on Mathematical Modeling and Computer Simulation of Material Technologies MMT-2008</i> , Ariel University Center of Samaria, Ariel, Israel, September 08-12, 2008, v. 2, 97-103.
71.	On variable Hardy and Smirnov classes of analytic functions (with V. Kokilashvili). <i>Georgian International Journal of Science</i> , v. 1 (2008), №2, 67-81.
72.	On the Riemann-Hilbert-Poincare problem and I. Vekua's representation of Holomorphic Functions (with. V. Kokilashvili). <i>Bull. Georg. Nat. Acad. Sci.</i> Vol. 3 (2009), №1, 24-29.
73.	The Haseman boundary value problem in classes of functions representable by the Cauchy type integral with density in $L^{p(\cdot)}$, <i>Proc. A. Razmadze Math. Inst.</i> 150 (2009)
74*	The Riemann-Hilbert problem in the class of holomorphic functions representable by Cauchy type integrals in domains with piecewise smooth boundaries(with. V. Kokilashvili). <i>Georgian Math. J.</i> 16 (2009), №4,725-743.
