

ფიზიკა-მათემატიკის მეცნიერებათა კანდიდატი,  
ასოცირებული პროფესორი გიორგი პავლეს ძე ქარსელაძე

სამეცნიერო შრომები:

1. Karseladze G., *The basic interface problem for bodies*. Periodical Sci. J. "Intelecti" 3(6), 1999, 16-19.
2. Karseladze G., Giorgashvili L., Meladze R., *The solution of the homogeneous system of steady state oscillations of the theory of coupled thermoelasticity*. Proc. I. Vekua Inst. Appl. Math. 49(1999), 14-17.
3. Karseladze G., Giorgashvili L., Meladze R., *Boundary-contact problems for domains bounded by ellipsoid of rotation*. Reports of Enlarged Session Seminar I. Vekua Inst. Appl. Math. Tbilisi 16(2001) No. 2, 46-49.
4. Karseladze G., *The interaction between two bodies with different elastic fields*. Reports of Enlarged Session Seminar I. Vekua Inst. Appl. Math. Tbilisi 16(2001) No. 2, 54-57.
5. Karseladze G., Natroshvili D. *Uniqueness results for fluid-solid interaction problems*. Bull. Georgian Acad. Sci. 164(2001), No. 3, 454-457.
6. Karseladze G., *Uniqueness results for fluid-solid interaction steady state oscillation problem for a half-space*. Bull. Georgian Acad. Sci. 165(2002), No. 3, 484-487.
7. Karseladze G., Khmiadashvili M., *Interaction of an elastic and a scalar fields*. Reports of Enlarged Session Seminar I. Vekua Inst. Appl. Math. Tbilisi 18(2003) No. 2, 68-72 .
8. Karseladze G., Skhvitaridze K., Khmiadashvili M., *The boundary problem for the ball and the infinite space with the spherical cavity of viscous incompressible fluid*. Problems of applied mechanics. Georgian committee of IFToMM. No. 2(15)2004.
9. Karseladze G., Sadunishvili G., *Elastic body in the scalar field*. . Reports of Enlarged Session Seminar I. Vekua Inst. Appl. Math. Tbilisi 20(2005) No. 2 , 60-64.
10. Karseladze G., Khmiadashvili M., Meladze R., *Basic problems of the moment theory of elasticity*. Applied Math., Informatics and Mechanics. TSU Publishing House, 10(2005), No. 1, 39-71.

11. Karseladze G., Giorgashvili L., Sadunishvili G., *Solution of a boundary value problem of statics of two-component elastic mixtures for a space with two nonintersecting spherical cavities*. Mem. Differential Equations Math. Phys. 45(2008), pp 85-115.

### **I. Text books (in Georgian)**

1. Karseladze G., Skhvtaridze K., Sigua I., Elerdashvili E., Khmiadashvili M., Tediashvili Z., “Mathematics for economists” book of problems I part, GTU Publishing House, Tbilisi, 2004.
2. Karseladze G., Skhvtaridze K., Sigua I., Elerdashvili E., Khmiadashvili M., Tediashvili Z., “Mathematics for economists” book of problems II part, GTU Publishing House, Tbilisi, 2005.
