

ალექსანდრე მესხის სამეცნიერო ნაშრომების ნუსხა

მონოგრაფიები:

1. **A. Meskhi** Measure of Non-compactness for Integral Operators in Weighted Lebesgue Spaces. *Nova Science Publishers, New York* , 2009.
2. V. Kokilashvili, **A. Meskhi** and L. E. Persson, Weighted Norm Inequalities for Integral Transforms with Product Kernels, *Nova Science Publishers, New York*, 2009.
3. D. E. Edmunds, V. Kokilashvili and **A. Meskhi**, Bounded and Compact Integral Operators, *Kluwer Academic Publishers, Dordrecht, Boston, London*, 2002

გამოქვეყნებული ან დასაბუჯდად მიღებული სტატიები (ვარსკვლავით აღნიშნულია ის სტატიები, რომლებიც იმპაქტ-ფაქტორის მქონე ჟურნალებშია გამოქვეყნებული):

1. One and two weight estimates for one—sided operators in $L^{p(\cdot)}$ spaces. *Eurasian Math. J.* (to appear) (with V. Kokilashvili and M. Sarwar).
- 2*. V. Kokilashvili and **A. Meskhi**, A note on the boundedness of the Hilbert transform in weighted grand Lebesgue spaces, *Georgian Math. J.* **16** (2009), No.3, 547-551. (with V. Kokilashvili).
3. Maximal functions and potentials in variable exponent Morrey spaces with non-doubling measure. *Complex Variables and Elliptic Equations* (accepted for publication) (with V. Kokilashvili).
- 4*. Morrey spaces and fractional integral operators *Expo. Math.* **27**(2009), 227-239 (with Eridani and V. Kokilashvili).
- 5*. Two-weight estimates for strong fractional maximal functions and potentials with multiple kernels. *J. Korean Math. Soc.* **46** (2009), No. 3, 523–550 (with V. Kokilashvili).
- 6*. Boundedness criteria for maximal functions and potentials on the half-space in weighted Lebesgue spaces with variable exponents. *Integr. Transf. Spec. Func.* **20**(2009), No. 11, 805-819 (with M. Asif and V. Kokilashvili).
7. Two-weight criteria for one-sided strong fractional maximal functions. *Proc. A. Razmadze Math. Inst.* **149**(2009), 118-121. (with V. Kokilashvili).
8. Two- weight estimates for maximal, potential and singular operators in $L^{p(x)}$ spaces. *Proc. A. Razmadze Math. Inst.* **149**(2009), 122-125 (with V. Kokilashvili).
9. Maximal functions and singular integrals in Morrey spaces associated with grand Lebesgue spaces. *Proc. A. Razmadze Math. Inst.* **151**(2009).
- 10*. One-sided operators in $L^{p(x)}$ spaces. *Math. Nachr.* **281**(2008), No. 11, 1525–1548 (with D. E. Edmunds and V. Kokilashvili)
- 11*. Weighted estimates of a measure of non-compactness for maximal and potential operators. *J. Inequal. Appl.* 2008, Art. ID 697407, 19 pages (with M. Asif)
- 12*. Boundedness and compactness of positive integral operators on cones of homogeneous groups, *Positivity* DOI 10.1007/s11117-008-2217-8 (with U. Ashraf and M. Asif).
13. Boundedness of maximal and singular operators in Morrey spaces with variable exponent, *Armenian Journal of Mathematics* **1**(2008), No.1, 18-28 (with V. Kokilashvili).
- 14*. Weight characterization of the trace inequality for the generalized Riemann-Liouville transform in $L^{p(x)}$ spaces, *Math. Ineq. Appl.* (accepted for publication) (with U. Ashraf and V. Kokilashvili).
- 15*. Two-weight estimates in $L^{p(\cdot)}$ spaces with applications to Fourier series. *Houston Journal of Mathematics* **35**(2009) , No. 2, 665-689 (with D. E. Edmunds and V. Kokilashvili).

- 16*. On the essential norm for the Hilbert transforms in $L^{p(x)}$ spaces, *Georgian Math. J.* **15**(2008), No.2, 208-223 (with M. Asif).
17. One and two weight estimates for one-sided potentials in $L^{p(x)}$ spaces, *Proc. A. Razmadze Math. Inst.* **148**(2008), 126–133 (with V. Kokilashvili and M. Sarwar).
18. Maximal and potential operators in variable Morrey spaces defined on non-homogeneous spaces. *Bull. Georgian National Acad. Sci.* 2(2008), No.3, 18-21 (with V. Kokilashvili).
19. On the maximal and Fourier operators in weighted Lebesgue spaces with variable exponent, *Proc. A. Razmadze Math. Inst.* **146** (2008), 120-123 (with V. Kokilashvili)
- 20*. Weighted criteria for generalized maximal functions and potentials in Lebesgue spaces with variable exponent *Int. Trans. Spec. Funct.* **18** (2007), No. 9, 609-628 (with V. Kokilashvili).
- 21*. Two-weight estimates for singular and strongly singular integral operators. *Acta Math. Hungar.* **116** (2007), No. 1-2, 1--25. (with V. Kokilashvili and N. Lyall).
22. Two-weight Estimates for Strong Maximal Functions, Potentials and Singular Integrals with Multiple Kernels, *Proceedings of Conference on the Occasion of the 70 Anniversary of Professor Ryskul Oinarov, Astana, Kazakhstan, September 3-5, 2007*. Published in “*Evrastii’skii’ Matematicheskii’ Zhurnal*” No.2, 2007, 31-46 (with V. Kokilashvili).
23. On two--weight criteria for maximal function in $L^{p(x)}$ spaces defined on an interval, *Proc. A. Razmadze Math. Inst.* **145**(2007) , 100-102 (with V. Kokilashvili).
24. On one-sided operators in variable exponent Lebesgue spaces. *Proc. A. Razmadze Math. Inst.* **144**(2007), 126–131 (with D. E. Edmunds and V. Kokilashvili).
25. On a class of bounded and compact higher dimensional kernel operators, *Proc. A. Razmadze Math. Inst.* **144**(2007), 121–125 (with U. Ashraf and M. Asif).
- 26*. On a measure of non-compactness for some classical operators. *Acta Math. Sinica.* **22**(6)(2006), 1847-1862. (with D. E. Edmunds and A. Fiorenza).
27. Two-weight estimates in $L^{p(\cdot)}$ spaces for classical integral operators and applications to the norm summability of Fourier trigonometric series. *Proc. A. Razmadze Math. Inst.* **142**(2006), 123-128. (with D. Edmunds and V. Kokilashvili).
28. Two-weighted criteria for integral transforms with multiple kernels, In : *Proceedings of Conference on the Occasion of the 70 Anniversary of Professor Zbigniew Ciesielski, Bedlewo, 20 - 24 September, 2004, Institute of Mathematics, Polish Academy of Sciences, Banach Center publications* **72**(2006), 119-140 (with V. Kokilashvili) .
- 29*. A note on two-weight inequalities for multiple Hardy-type operators, *J. Funct. Spaces Appl.* **3**(2005), 223-237.
- 30*. On some two-weight inequalities for fractional integrals on nonhomogeneous spaces, *Z. Anal. Anwend.* **24**(2005), No.4, 871-885 (With V. Kokilashvili).
- 31*. On one-sided potentials with multiple kernels. *Integral Transf. Spec. Funct.* **16** (2005), No. 8, 669--683.(with V. Kokilashvili).
32. On a weighted Strichartz estimate for inhomogeneous wave equations. *Proc. A. Razmadze Math. Inst.* **139**(2005), 96-99 (with V. Georgiev).
33. Strong and iterated maximal functions, and applications to the mean summability of the double trigonometric Fourier series. *Proc. A. Razmadze Math. Inst.* **139**(2005), 132-136 (with V. Kokilashvili and Ts. Tsanava).
- 34*. On the boundedness and compactness of the weighted Hardy operators in $L^{p(x)}$ spaces. *Georgian Math. J.* **12**(2005), No.1, 27-44 (with D. E. Edmunds and V. Kokilashvili).
35. On two-weight estimates for strong fractional maximal functions and potentials with multiple kernels. *Proc. A. Razmadze Math. Inst.* **137**(2005), 135-140. (with V. Kokilashvili).
36. On two-weight inequalities for multiple Hardy-type operators. *Proc. A. Razmadze math. Inst.* **136**(2004), 149-153.
37. On a trace inequality for one-sided potentials with multiple kernels. *Frac. Calc. Appl. Anal.*

- 6(2003), No.4, 461- 472 (with V. Kokilashvili)
38. On the inversion and characterization of the Riesz potentials in the weighted Lebesgue spaces. *Memoirs Diff. Equation Math. Phys.* **29**(2003), 31-45. (With V. Kokilashvili and S. Samko)
- 39*. On a measure of non-compactness for singular integrals. *J. Function Spaces Appl.* **1**(2003), No.1, 35-43.
- 40*. A trace inequality for generalized potentials in Lebesgue spaces with variable exponent. *J. Funct. Spaces Appl.* **2**(2004), No.1, 55-69 (with D. E. Edmunds and V. Kokilashvili).
- 41*. On a measure of non-compactness for maximal operators. *Math. Nachr.* **254-255** (2003), 97-106. (with D.E. Edmunds).
42. Weight inequalities for one-sided potentials for critical weights. *Fract. Calc. Appl. Anal.* **5**(2002), No.3, 255-265 (with V. Kokilashvili).
- 43*. Potential-type operators in $L^{p(x)}$ spaces, *Z. Anal. Anwend.*, **21**(2002), 681-690 (with D.E. Edmunds).
44. Boundedness and compactness criteria for the generalized truncated potentials (Russian), *Proc. Steklov Math. Inst. RAN* **232**(2001), 164-178. Engl. Transl. In: *Proc. Steklov Inst. Math.* **232**(2001) (with V. Kokilashvili).
- 45*. On Fourier multipliers in weighted Triebel-Lizorkin spaces, *J. Inequal. Appl.* **7**(2002), No. 4, 555-591 (with. D.E.Edmunds and V. Kokilashvili) .
46. On the singular numbers for some integral operators. *Revista Mat. Compl.* **14**(2001), No.2, 379-393.
47. Fractional integrals on measure spaces, *Fract. Calc. Appl. Anal.* **4**(2001), No.1. 1-24 (With V. Kokilashvili).
48. Criteria of the boundedness and compactness for generalized one-sided potentials. *Real Anal. Exchange* **26**(2000/2001), No.1, 217- 236.
- 49*. On a trace inequality for one-sided potentials and applications to the solvability of nonlinear integral equations. *Georgian Math. J.* **8**(2001), No. 3. 521-536 (with V. Kokilashvili).
- 50*. Asymptotic behavior of singular and entropy numbers for some Riemann-Liouville type operators. *Georgian Math. J.* **8**(2001), No.2., 323- 332.
- 51*. Weight inequalities for singular integrals defined on spaces of homogeneous and nonhomogeneous type. *Georgian Math. J.* **8**(2001), No. 1, 33-59 (with D. E. Edmunds and V. Kokilahsvili).
- 52*. Criteria for the boundedness and compactness of operators with positive kernels, *Proc. Edinburgh Math. Soc.* **44**(2001), 267-284.
53. On a measure of non-compactness for the Riesz transforms. *Proc. A. Razmadze Math. Inst.* **129** (2002), 156—157.
54. On the boundedness and compactness criteria for the Riemann-Liouville type discrete operator. *Proc. A. Razmadze Math. Inst.* **126**(2001), 117-119.
- 55*. Criteria for the boundedness and compactness of operators with power-logarithmic kernels. *Analysis Math.* **27**(2001), No.2, 173- 185 (with V. Kokilashvili).
56. Norms of positive operators on some cones of functions defined on measure spaces. *Proc. A. Razmadze Math. Inst.* **122**(2000), 59-78 (with V. Kokilashvili).
- 57*. Two-weight estimates for singular integrals defined on homogeneous type spaces. *Canadian J. Math.* **52**(2000), No. 3, 468-502 (with D. E. Edmunds and V. Kokilashvili).
58. Weighted problems for higher dimensional singular integrals via Clifford analysis, *Proceedings of the NATO ARW " Clifford Analysis and its Applications" Held in Prague, October. 30- November 3, 2000*, F. Brackx, J.S.R. Chisholm and V. Soucek (eds.), 247-253, *Kluwer Academic Publishers, Dordrecht (The Netherlands)*, 2001 (with V. Kokilashvili).
59. On the boundedness and compactness of generalized truncated potentials. In: *Bull. of Tbilisi Int. Centre of Math. and Inform.* Vol. 4, 28-31, 2000 (with V. Kokilashvili).
60. Boundedness and compactness criteria for the generalized Riemann-Liouville operator.

- Proc. A. Razmadze Math. Inst.* **121**(1999), 161-162.
61. Boundedness and compactness criteria for some classical operators. *Proc. Int. Conf. "Function Spaces V", Poznan, Poland, August 28- September 3, 1998, Marcel Dekker Publ, 273-296, New York, Bazel, Marcell Dekker, 2000* (with V. Kokilashvili).
62. On the measure of non-compactness and singular numbers for the Volterra integral operators. *Proc. A. Razmadze Math. Inst.* **123**(2000), 162-165.
63. Two-weight inequalities for a discrete Hardy operators and Hilbert transform. *Bull. Acad. Sci. Georgia* **158**(1998), No. 2, 191-193 (with I. Gabisonija).
64. On the boundedness and compactness of ball fractional integral operators. *Fract. Calc. Appl. Anal.* **3** (2000), No.1, 13-30.
- 65*. Two-weight inequalities for integral operators in Lorentz spaces defined on homogeneous groups. *Georgian Math. J.* **6**(1999), No.1, 65- 82 (with V. Kokilashvili).
66. Boundedness and compactness of Hardy-type operators in Banach function spaces. *Proc. A. Razmadze Math. Inst.* **117**(1998), 7-30 (with D. E. Edmunds and V. Kokilashvili).
67. Two-weight inequalities for a discrete Hilbert transform. *Proc. A. Razmadze Math. Inst.* **116**(1998), 107- 122. (with I. Gabisonija).
- 68*. Solution of some weight problems for the Riemann-Liouville and Weyl operators. *Georgian Math. J.* **5**(1998), No.6, 265-274.
69. Koosis type theorems for singular integrals and potentials defined on homogeneous groups. *Proc. A. Razmadze Math. Inst.* **114**(1997), 59- 70.
70. Two-weight inequalities for potentials defined on homogeneous groups. *Proc. A. Razmadze Math. Inst.* **112**(1997), 91- 111.
71. Two weight inequalities for singular integrals defined on homogeneous groups. *Proc. A. Razmadze Math. Inst. Georgian Acad. Sci.* **112**(1997), 57-90 (with V. Kokilashvili).
- 72*. Weighted inequalities for the Hilbert transform and multipliers of Fourier transforms. *J. Inequal. Appl.* **1**(1997), No. 3, 239- 252 (with V. Kokilashvili).
73. Weighted inequalities for Riemann-Liouville transform, *Proc. A. Razmadze Math. Inst.* **117**(1998), 151-153.
74. Boundedness and compactness weighted criteria for Riemann-Liouville and one-sided maximal operators. *Proc. A. Razmadze Math. Inst.* **117**(1998),126-128.
- 75*. Two-weight estimates for singular integrals defined on homogeneous groups. (Russian) *Doklady Academy Nauk RAN* **354**(1997) No 3. 301-303. English transl. in *Doklady Mathematics* **55**(1997), No 3, 362-364 (with V. Kokilashvili).
76. Two-weight inequalities for Hardy-type transforms and singular integrals defined on homogeneous type spaces. *Proc. A. Razmadze Math. Inst.* **114**(1997), 119-123 (with V. Kokilashvili).
77. Two-weight inequalities for potentials on the Lorentz spaces defined on homogeneous groups. *Proc. A. Razmadze Math. Inst.* **112**(1997), 148-150.
78. Two-weight inequalities for singular integrals on the Lorentz spaces defined on homogeneous groups. *Proc. A. Razmadze Math. Inst.* **112**(1997), 143-145 (with V. Kokilashvili).
79. Two-weight inequalities for the Hardy operator on the Lorentz spaces defined on homogeneous groups. *Proc. A. Razmadze Math. Inst.* **112**(1997), 138-140 (with V. Kokilashvili).
80. Two- weight inequalities for potentials on homogeneous groups. *Bull. Acad. Sci. Georgia* **154**(1996), No 3. 353-355.
81. Two-weight inequalities for singular integrals on Heisenberg groups. *Bull. Acad. Sci. Georgia* **153**(1996), No.1 34-36.
