

On May 20-26, GTU Faculty of Architecture, Urban Planning and Design representatives, Prof. Nino Imnadze (Dean of the Faculty) and Associate Professor Natia Kochladze visited the Faculty of Architecture at University of Lisbon within ongoing Erasmus+ mobility project for teaching activities (coordinated by ULisboa).

GTU Professors gave lectures about “Transformation in architecture” and “Influence of nature conditions on the creation of Georgian residential houses interiors”. The lectures were attended by postgraduate students and Professor-teachers.

Besides the lectures, Georgian Professors participated in the discussion of course projects for "Architectural Designing".

Mobility visit included working meetings with ULisboa Professors: Antonio Castelbranco, Pedro Rodrigues and Oksana Turchanina. Some activities were discussed for the farther improvement of dual diploma PhD program "Sustainable Urbanism" which was prepared in collaboration with FA ULisboa.

Moreover one more project was planned during these meetings. The project activities will include the development of PhD program in architecture and urban planning. This project gives the opportunity to more PhD students to participate in the exchange programs.
