

Engineering Institute of Membrane Technologies

Scientific Report

2013B

Scientific-Research Works Planned and Implemented in 2013 Funded by the State Budget of Georgia

#	Title of the Work	Work Supervisor	Work Performers
1	Research of the combined method of ultra and nanofiltration baromembrane processes for the partial demineralization of drinking water (1.5 - 3.5 mg.-eq/l)	G. Bibileishvili	Head of the department of membrane process research – K. Domianidze
#	Title of the Work	Work Supervisor	Work Performers
2	Research of the combined method of ultrafiltration and reverse osmosis baromembrane processes for the demineralization of drinking water (less than 1,5 mg. - eq/l)	G. Bibileishvili	Department of membrane technology and processing of technique Head – E. Kakabadze
