

Institute of Hydrogeology and Engineering Geology

Scientific report

2016

I. 1. The scientific and research projects planned and implemented by 2016 with the financing of the state budget of Georgia (have no completed project for 2016, since all of them are in transition and are prescribed for 2015-2017)

I. 2.

#	The name of the work prescribed and performed by the plan indicating scientific field and scientific direction	Work Supervisor	Work Performers
1	Field: Geology Scientific direction: Hydrogeology Project "Establishment of regularity of formation and distribution of Adjara-Trialeti mineral water, cadastre processing and mapping"	Acad. Doct. B. Mkheidze	Acad. Doct. L. Ghlonti Acad. Doct. Z. Kakulia Master A. Songhulashvili Master: I. Nanadze Master: M. Kopadze
2	Field: Geology Scientific direction: Hydrogeology Project "High class natural drinking water"	Scient.Doct. Prof. B. zautashvili	Acad. Doct. B. Mkheidze Acad. Doct. Z. Kakulia Master A. Songhulashvili Master: I. Nanadze Master: M. Kopadze
3	Field: Geology Scientific Direction: Engineering Geology. Project "The reasons of causing deformations of Tbilisi damaged buildings and obtaining the anti-counter measures ".	Scient.Doct. T. Tevzadze	techn. Scienc. Doct. Prof. G. Chokhonelidze Acad. Doct. Z. Kakulia Acad. Doct. Z. Varazashvili Acad. Doct. D. Chutkerashvili Master M. Kopadze

	Scientific Objectives - Engineering Geology.		
4	<p>Field: Geology</p> <p>Scientific Direction: Engineering Geology.</p> <p>Study of modern engineering geological conditions of the Kolkheti coastal zone regarding environmental protection and its rational use</p>	<p>Scient.Doct. GG. Iashvili</p>	<p>Acad. Doct. Z. Varazashvili Scient. Doct. T. Dzadzamia Master R Chikhradze</p>
