

**Food Industry Institute**  
**Total quantitative indicators by research institutes**

**5. Scientific-research and practical activities**

- Ph.D degree -5
- Candidate of Sciences- 10
- Doctor's academic degree- 1

**5.1. Scientific-research, practical, educational-methodological and pedagogic activities relevant to the competition profile)**

- Grants of Georgia - 1
- Georgian Technical University Grants - 2
- International grants -
- Projects
- Translation activity

**6. Other activities of the competitor, achievements, qualifications, experience and merit**

**6.1. Publications\*:**

Name	Quantity	
	Including 2012	YY 2013-2017
Monographs	2	15
Scientific articles	1999	217

Manuals, supporting textbooks, other educational and methodology measures and literature		9	17
Participation in conferences (congresses, symposiums)		147	29
Management of Master Degree (Qualification) Papers, Consultancy:			
• doctor of Science			
• Candidate of Sciences		2	
• Doctor's academic degree		42	
• Master degree		8	6
Leadership of Winner / Presented Student Report on Conferences		6	
Inventions (copyright certificates or patents)	Total number	93	4
	Including sold one (introduced)	10	

## 6.2. Other activities\*

- Member of the Georgian National Academy of Sciences / Member Correspondent
- Membership of other field academies-5
- Membership of foreign academies
- Experience in editorial collegium-2
- Membership of the Conference Organizing Committee-5
- Improvement of qualifications (trainings, workshops and other):-12
- Awards (National / State / Field Award, Order, Medal, etc.)-24
- Comercialización of scientific and research activities, -968

- The Institute has created 474 standards for new products, 312 technological instructions for production of innovative products in 1995-2009. In 2012-2017 the food and processing industry was created and entrepreneurs were given 182 standard and technological instructions on the production of innovative products. In case of necessity, the Institute will present a complete list of innovative technologies and receptors for foodstuffs.

- **Other activities:**

1. The Institute has created a new technology of vodkaChacha, which allows to improve the quality of the drink and the competitiveness on the world market. With the new technology, Georgia can produce about 350-400 million euros of export products.
2. In order to implement a wide range of technologies in the field of technology, by the initiative of the institute of the Law on "Vine and Wine" was amended, according to which the vodkaChacha can be obtained from the whole fermented ridge.
3. Based on the research conducted at the Institute, a state target program was created "Food Industry of Georgia. Export potential and innovative technologies of its implementation. " The program was reviewed and approved by the National Academy of Sciences, Georgian Academy of Agriculture, whose recommendations were sent to the Government of Georgia.
4. A collection of recommendations was created in Russian and English for foreign investors:  
„World realities and prospects for the production of essential oils and natural dyes in Republic of Georgia“.
5. For the first time, monographs "Georgian Winemaking" and "Grapevine Georgian Vodka Chacha" were written on the basis of research conducted by the Institute as a way to increase awareness of Georgia. Theory and Practice ", where the scientific basics of Georgian types of table wines and chacha technologies were first described. Presentations of monographs were held at the University of California and Napisa Wine Factory (USA), at the international conference "Viticulture and Winemaking in European Countries, Historical Aspects and Prospects" Tbilisi, 2017.
6. 43 conclusions on the falsification of the products and drinks presented by the Ministry of Internal Affairs of Georgia have been issued.
