

Cost - European cooperation in Science and Technology

COST Actions are a flexible, fast, effective and efficient networking instrument for researchers, engineers and scholars to cooperate and coordinate nationally funded research activities. COST Actions allow European researchers to jointly develop their own ideas in any science and technology field.

COST Actions are active through a range of networking tools, such as:

- meetings, workshops, conferences,
- training schools,
- short-term scientific missions (STSMs),
- dissemination activities.

COST Actions does not fund research itself.
