Georgian

Aim of educational program

Prepare high qualified specialists and researchers to comply with the international competitiveness of the labor market with the skills and the use of innovative methods of business administration, based on the Georgian Technical University mission.

Learning Outcome of Educational Program:

Knowledge and understanding: knowledge based on the latest achievements of the Business Administration, which enables us to expand existing knowledge or use innovative methods (at the standard level required for a referential publication). Enhance the renewed scope of knowledge through re-understanding of existing knowledge and partial reevaluation. Ability to use knowledge in practice: planning, implementing and overseeing the current innovative research of business administration independently; Developing new research and analytical methods and approaches that are oriented towards creating new knowledge and reflecting in international referencing publications.

Conclusion: Synthesis and Evaluation of Critical Analysis of New Ideas and Approaches in Business Administration; Development of new methodology / development; Getting the right and effective decision independently to solve the problem.

Communication skills: to be inter-disciplined and clear in relation to the knowledge of knowledge of new knowledge in foreign and foreign languages; Ability to prepare a detailed written report on ideas, current problems and solutions, auditory presentation and writing information; Ability to conduct public speeches.

Learning ability: Development of new ideas or processes based on knowledge based on the modern achievements of business administration in learning and activities, including research. Values: Research the ways of establishing values and developing innovative methods for their establishment.

Rule for evaluation

Evaluation is made under grade system.

Positive evaluation is following:

- (A) – excellent – 91% of maximum evaluation and more;
- (B) – very good – 81-90% of maximum evaluation;
- (C) – good – 71-80% of maximum evaluation;
- (D) – satisfactory – 61-70% of maximum evaluation;
- (E) – Sufficient – 51-60% of maximum evaluation.

Negative evaluation is following:

- (FX) – Failed – 41-50% of maximum evaluation, which means that student needs more work for passing and is given the right for once more passing additional exam on the basis of independent work.
- (F) – Failed – 40% of maximum evaluation and less, which means that the work performed by the student is not enough and has to learn the subject again.

Relevant forms and methods for evaluating student's knowledge is given in syllabuses and the description of criteria and scales, relevant methods for evaluation forms are attached to educational program, also mentioned is uploaded on university's website.
