2	The genesis of Georgia's European orientation	Emzar Pazhava	2018-2022	57 000 GEL	finished	Grant agreement YS-18-200

-Aim of the project-

Introducing into the scientific circulation of the unknown until nowadays - historical sources about Georgia of the XVII -XVIII centuries preserved in the archives of Vatican.

-Outcomes-

“European Sources about Georgia” (based on the handwritten materials available in Italian and Latin);
Monograph: “Georgia in the European World (the 70-s of the XVII Century - XVIII Century)” (in Georgian and English).

-**Recommendations:** target audience: Researchers, MA, Ph.D. students

Abstracts:

2. - specific result:

Lecture course

Within the framework of the project, a lecture course on the European idea and European integration of Georgia was prepared and published for students.

Lectures

Three semesters of lecture courses were held during the project. The project beneficiaries were the bachelor students of Engineering Economics, Public Relations, Media Technologies, and a European study.

409 students instead of 360 participated in lectures and seminars.

International scientific Conferences

In total, 3 international scientific conferences were held during the project.

Proceedings of the conference

3 issues of the collection of conference proceedings were prepared and printed, including in English. The name of the collection is Georgia and Europe.

17 Georgian and 13 foreign educational and scientific institutions participated in the conference. The conference was attended by 134 participants, including professors and doctoral students.

Website

In order to disseminate information about the progress of the project, a web page was created in Georgian and English languages. The website contains all information about the project.

Recommendations: target audience - undergraduate students of engineering economics, public relations and media technologies. Scientists, undergraduates, and doctoral students.
