

## Law of Georgia

### on Higher Education

#### Chapter I. General Provisions

##### **Article 1. Scope of the Law**

This Law regulates the process of carrying out educational, scientific research activities by higher education institutions in Georgia, and the principles and procedures of administering and financing higher education; it also defines procedures for the establishment, reorganisation of the activities and for the liquidation of higher education institutions, as well as principles of the authorization and accreditation of higher education institutions.

Law of Georgia No 2795 of 17 March 2006 - LHG I, No 9, 31.03.2006, Art. 67

Law of Georgia No 3528 of 21 July 2010 - LHG I, No 48, 05.08.2010, Art. 299

##### **Article 2. Definition of the Terms**

The terms used in this Law have the following meaning:

- a) Entrant - a person who has completed general education and who holds a certificate of completion thereof or its equivalent document issued in Georgia, and who intends to continue studies at a higher education institution;
- b) Autonomy – the rights of higher education institutions and their main educational units to determine and carry out academic, financial, economic and administrative activities independently;
- b<sup>1</sup>) Authorisation – – procedures for acquiring the status of a higher education institution, intended to ensure compliance with the standards necessary to implement appropriate activities for issuing a document certifying education recognised by the State;
- c) Academic freedom – the right of the academic personnel and students to carry out research, teaching and learning activities independently;
- c<sup>1</sup>) Attestation – determination of compliance of professional skills, academic activities and scientific activities of a Professor and a chief research fellow with the requirements set for the occupied positions;
- d) Mobility – free movement of students and academic personnel to ensure the participation in learning, teaching and research activities both in Georgia and abroad, that is followed by the recognition of the education, credits acquired/accumulated or qualification gained during the study period;
- e) Academic Council – the highest representative body of a legal entity under public law (LEPL) higher education institution;
- e<sup>1</sup>) Higher academic education – a higher education course consisting of Bachelor’s and Master’s programmes, Integrated Bachelor’s and Master’s Educational Programme of Teacher Training, Integrated Master’s Educational Programme of Veterinary and Doctoral programme;
- e<sup>2</sup>) (Deleted - 20.09.2018, №3438)
- f) Academic degree – a qualification awarded to a person by a higher education institution or by an orthodox theological higher education institution upon completion of the relevant cycle of the academic higher education;
- f<sup>1</sup>) joint academic degree – qualification jointly awarded to a person by higher education institutions recognised under the legislation of Georgia and/or a foreign country as a result of implementing a joint

higher education programme after completion by the person of an appropriate cycle of academic higher education;

f<sup>2</sup>) Associate Degree - qualification, which is awarded to a person as a result of achieving the learning outcomes and the accumulation of credits envisaged in the short cycle educational programme;

g) Academic title – a title (honorary doctor, emeritus) granted to scholars or public figures for their special merits as provided for by the legislation of Georgia;

h) Accreditation – procedures for determining the compliance of educational programmes of higher education institutions with accreditation standards, which are intended to introduce a systematic self-evaluation system and facilitate the development of quality assurance mechanisms for the improvement of education quality, on the basis of which State financing is acquired, as well as for the implementation of certain programmes determined by this Law;

i) Assistant Professor - a person holding an academic position of a higher education institution who participates in the academic and scientific research process according to his/her competence;

i<sup>1</sup>) Assistant - a person occupying an academic position at a higher education institution who conducts seminars and performs research activities under the supervision of a Professor, an Associate Professor or an Assistant Professor during studies at main educational units;

j) Associate Professor – an academic position at a higher education institution. An Associate Professor participates in the study process and supervises learning and scientific research activities of students;

k) Head of the Administration (Chancellor) – the head of a higher education institution administration in the field of management of financial, material and human resources;

l) Bachelor - a person holding the academic degree that is awarded as a result of the accumulation of the number of credits provided for by the Bachelor's educational programme;

l<sup>1</sup>) Bachelor's educational programme – The first cycle educational programme of academic higher education, the learning outcomes of which correspond to the generalized learning outcomes defined for Level 6 of the National Qualifications Framework;

m) Bachelor's studies - First cycle of higher academic education;

m<sup>1</sup>) Independent scientific research unit – an independent structural unit of a Legal Entity under Public Law (LEPL) university or of a major educational unit of a university (a scientific research institute, centre, laboratory, etc.), which carries out scientific research work and has management bodies. Independent scientific research unit shall have the right to participate in the learning process. The independent scientific research unit must meet the criteria determined by the Statute of a higher education institution and must be established in accordance with the procedure established by the Statute. The scope of autonomy of an independent scientific research unit, management and performance procedure shall be defined by the statute of the university;

m<sup>2</sup>) a LEPL scientific research institution within a LEPL university – an institution established by the Government of Georgia within a LEPL university with the consent of the university. A LEPL the scientific research institute affiliated at the LEPL the university carries out scientific research activities and shall be authorized to take part in the study process based on the contract concluded with a higher education institute;

n) Diploma – a document certifying qualification awarded by a higher education institution, and a document certifying qualification jointly awarded by higher education institutions recognised by the legislation of Georgia and/or of a foreign country;

- n<sup>1</sup>) Certified medical doctor/dentist – a person holding an academic degree granted for completing an academic medical higher education programme and for gaining the required number of credits. The programme provides for training a Medical Doctor/Doctor in Dentistry for practical professional activities;
- n<sup>2</sup>) Master of Education – a holder of an academic degree awarded to a person as a result of completing the integrated Bachelor's and Master's educational programme of teacher training or a Master's educational programme and obtaining the determined credits. ### **Article 3. Goals of Higher Education**

1. The main goals of higher education in Georgia are as follows:
  - a) Promotion of the formation of Georgian and global cultural values, orientation toward the ideals of democracy and humanism essential for the existence and development of civil society;
  - b) To satisfy the needs to obtain higher education, qualification and training corresponding to the interests and capabilities of the individuals;
  - c) To realize the personal potential, develop creative skills, train persons with competences suitable for present-day requirements, ensure the competitiveness of persons with higher education in internal and external labor market, offer high-quality higher education to the interested persons, envisaging the requirements of the students and the society.
  - d) To train and re-train new scientific personnel, create, ensure and develop scientific research conditions to ensure the sustainability of the State and the higher education system itself;
  - e) To encourage the mobility of students and academic personnel of higher education institutions.
2. To achieve the goals set forth in Paragraph 1 of this Article, the State shall ensure:
  - a) access to and openness of higher education and academic freedom in learning, teaching and scientific research; including for the convicted persons, within the limits established by Georgian legislation;
  - b) the opportunity to acquire higher education at any time during a person's lifetime;
  - c) the integration of higher education and science;
  - d) development of quality assurance systems that considers functioning of authorization system, accreditation system and quality management (assurance) mechanisms at higher education institutions;
  - e) full participation in a unified European educational and research area for the processes of learning, teaching and for conducting scientific research works, as well as in other international systems of cooperation;
  - f) autonomy of a higher education institution;
  - g) participation of academic personnel, scientific personnel and students of a higher education institution in the process of making decisions and monitoring of their execution;
  - h) prevention of any forms of discrimination in the field of higher education, including academic, religious or ethnic discrimination, as well as discrimination on the grounds of opinion, sex, social origin and others;

- i) publicity and transparency of the management of higher education institutions and of the competitions held in these institutions;
- j) provision of other conditions that facilitate achievement of the goals specified by Paragraph 1 of this Article.

3. To achieve the goals set forth in Paragraph 1 of this Article, a higher education institution shall:

- a) train a person for such professional activities which require the application of both scientific knowledge and scientific methods;
- b) care about the professional development of its personnel;
- c) promote the improvement of students' social conditions;
- d) provide appropriate learning conditions defined by the Law of Georgia on the Rights of Persons with Disabilities for students with disabilities;
- e) facilitate the development of sports within its authority;
- f) cooperate with any other higher education and scientific research institutions of Georgia;
- g) promote international cooperation and exchange of students/professors with the relevant foreign educational institutions;
- h) serve the development of science through teaching, learning and professional development in a free, democratic and socially equitable environment;
- i) support the dissemination of modern knowledge and technologies;
- j) ensure the accessibility and openness of higher education, academic freedom, life-long provision of higher education opportunities, involvement of academic personnel, scientific staff and students in decision-making and in the monitoring of its implementation, publicity and transparency of higher education institution management and competitions held therein, prohibition of all forms of discrimination in the field of higher education, including, on academic, ethnic, religious or social grounds, and/or based on views, gender, or any other grounds;
- k) ensure the provision of any such conditions which promote the accomplishment of the goals provided for by Paragraph 1 of this Article.

4. Academic freedom may be restricted only in the following cases:

- a) determining organisational issues and priorities in order to achieve freedom of scientific research;
- b) resolving organisational issues regarding the study process, and the issues concerning the approval of the timetable of lectures and the curricula, in order to achieve freedom of teaching;
- c) organising the study process and ensuring high quality studies in order to achieve freedom of learning;
- d) when the performance of scientific research and publication of its results are limited by a labour contract or they contain State confidential information.

5. No structural units of political and religious organisations can be established within a higher education institution.

Law of Georgia No 3438 of 20 September 2018 – website, 05.10.2018

#### **Article 10. Distinguishing the Competences within a Higher Education Institution**

1. A higher education institution shall, under this Law:

a) approve the basic directions of study, research and creative activities;

b) draft the statute, approve that institution's internal regulations, the grounds and rules for the ethics and disciplinary responsibility;

c) approve common rules for the recruitment of the academic and auxiliary personnel;

d) approve the coefficients for specific disciplines for the Unified National Examinations submitted by the basic educational units;

d<sup>1</sup>) make a decision regarding the assignment or not assignment of coefficients to the Unified Master's Examinations upon the recommendation of the main educational units in cases determined by the legislation of Georgia. If coefficients are assigned to the Unified Master's Examinations, a higher education institution shall approve the coefficients for each part of the Unified Master's Examinations and for the examination/examinations determined by it; however if the coefficients are not assigned to the Unified Master's Examinations and Master's candidates manage to pass a minimum threshold level in the Unified Master's Examinations for admission to Master's Programmes as provided for by the legislation of Georgia, the higher education institution shall apply the coefficients assigned to the examination/examinations determined by it;

e) elect managerial bodies and officials of the institution;

f) dispose own finances and assets in the manner prescribed by the legislation of Georgia;

g) be obliged, upon the recommendation of the basic educational unit, determine exams for Master's candidates in respective specialty; it shall also have the right to determine exams at any other subject/subjects;

h) approve procedures for the taking of the examination/examinations determined by higher education institutions for Master's candidates as provided for by an order of the Minister of Education and Science of Georgia upon the recommendation of the main educational units and in cases determined by the legislation of Georgia;

h<sup>1</sup>) establish the minimum threshold level in the examination specified in the list of international examinations approved by the Ministry of Education and Science of Georgia, and if a person exceeds a minimum threshold level, he/she may take the examination/examinations established by a higher education institution;

i) for carrying out Master's Programmes determine the compliance of the list of specialisation/specialisations, submitted by the main educational units, with the academic disciplines approved by the Government of Georgia for the Master's Programmes of higher education institutions, upon the approval of the National Centre for Educational Quality Enhancement;

j) determine and submit to the National Assessment and Examinations Centre, in accordance with each academic discipline, the list of Master's candidates, who have passed the examination/examinations determined by higher education institutions and acquired the right to continue studies for the Master's Programmes at an appropriate higher education institution.

k) carry out the activities provided for by the Georgian legislation within the system of professional orientation, consulting and career planning in the formal education.

1<sup>1</sup>. The independent scientific research unit shall have the right to:

a) carry out fundamental and applied scientific research activities;

b) carry out consulting and expert activities in the manner prescribed by the legislation of Georgia;

c) organize, in the manner prescribed by the statute of the higher education institute, scientific conferences and any other scientific events;

d) cooperate with Georgian and foreign scientific research institutions in the manner prescribed by the statute of the basic educational unit/the statute of the higher education institution;

e) take part in international scientific events in the manner prescribed by the statute of the basic educational unit/the statute of the higher education institute;

f) participate in the preparation and implementation of higher education programmes under the procedure established by a higher education institution, and in the preparation of Bachelor's and Master's theses and dissertations by students;

g) in the manner prescribed by the higher education institution, involve students in scientific grant projects, local and international scientific conferences and scientific research activities;

h) carry out any other activity provided for by the Georgian legislation and the statute of the independent scientific research unit.

2. The Main educational units of higher education institutions, under this Law, shall:

a) develop basic directions of the study, scientific research and creative activities, and draft respective programmes and plans;

b) develop the procedure for recruiting academic personnel, and the procedure for recruiting scientific personnel (if any);

c) determines coefficients for the Unified National Examinations in the beginning of an academic year;

d) be authorised to make a decision on the assignment or not assignment of coefficients to the Unified Master's Examinations as provided for by an order of the Minister of Education and Science of Georgia and if assigned, determine the coefficient for each part of the Unified Master's Examinations and also assign coefficients to the examination/examinations determined by it;

e) organise examination/examinations for Master's candidates;

f) elect management bodies and officials;

g) provide a mechanism for ensuring quality study and research;

- h) resolve the issues related to the ownership of finances acquired and to their own property, and issues related to the use of this property as provided for by the legislation of Georgia and their statute;
- i) develop procedures for organising the examination/examinations for Master's candidates determined by higher education institutions as provided for by an order of the Minister of Education and Science of Georgia;
- j) determine the list of specialization/specialisations within the scope of academic disciplines for carrying out Master's Programmes.
- k) carry out the activities provided for by the Georgian legislation within the system of professional orientation, consulting and career planning in the formal education.

2<sup>1</sup>. A legal Entity under Private Law – a higher education institution itself (except for a higher education institution established by the State) shall determine the delimitation of competences provided for under this Law between the higher education institution and a major educational unit. Delimitation of competences shall not apply to awarding a qualification as it falls within the competence of the major educational unit. Delimitation of competences shall not be necessary if there is only one major educational unit at a higher education institution.

2<sup>2</sup>. Scopes of authorities and procedures for delimiting such authorities at Orthodox theological higher education institutions, as provided for by this Article, shall be determined by the Catholicos-Patriarch of all Georgia.

2<sup>3</sup>. Kutaisi International Institute shall, on its own, define the separation of competences under this Law between a higher education institution and a major education unit.

3. A higher education institution shall meet the requirements determined by Article 52<sup>1</sup> (1) of this Law if it is a member of the Unified Master's Examinations Network.

4. Powers between a State-funded higher education institution and an international school / international master's-doctoral school are divided by an international school / international master's-doctoral school charter and a State-run higher education institution and by agreement between the State-run higher education institution and the international school head/ international master's-doctoral school head.

5. The Academic Council, in accordance with the rules established by Chapter IV<sup>3</sup> of this Law, upon the recommendation of the international school head/international master's-doctoral school head, shall approve for the international school / international master's-doctoral school the following:

- A) at the beginning of the academic year - the coefficients for the Unified National Examinations, as well as the number of students to be admitted to the international school;
- B) international master's-doctoral school Master's Examination coefficients for master's examinations, as well as the number of students admitted to the international master's-doctoral school;
- C) the limit of minimum competence in the exam provided by the list of international exams approved by the Ministry;
- D) Strategic development plan of the international school / international master's-doctoral school, educational and scientific research programmes;
- E) Statute of the international school / international master's-doctoral school dissertation council.

Law of Georgia No 4582 of 27 November 2015- website, 10.12.2015

#### **Article 11. Higher Education Institution Established by the State**

1. The State establishes a legal entity under public law or a non-entrepreneurial (non-commercial) legal entity under private law in order to acquire the status of a higher education institution.
2. State supervision over the LEPL higher education institution (except for the Kutaisi International University, as well as military, police, maritime, arts, and sports higher education institutions) shall be carried out by the Ministry of Education and Science of Georgia as provided for by the Law of Georgia on Legal Entities under Public Law and this Law. State supervision over the military, police, maritime, arts, and sports higher education institutions shall be carried out by appropriate bodies.
3. The name and purpose of an education institution, and measures related to the transfer of property to the institution shall be determined and the acting head of the institution shall be appointed on the basis of the act of the Government of Georgia on the establishment of legal entities under public law and non-entrepreneurial (non-commercial) legal entities under private law for acquiring the status of a higher education institution. A temporary (provisional) charter shall determine the powers related to the passing through authorization/accreditation by an acting head, and to the implementation of higher education activities before the elections of management bodies.
4. Higher education institutions, including legal entities under public law, shall not have right to carry out general education activities without establishing another independent legal entity.
5. In order to facilitate the development of arts and creative, and/or sports education in the country, the arts-creative and/or sports higher education institutions established by the State may carry out out-of-

school arts and/or sports educational programmes, within the scope of auxiliary activities, for the pupils of general education institutions as provided for by this Law and the statutes of the arts and creative, and/or sports higher education institutions, in coordination with the Ministry of Culture, Sports and Youth Affairs and the Ministry of Education and Science of Georgia.

### **Article 15. Management of a Higher Education Institution**

1. The management bodies of a higher education institution shall be determined and the scope of authority among these bodies is delimited by the statute of the institution.

2. The management bodies (managing units) of a LEPL higher education institution are as follows: The Academic Council, the Council of Representatives, the Rector, the Head of Administration and the Head of Quality Assurance Service.

2<sup>1</sup>. At the higher education institutions established by the State:

a) the remuneration of the Rector shall be determined within the range of the maximum amount of a Professor's remuneration multiplied by a coefficient not less than 1.15 and not more than 1.35;

b) the remuneration of the Head of Administration shall be determined within the range of the maximum amount of a Professor's remuneration multiplied by a coefficient not less than 1.10 and not more than 1.30;

c) the remuneration of the head of the quality assurance office of a higher education institution and of the head of the quality assurance office of a main educational unit shall be determined within the range of the maximum amount of a Professor's remuneration multiplied by a coefficient not less than 1.10 and not more than 1.30;

d) the remuneration of the Dean of a main educational unit shall be determined within the range of the maximum amount of the remuneration corresponding to the occupied academic position, multiplied by a coefficient not less than 1.10 and not more than 1.30.

3. The management bodies (managing units) of a main educational unit of a LEPL higher education institution are: The Council of a main educational unit, the Dean of a main educational unit and the quality assurance office of a main educational unit.

4. A higher education institution shall develop quality assurance mechanisms.

5. A higher education institution established by the State as a non-entrepreneurial (non-commercial) legal entity shall have at least one collegiate body that comprises the elected representatives of the academic personnel and students of the main educational units.

6. The Head of a higher education institution established by the State as a non-entrepreneurial (non-commercial) legal entity shall be elected.

7. The senior administrative manager in the areas of financial, material and administrative resources of a higher education institution established by the State as a non-entrepreneurial (non-commercial) legal entity shall be the Head of Administration.

8. The Higher Education Institution Development Fund may be established for the purpose of administering the property of a higher education institution, established by the State as a non-entrepreneurial (non-commercial) legal entity.

9. A higher education institution established by the State as a non-entrepreneurial (non-commercial) legal entity and the Higher Education Institution Development Fund may purchase literature (printed, electronic or recorded on audio-visual drives) through simplified procurement procedures. Other products may be purchased through simplified procurement procedures upon the consent of the Board of Regents.

Law of Georgia No 4792 of 17 June 2011 - website, 06.07.2011.

Law of Georgia No 1081 of 6 September 2013 - website, 20.09.2013.

#### **Article 16. Management Principles of a Higher Education Institution:**

1. A higher education institution shall ensure:

a) publicity and availability of decisions of a higher education institution, the reports of the governing bodies and legal acts for all interested persons. To the non-entrepreneurial (non-commercial) legal entity established by the State shall apply the provisions of the freedom of information established by the General Administrative Code of Georgia. This institute shall have developed transparent procedures of decision-making;

b) academic freedom of academic personnel, scientific personnel and students;

c) participation of academic personnel, scientific personnel and students in the decision-making;

d) equal treatment regardless of the person's ethnic background, gender, social background, political or religious believes, etc.;

e) fairness and transparency of elections at higher education institutes and openness of competitions.

2. By the statute of a higher education institute and the statutes of structural units, no provisions restricting those principles shall be established.

Law of Georgia No 4792 of 17 June 2011 - website, 06.07.2011.

Law of Georgia No 4582 of 27 November 2015- website, 10.12.2015.

#### **Article 17. The Rule for Electing the Representatives Council**

1. The representative body of a LEPL higher education institution is the Representatives Council, which shall be elected from the main educational units of the higher education institution depending on how they are represented, individually by the students and academic personnel, in proportion with their representation in the main educational units. The number of members of the Representatives Council shall be at least double the number of members of the Academic Council as provided for by the statute of the institution.

2. The Representatives Council shall be elected from within the higher education institution on the basis of general, direct and equal elections, by secret ballot, in the manner prescribed by the statute of the higher education institution.

3. The term of office of the Representatives Council shall coincide with the normative duration of basic cycle of education and shall be specified in the statute.

4. The students shall comprise one third of the full list of the Representatives Council. An assistant takes part in the elections as a student. While for calculating the number of students, the number shall be approximated (rounded) for the benefit of students.

5. The composition of the Representatives Council shall include a representative of the higher education institution library/libraries as prescribed by the higher education institution statute. In accordance with the procedures and proportions determined by the statute of a higher education institution, the persons to whom qualifications have been awarded by that higher education institution, also the representatives of independent scientific research units and public representatives may also be members of the Representatives Council.

6. The grounds for the termination of the status of a member of the Representatives Council of professors and students may be the termination of their academic and/or labour relations with such higher education institution.

7. In case the authority of a member of the Representatives Council is terminated prematurely, a member of the Council for the remaining term shall become candidate who obtained the most votes in the respective elections after the member whose authority had been terminated. In their absence, the elections shall take place with a view to electing respective representative with the same term.

8. The Representatives Council may not be composed of representatives of administrative and supporting personnel, as well as of the Academic Council.

#### **Article 19. Speaker of the Representatives Council**

1. Meetings of the Representatives Council shall be organised and chaired by the Speaker elected by the Representatives Council from its members for the term of not more than the term of office of the Council. The term of office of the Speaker shall be specified in the statute of the higher education institution.

2. The following shall serve as grounds for premature termination of the term of office of the Speaker of the Representatives Council:

a) a personal wish;

b) upon the entry into legal force the court conviction against him/her;

c) death;

d) recognition as a disabled person by court or recognition as the person receiving support, unless otherwise provided for by a court judgement;

(e) (deleted);

e) dismissal from an academic position of a higher education institution;

g) any other case provided for by the statute of a higher education institution.

#### **Article 20. Election of the Academic Council**

1. The highest representative body of a LEPL higher education institution is the Academic Council. Members of the Academic Council shall be elected on the basis of the direct, free and equal elections by secret ballot by all members of the academic personnel of the major educational units, all members

of the scientific personnel of the independent scientific research units and the representatives of the self-government of students that are members of the council of the major educational unit.

2. Each main educational unit shall have equal number of representatives in the Academic Council. The number of the representatives shall be determined by the statute of a higher education institution.

2<sup>1</sup>. Each independent scientific research unit (except for an independent scientific research unit of a major educational unit) must have at least one representative in the composition of the Academic Council.

3. A professor or associate professor is elected as a member of the Academic Council. A person may be elected as a member of an academic board only for two consecutive terms.

4. The term of election of members of the Academic Council shall be equivalent to the duration of the basic educational cycle as provided for by the statute.

5. (deleted - 01.06.2017, №933).

6. In case of holding an academic or administrative position at any other higher education institute, the membership of the Academic Council shall be terminated for the Academic Council.

#### **Article 21. Powers of the Academic Council**

1. Under this Law, the Academic Council shall:

a) draft and approve a strategic plan for development of a higher education institution;

b) upon recommendation of the basic educational unit and/or an independent scientific research unit, approve educational and scientific research programmes;

b<sup>1</sup>) upon recommendation of the Scientific Council of an independent scientific research unit of a university, approve the Director of the independent scientific research unit of the university;

b<sup>2</sup>) upon recommendation of an independent scientific research unit of a university, review and submit to the Representatives Council for approval the regulations of the independent scientific research unit of the university and additional conditions for occupying a scientific position at the independent scientific research unit of the university;

b<sup>3</sup>) review and submit to the Representatives Council for approval the procedure for recruiting the scientific personnel of an independent scientific research unit of a university;

b<sup>4</sup>) upon recommendation of the quality assurance office of a higher education institution, review and approve the procedure for the internal assessment of scientific research activities of an independent scientific research unit of a university;

b<sup>5</sup>) upon recommendation of a major educational unit, review and approve the procedure for participation of an appropriate independent scientific research unit in the preparation of Bachelor's and Master's theses and dissertations by students, and for the engagement of students in the scientific grant programmes, local and international scientific conferences and scientific research events;

- c) facilitate integration into the European area of higher education, draw up educational plans and curricula, and programmes for cooperation, mobility, integrated studies and scientific research among educational institutions;
- d) elect the Head of the Academic Council - the Rector- chair of the Academic Council, by free and equal elections, secret ballot, by the majority of the full list;
- e) nominate to the Representatives Council the candidate for the Head of Administration, selected by a majority of the members on the list on the basis of the competition;
- f) submit to the Representatives Council a reasonable proposal on the termination of the authority of the Head of Administration agreed by the majority of the members on the list;
- g) submit a new candidate for the Head of administration to the Representatives Council within a month after the authority of the Head of the Administration is terminated;
- h) participate in the discussion of a higher education institute's statute, statutes and budgets of structural entities, annual reports of the Head of Administration at the Representatives Council;
- i) in the beginning of an academic year, approves coefficients for the Unified National Examinations, also the number of students to be enrolled to the basic educational units by the recommendation of councils of the basic educational units;
- i<sup>1</sup>) approve the coefficients for the Unified Master's Examinations and the number of students to be admitted to main educational units upon the recommendation of the councils of the main educational units in cases determined by the legislation of Georgia, as provided for by an order of the Minister of Education and Science of Georgia;
- i<sup>2</sup>) establish the minimum threshold level for the examination, determined by the list of international examinations approved by the Ministry of Education and Science of Georgia, upon the recommendation of the councils of the main educational units;
- j) determine the procedure for recognising the credits received at any other educational institution;
- k) upon recommendation of the basic educational unit's council and/or by the recommendation of the independent scientific research unit, approve the statute of the Dissertation Council;
- l) submit for approval to the Representatives Council a candidate for the head of the quality assurance service of a higher education institution;
- m) determine general rules for the recruitment of, and the amount and conditions of remuneration of, academic personnel and submit the same to the Representatives Council for approval;
- m<sup>1</sup>) (deleted – 17.06.2011, №4792);
- n) submit annual report to the Representative Council for approval;
- o) (Deleted – 17.06.2011, №4792);
- p) elect the head(s) of the library(libraries) of a higher education institute;
- q) approve the Rules for Assessment of Teaching and Scientific research activities proposed by Quality Assurance Office;
- r) exercise any other powers granted to it by this Law and Georgian legislation.

1<sup>1</sup>. The Academic Council is authorized to consider the issue of early termination of the Rector's authority on the grounds of violation of the legislation of Georgia by the Rector, improper performance of duties imposed on the Rector and / or implementation of activities unsuitable for the Rector. The decision on early termination of the Rector's term of office shall be taken by secret ballot, with the majority of its members on the list. The Rector shall not take part in the ballot defined by this article. Appellation of the decisions made on these issues does not result in suspension of the validity of the disputable act.

1<sup>2</sup>. (Deleted– 06.09.2013, №1081).

1<sup>3</sup>. A session of the Academic Council shall be convened under the initiative of the Rector or members of the Academic Council, by at least 1/3 of the members.

1<sup>4</sup>. The Rector shall cease to be a member of the Academic Council, if he ceases to serve as a Rector.

2. (Deleted).

## **Article 22. Head of a Higher Education Institution (Rector)**

1. The Rector of a higher education institution established by the State is a person holding the highest academic position, also the chairperson of the Academic Council in a LEPL higher education institution and a chairperson of one of the collegiate bodies of a higher education institution established as a non-entrepreneurial (non-commercial) legal entity, where he/she represents a higher education institution in academic and scientific fields inside and outside the country, and shall be authorised to conclude agreements and contracts on behalf of the higher education institution. Where agreements and contracts are concluded in relation to financial and economic matters, they shall be also concluded by the Head of Administration.

2. Before the approval of the results of the first elections of the Head of a higher education institution established by the State the acting Head is appointed by the Government of Georgia.

3. The Head of a higher education institution established by the State may be elected only for two consecutive terms, which shall not exceed two consecutive terms of the basic educational cycle.

4. A candidate for the Rector of a higher education institution established by the State (except for military, police, maritime, arts and creative, and sports higher education institutions established by the State) shall hold a Doctor's academic degree or its equivalent, and shall meet the requirements determined by the statute of the higher education institution.

5. A person who has previously held the position of Head of Administration, may hold the position of the Head of the same higher education institution only after one term of office of the Head of the higher education institution has expired after the termination of his/her authority as the Head of Administration.

6. The Head of a LEPL higher education institution shall be elected by the Academic Council by a majority of its members on the list by secret ballot as provided by the legislation of Georgia, for the term of authority

determined by the statute of the higher education institution, which shall not exceed the term of authority of the Council.

7. The opening of applications for registration of the candidates for the Head of a LEPL higher education institution is announced by the Academic Council at least one month prior to the beginning of registration of candidates, in accordance with procedures established by the legislation of Georgia, and by the statute of the institution, on the basis of transparency, equality and fair competition principles.

8. The Academic Council shall assess the action plans submitted by each candidate while selecting the candidates for the elections of the Head of a higher education institution.

9. In compliance with the legislation of Georgia, in case of early termination of the term of Rector's authority, as well as in case of failure to elect the Rector, within 14 days the Academic Council shall elect an acting Rector through a secret ballot by the majority of the list composition for no more than 6 months. One and the same person may be elected as an acting Rector not more than once.

10. The Head (Rector) of a higher education institution established by the State may appoint an acting Director of an independent scientific research unit of a university.

11. The Head (Rector) of a higher education institution established by the State may appoint the Director of a LEPL scientific research institution within a LEPL university and under the State control of the higher education institution, upon recommendation of the Scientific Council of this scientific research institution.

### **Article 22<sup>1</sup>. Board of Regents**

1. The Board of Regents shall be established for the supervision of the activities of non-entrepreneurial (non-commercial) legal entities established by the State.

2. The Government of Georgia shall establish the Board of Regents, approve its statute and determine the number of its members.

3. The activities of members of the Board of Regents shall not be subject to remuneration; however, the Government of Georgia shall have the right to take into consideration their remuneration in the State Budget for respective year.

4. The rights, obligations, responsibilities and termination of authority of a member of the Board of Regents, as well as the rules for the activities of the Board of Regents, shall be determined by the statute of the institution.

5. The Board of Regents shall:

- a) nominate a candidate for the Head of Administration to the collegiate body determined by the statute of the higher education institution for approval. If the collegiate body rejects the candidate for the Head of Administration on two occasions consecutively, the Head of Administration shall be appointed by the Board of Regents. The procedure for selecting the candidate of the Head of Administration shall be determined by the Board of Regents;
- b) approve the budget of the higher education institution upon the recommendation of the Head of Administration; moreover, the consent of the Board of Regents shall be required in the case of an amendment of more than 15% of the allocations of the approved line-item budget. Other amendments shall be made by the collegiate body of the higher education institution upon the recommendation of the Head of Administration;
- c) approve the annual report of the Head of Administration;
- d) approve the candidate for the Director of the Higher Education Institution Development Fund, appointed by a collegiate body of the higher education institution, upon the recommendation of the collegiate body of the higher education institution;
- e) exercise other powers determined by the legislation of Georgia and the statute of a higher education institution provided that they do not restrict the academic freedom of the higher education institution.

6. The Law of Georgia on Conflicts of Interest and Corruption in Public Service shall apply to a member of the Board of Regents.

### **Article 23. Head of Administration**

1. Head of Administration of a higher education institution established by the State shall represent the higher education institution in financial and economic relations. The same person may be appointed as Head of Administration only for two consecutive terms, which shall not exceed two consecutive terms of the basic educational cycle.

2. A person, who has previously held the position of Head of a higher education institution, may occupy the position of the Head of Administration of the same higher education institution only after one term of office of the Head of the higher education institution has expired after the termination of his/her authority as the Head of the higher education institution.

3. Head of Administration of LEPL higher education institute may be appointed by the Representatives Council upon the recommendation of the Academic Council, by secret ballot, in the manner prescribed by this law. One and the same person may be nominated by the Academic Council to the Representative Council only twice. If the Representative Council repeatedly refuses the candidate proposed, the Academic Council shall nominate a new candidate for the Head of Administration.

4. The requirements prescribed by the Law of Georgia on the Conflict of Interests and Corruption in Public Service shall apply to the Head of Administration.

5. In cases determined by the statute of the higher education institution the election to the position of the Head of Administration may be grounds for the termination of authority of a person holding an academic position.

#### **Article 24. Authority of the Head of Administration**

1. The Head of Administration shall:

- a) be the head of administration of the higher education institution;
- b) be authorised to conclude financial and economic agreements on behalf of the higher education institution in compliance with the budget of the higher education institution;
- c) draw up a draft of the structure of the administration of the higher education institution, and submit the same to the collegiate body or the Representatives Council of a higher education institution for approval;
- d) draw up a draft of general rules for the recruitment of, and the amount and conditions of remuneration of, support personnel, and submit the same to the collegiate body or the Representatives Council of a higher education institution for approval;
- e) administer the process of drawing up the draft budget of the main educational units of a higher education institution and its submission to the Representatives Council, and the process of drawing up a general draft budget of the higher education institution and its approval by the Representatives Council. The Head of Administration of a higher education institution established by the State as a non-entrepreneurial (non-commercial) legal entity, shall coordinate a draft budget of the higher education institution with the collegiate body of the institution and submit the same to the Board of Regents for approval;
- e<sup>1</sup>) administer the process of drawing up by independent scientific research units of a higher education institution of their own draft budgets and their submission to the Representatives Council;
- f) prepare an annual report of the work achieved and submit the same to an appropriate Board of Regents or the Representatives Council for approval;
- g) issue individual acts within his/her authority;
- h) be responsible for the lawfulness and efficiency of the financial and economic activities of a higher education institution;
- i) performs other functions determined by the statute.

2. The Head of Administration shall be accountable to the Board of Regents and the collegiate body of the higher education institution, or the Representatives Council and the Academic Council.

3. The term of office of the Head of Administration may be terminated before its expiration on the basis of:

- a) repeated rejection of the annual report and budget by the Board of Regents at a higher education institution established by the State as a non-entrepreneurial (non-commercial) legal entity, and by the Representatives Council at a LEPL higher education institution;
- b) a reasonable decision made by the Board of Regents upon the recommendation of the Representatives Council at a LEPL higher education institution, and by a collegiate body at a higher education institution established by the State as a non-entrepreneurial (non-commercial) legal entity;
- c) on the grounds for the termination of a labour agreement established by the Organic Law of Georgia - the Labour Code of Georgia.

#### **Article 25. Quality Assurance at a Higher Education Institution**

1. Educational, scientific research work conducted by a higher education institution, and the quality of the professional development of its personnel, shall be subject to systematic assessment; the students of the institution shall participate in the assessment and its results shall be public and available to all persons concerned.

2. A quality assurance mechanism shall exist at a higher education institution, including at the main educational units operating in compliance with the statute of the higher education institution, for the purpose of the systematic assessment of the educational, scientific research work conducted by the institution and the quality of the professional development of its personnel.

3. To develop transparent criteria for quality control and the methodology for the assurance of those criteria, a higher education institution shall establish links and cooperate with the appropriate offices of foreign countries and foreign higher education institutions.

4. A higher education institution shall ensure the high quality of teaching by introducing modern methods for studying, teaching and evaluation (modules, credit systems, etc.), and preparing self-evaluation for the authorisation/accreditation process. The higher education institutions shall also ensure the high quality of research by introducing modern methods of research.

4<sup>1</sup>. The quality assurance office of a LEPL higher education institution shall prepare the procedure for internal assessment of scientific research activities of an independent scientific research unit of a university, and submit it to the Academic Council for approval.

4<sup>2</sup>. The procedure for the internal assessment of scientific research activities of an independent scientific research unit of a university shall be based on the international standards of the assessment of scientific research activities (participation of foreign assessors in the process of assessment, use of various forms of scientific bibliometric, etc.).

5. The Head of the quality assurance office of a LEPL higher education institution shall be approved by the Representatives Council upon recommendation of the Academic Council. The requirements for the Head of the quality assurance office shall be set by the higher education institution.

6. The cooperation between a quality assurance office of a LEPL higher education institution and the quality assurance offices of the main educational units shall be regulated by the statute of the higher education institution.

#### **Article 26. Budget of a Higher Education Institution**

1. The Head of Administration of a higher education institution shall administer the process of developing the draft budget of the institution for the following year.

2. The draft budget of a higher education institution for the following year shall be developed in consultation with the main educational units and other structural units of the higher education institution.
3. The Head of Administration of a non-entrepreneurial (non-commercial) legal entity established by the State shall coordinate the budget for the following year with the collegiate body of the higher education institution and shall submit the same to the Board of Regents for approval; the Head of Administration of a legal entity under public law shall coordinate the budget for the following year with the Academic Council and shall submit the same to the Representatives Council for approval.
4. The Board Regents or the Representatives Council shall review the submitted draft budget, and shall approve or return the same to the Head of Administration with appropriate comments.
5. If the Head of Administration agrees with the submitted comments, the draft budget shall be duly approved by the Board of Regents or the Representatives Council by taking into account the comments made.
6. If the Head of Administration does not agree with the comments made by the Board of Regents or the Representatives Council, he/she may return the initial version of the draft budget to the Board of Regents or the Representatives Council for further approval on the grounds of having provided appropriate validation thereof. The proposals of the Academic Council shall be attached to the validation submitted to the Representatives Council.
7. Repeated rejection of the draft budget by the Board of Regents or the Representatives Council shall result in termination of authority of the Head of Administration. The draft budget shall be approved upon the recommendation of a new Head of Administration.

#### **Article 26<sup>1</sup>. Budget of an International School/International Master's-Doctoral School**

1. The budget of an international school/international master's-doctoral school is elaborated and approved independently of the budget of the State-funded higher education institution.
2. The budget of an international school/international master's-doctoral school is elaborated and approved by the head of the international school/international master's-doctoral school in agreement with an Academic Council.

Law of Georgia No 1500 of 13 April 2022 – website, 19.04.2022

#### **Article 27. Main Educational Unit and the Council of a Main Educational Unit**

1. The main educational unit of a LEPL higher education institution may consist of teaching, scientific research (including an academic department, a scientific research institute, a laboratory, a hospital, a department devoted to a specialist discipline and others) and auxiliary (libraries and others) structural units.

1<sup>1</sup>. The procedure for management and operation of an independent scientific research unit of a main educational unit shall be established by the regulations of the independent scientific research unit approved by the Council of the main educational unit.

1<sup>2</sup>. Under the procedure determined by a higher education institution, an independent scientific research unit of a main educational unit may:

a) participate in the implementation of higher education programmes, also in the preparation of Bachelor's and Master's theses and dissertations by students;

b) involve students in scientific grant projects, local and international scientific conferences and scientific research events.

2. The representative body of a main educational unit of a LEPL higher education institution shall be the Council of the main educational unit comprised of all persons holding academic positions at the main educational unit, all persons holding scientific positions at the independent scientific research unit, and representatives of the students' self-government, or representatives of the academic personnel, of persons holding scientific positions at the independent scientific research unit, and representatives of the students' self-government elected under the procedure established by the Statute of the higher education institution.

3. The number of representatives of student's self-government bodies in the Council of a main educational unit shall be determined by the regulations of the main educational unit; but it shall not be less than one fourth of the members of the Council.

Law of Georgia No 4792 of 17 June 2011 - website, 06.07.2011

Law of Georgia No 4582 of 27 November 2015- website, 10.12.2015

#### **Article 28. Authority of the Council of a Main Educational Unit**

The Council of a main educational unit shall:

a) develop a draft budget for the main educational unit and submit the same to the Head of administration for approval;

b) elect the Dean of the main educational unit by a majority of the members on the list on the basis of impartial and equal suffrage and by secret ballot;

c) draw up a strategic development plan, and educational and scientific research programmes for the main educational unit upon the recommendation of the Dean, and submit the same to the Academic Council of the higher education institution for approval;

d) develop the structure and the regulations of the main educational unit upon the recommendation of the Dean, and submit the same to the Representatives Council for approval;

e) develop the regulations of a Dissertation Council and submit the same to the Academic Council for approval;

f) elect the head of the quality assurance office of the main educational unit;

g) have the right to review the issue of the termination of the authority of the Dean upon the request of not less than one third of the members of the Council of the main educational unit on the grounds of violation of the legislation of Georgia by the Dean, or the improper fulfillment of the duties imposed on him/her and/or on the grounds of conducting activities that are irrelevant to the duties of the Dean. The decision on the termination of the authority of the Dean shall be made on the basis of a secret ballot by a majority of members on the list. The Dean shall not take part in the balloting, as defined by this article. An appeal of a decision regarding these matters shall not result in the suspension of the disputed act in proceedings;

h) appoint an acting Dean in the case of the termination of the authority of the Dean;

h<sup>1</sup>) upon recommendation of the Scientific Council of an independent scientific research unit of a main educational unit, approve the Director of the independent scientific research unit of the main educational unit;

h<sup>2</sup>) upon recommendation of an independent scientific research unit of a main educational unit, approve the procedure for recruiting scientific personnel of the independent scientific research unit of the main educational unit;

h<sup>3</sup>) upon recommendation of an independent scientific research unit of a main educational unit, approve the regulations of the independent scientific research unit of the main educational unit, and additional conditions for occupying scientific positions at the independent scientific research unit of the main educational unit;

h<sup>4</sup>) upon recommendation of the quality assurance office of a main educational unit, approve the procedure for the internal assessment of scientific research activities of an independent scientific research unit of the main educational unit;

i) exercise other powers granted to it under this Law and other legal and subordinate normative acts of Georgia.

#### **Article 29. Dean of a Main Educational Unit**

1. The Council of a main educational unit shall elect the Dean of the main educational unit for the term determined by the statute of the higher education institution, but not for more than four years. A person may be elected to the position of Dean only for two consecutive terms. The opening for applications for the registration of candidates for the position of Dean shall be announced by the Council of the main educational unit at least one month prior to the beginning of registration of candidates, in accordance with the procedures established by the legislation of Georgia and its statute and on the basis of principles of transparency, equality and fair competition.

2. Under the statute of a higher education institution (except for military, maritime, arts and creative, and sports higher education institutions established by the State), a Professor or an Associate Professor of a main educational unit of a corresponding higher education institution may be elected as Dean; the procedures and conditions for the election of the Dean at military, maritime, arts and creative, and sports higher education institutions established by the State are determined by the statute of the corresponding higher education institution.

3. The Dean of the main educational unit shall:

- a) ensure the practice of effective educational and scientific activities by the main educational unit;
- b) submit a strategic development plan, and educational and scientific research programmes for the main educational unit to the Council of the main educational unit for approval;
- c) develop the structure and the regulations of the main educational unit and submit the same to the Council of the main educational unit for approval;
- d) be responsible, within his/her scope of authority, for the execution of decisions made by the Representatives Council, the Academic Council and the Council of the main educational unit;
- e) issue individual legal acts within his/her scope of authority;
- f) chair the meetings of the Council of the main educational unit;

g) be responsible for the targeted use of the budget of the main educational unit as provided for by this Law and the statute;

h) exercise other powers granted to him/her under this Law and other legal and subordinate normative acts of Georgia.

#### **Article 29<sup>1</sup>. Structure and Management of an Independent Scientific Research Unit**

1. The structure of an independent scientific research unit may include main and auxiliary structural units.

2. The management bodies of an independent scientific research unit are the Scientific Council of the independent scientific research unit and the Director of the independent scientific research unit.

3. Scientific and non-scientific structural units of an independent scientific research unit, their management and operation procedure shall be determined by the regulations of the independent scientific research unit. The regulations of an independent scientific research unit of a university shall be approved by the Representatives Council, and the regulations of an independent scientific research unit of a main educational unit shall be approved by the Council of the main educational unit.

4. The Head of a scientific structural unit of an independent scientific research unit shall be elected by the Scientific Council on the basis of an open competition and approved by the Director according to the regulations of the independent scientific research unit. A person who meets the requirements established for a chief research fellow or a senior research fellow of an independent scientific research unit may be elected as the Head of a scientific structural unit of the independent scientific research unit. If a person who has not occupied the position of a chief research fellow or a senior research fellow of an independent scientific research unit is elected as the Head of a scientific structural unit of the independent scientific research unit, he/she shall also be considered as elected to a respective scientific position.

5. The procedure for the election/appointment of the Head of a non-scientific structural unit of an independent scientific research unit shall be determined by the regulations of the independent scientific research unit.

Law of Georgia No 4582 of 27 November 2015- website, 10.12.2015

#### **Article 29<sup>2</sup>. Scientific Council of an Independent Scientific Research Unit**

1. Chief research fellows of an independent scientific research unit shall establish the Scientific Council of the independent scientific research unit.

2. The Scientific Council of an independent scientific research unit shall:

a) review and decide on the issues of scientific management and development of the independent scientific research unit;

b) in case of implementing higher education programmes, participate in the monitoring process of fulfilment of a research component;

c) perform other functions determined by this Law, other legislative and subordinate legal acts of Georgia and the regulations of an independent scientific research unit.

3. The activities of the Scientific Council of an independent scientific research unit shall be administered by the Chairperson elected by majority of the members on the nominal list of the Council.
4. Powers, term of office, procedure of election and termination of powers of the Chairperson of the Scientific Council of an independent scientific research unit shall be determined by the regulations of the independent scientific research unit.

Law of Georgia No 4582 of 27 November 2015- website, 10.12.2015

#### **Article 29<sup>3</sup>. Director of an Independent Scientific Research Unit**

1. Operation of an independent scientific research unit shall be administered by the Director of the independent scientific research unit.
2. The Scientific Council of the independent scientific research unit shall select the candidate for the Director of an independent scientific research unit on the basis of an open competition for a five-year term and submit to the Academic Council/the Council of the main educational unit for approval. In case of a grounded refusal of the Academic Council/the Council of the main educational unit to approve the candidate of the Director, the Scientific Council of the independent scientific research unit shall submit the same candidate or select another candidate. In case of repeated refusal of the Academic Council/the Council of the main educational unit to approve the candidate of the Director, an acting Director of an independent scientific research unit of the main educational unit of a university shall be appointed by the Head (Rector) of a higher education institution, and an acting Director of an independent scientific research unit of the main educational unit shall be appointed according to the procedures determined by the Statute of a higher education institution. The Scientific Council of an independent scientific research unit shall, no later than 6 months, select a new candidate for the Director of the independent scientific research unit. An acting Director of an independent scientific research unit shall be appointed until the candidate for the Director of the independent scientific research unit is approved by the Academic Council/the Council of a main educational unit.
3. The position of the Director of an independent scientific research unit may be occupied by a person who meets the requirements established for a chief research fellow of the independent scientific research unit, and whose age does not exceed 65. If a person who does not hold the position of a chief research fellow of an independent scientific research unit occupies the position of the Director of the independent scientific research unit, he/she shall also be considered as elected to the position of a chief research fellow. Reaching the age of 65 shall not entail termination of powers of the Director.
4. The same person may occupy the position of the Director of an independent scientific research unit only for two consecutive terms.
5. The procedure for selecting a candidate for the Director of an independent scientific research unit and powers of the Director shall be determined by the regulations of the independent scientific research unit.

Law of Georgia No 4582 of 27 November 2015- website, 10.12.2015

#### **Article 30. Dissertation Council**

1. The Dissertation Council is a body awarding an academic degree of a Doctor.
2. A higher education institution that carries out Doctoral Programmes shall establish a Dissertation Council at an appropriate main educational unit of a university. The Dissertation Council shall develop the Dissertation Council regulations that determine the procedures for establishing the Council and electing

its chairperson, as well as procedures for presenting the dissertation. The regulations of the Dissertation Council shall be approved by the collegiate body of a higher education institution.

2<sup>1</sup>. The International Master's-Doctoral School shall additionally establish a Dissertation Council in accordance with the rules established by Chapter IV<sup>3</sup> of this Law. The head of the International Master's-Doctoral School shall develop the statute of the Dissertation Council of the International Master's-Doctoral School, which is approved by the Academic Council. The Statute of the Dissertation Council of the International Master's-Doctoral School defines the rules for composition of the Dissertation Council and for election of its chair, as well as the procedures for defending a dissertation.

3. The Dissertation Council shall be established within a legal entity under public law (LEPL) – a higher education institution or a main educational unit according to an appropriate field/specialisation. The decision on the establishment of the Dissertation Council/Councils shall be made by the Academic Council of a university.

4. The procedures for the establishment of a Dissertation Council within a main educational unit of a LEPL higher education institution and of the election of its chairperson shall be determined upon the recommendation of the Council of the main educational unit under regulations approved by the Academic Council. The procedures for the formation of a Dissertation Council of a university and of the election of its chairperson shall be determined upon the recommendation of the Council of a main educational unit and/or the Councils of main educational units and an independent scientific research unit and/or independent scientific research units, or upon the recommendation of the Councils of main educational units, or independent scientific research units under regulations approved by the Academic Council.

5. The Dissertation Council of a main educational unit of a LEPL higher education institution shall consist of all Professors and Associate Professors of an appropriate field/specialisation of the main educational unit, and of a senior research fellows and a chief research fellows of an appropriate field/specialisation of an independent scientific research unit of a main educational unit. The Dissertation Council of a university may consist of all Professors and Associate Professors of an appropriate field/specialisation of the university, and a senior research fellows and a chief research fellows of an appropriate field/specialisation of an independent scientific research unit of the university, or of the Professors and Associate Professors of an appropriate field/specialisation of the university and senior research fellows and chief research fellows of an appropriate field/specialisations of an independent scientific research unit of the university. Members of the Dissertation Council of a university shall be selected based on the criteria and the procedure determined by the Academic Council of the institution. Representatives of an appropriate field/persons with an appropriate specialisation from Georgia and abroad may be members of the Dissertation Council of a main educational unit and the Dissertation Council of a university, based on the criteria and the procedure determined by the Academic Council of a higher education institution.

6. The statute of a university which is a LEPL higher education institution, may determine the procedures and conditions for inviting persons with doctoral academic degrees to the Dissertation Council.

7. LEPL higher education institution may conclude agreements with scientific research institutions for carrying out Doctoral Programmes.

### **Article 31. Quality Assurance Office of a Main Educational Unit**

1. For the systematic internal assessment of the quality of teaching and scientific research activities at the main educational unit of LEPL higher education institution, and of the quality of professional development of its academic personnel and scientific personnel, the quality assurance office shall be established for continuous development of the education quality assurance system. The quality assurance office shall operate according to the regulations of the main educational unit.

2. To develop transparent criteria of quality control and the methodology for the assurance of those criteria, the quality assurance office of a main educational unit shall establish links and cooperate with the appropriate offices of foreign countries and foreign higher education institutions.

3. The quality assurance office of a main educational unit shall ensure the high quality of teaching by applying contemporary methods for teaching, learning and assessing (modules, credit systems and others) and developing self-evaluation for the processes of authorisation and/or accreditation.

3<sup>1</sup>. The quality assurance office of a main educational unit shall develop the procedure for internal assessment of scientific research activities of an independent scientific research unit of the main educational unit and submit it to the Council of the main educational unit for approval.

3<sup>2</sup>. The procedure for internal assessment of the scientific research activities of an independent scientific research unit of a main educational unit must be based on the international standards of the assessment of scientific research activities (participation of foreign assessors in the process of assessment, use of various forms of scientific bibliometric, etc.).

3<sup>3</sup>. The quality assurance office of a main educational unit shall assess the scientific research activities of the main educational unit on the basis of the procedure of internal assessment of the scientific research activities of the main educational unit, which is developed by the quality assurance office of the higher education institution and approved by the Academic Council.

4. The requirements for the Head of the quality assurance office of a main educational unit shall be established by a higher education institution.

2. Chapters IV and V shall not apply to Kutaisi international Institute.

Law of Georgia No 4562 of 25 November 2015 - website, 08.12.2015

Law of Georgia No 5276 of 1 November 2019 - website, 04.11.2019

#### **Chapter IV<sup>3</sup>. International School/International Master's-Doctoral School**

Law of Georgia No 1500 of 13 April 2022 – website, 19.04.2022

#### **Article 31<sup>3</sup>. International School/International Master's-Doctoral School**

1. To facilitate international cooperation and its development (including the implementation of foreign language education programmes), an international school and / or an international master's and doctoral school may be established in a State-established higher education institution with the consent of the Ministry.
2. Scope of Chapter IV (except for Articles 17, 19, 22 and 26<sup>1</sup>, 30(1)(2<sup>1</sup>)(5)(7) and Article 31(1)(3<sup>1</sup>)) and Chapter V of this law (except for Article 32, Article 33 (1)(3)(4) and Articles 35, 37, 37<sup>2</sup> and 42) do not apply on an international school and / or an international master's and doctoral school.

3. Issues not covered by this Chapter may be regulated by the statute of the international school / international master's and doctoral school and the agreement between the State-run higher education institution and the head of the international school / international master's-doctoral school.

Law of Georgia No 1500 of 13 April 2022 – website, 19.04.2022

#### **Article 31<sup>4</sup>. Structure and Management of the International School / International Master's-Doctoral School**

1. International school / international master's-doctoral school may be governed by a head of the international school / international master's-doctoral school based on the statute of the international school / international master's-doctoral and on an agreement concluded with a State-run higher education institution envisaging the limitations and peculiarities set forth in this Chapter.

2. The Head of an international school/international master's-doctoral school:

a) develops and approves the budget of the international school / international master's-doctoral school in agreement with the Academic Council;

b) develops and submits to the Academic Council for approval the strategic development plan of the international school/international master's-doctoral school, educational and scientific research programmes;

c) develops and submits the statute and structure of the international school / international master's-doctoral school for approval to the Academic Council;

d) develops and submits the regulations of the Dissertation Council of the international school / international master's-doctoral to the Academic Council for approval;

e) appoints the head of the quality assurance office of the international school / international master's-doctoral school;

f) issues individual administrative legal acts within the framework of his/her competence;

g) approves the rules for hiring the scientific staff of an independent scientific research unit of an international school / international master's-doctoral school and additional conditions for holding a scientific position in an independent scientific research unit of an international school / international master's-doctoral school;

h) at the beginning of the academic year, determines and submits to the Academic Council for approval the coefficients for the Unified National Examinations, as well as the number of students to be admitted to the international school;

i) in the case provided for by the legislation of Georgia, determines the coefficients of the Master's examination of international master's-doctoral school for the Master's examinations in accordance with the rules established by the order of the Minister and submits them to the Academic Council for approval as well as determines the number of students to be admitted to the international master's-doctoral school;

j) determines and submits for approval to the Academic Council the minimum competency threshold in the examinations provided for in the list of international examinations approved by the Ministry;

k) develops and approves the unified rules for hiring the academic staff, support staff, scientific staff and other staff of the international school / international master's-doctoral school, the amounts and conditions of their remuneration;

l) in agreement with the Academic Council, approves the regulations of the international school / international master's-doctoral school quality assurance office;

- m) approves the rules for the evaluation of teaching and scientific research work upon the submission of the quality assurance office of the international school / international master's-doctoral school;
- n) prepares and submits an annual report on its activities to the Academic Council;
- o) exercises the authority granted by the statute of the higher education institution and the agreement concluded between the higher education institution and the head of an international school/international master's-doctoral school;
- p) determines the amount of the educational programme fee and / or additional fee, which may exceed the amount of the State study grant or the State master's degree grant and / or other State grant, and submits the amount of the defined educational programme fee and / or additional fee to the Academic Council for approval;
- q) develops and approves the regulations and structures of the advisory bodies of the international school / international master's-doctoral school.

3. The number of students' self-government representatives in the advisory body of the international school / international master's-doctoral school established by the international school / international master's / doctoral school is determined by the statute of the international school / international master's-doctoral school.

4. The number of representatives of the international school / international master's-doctoral school in the Academic Council is determined by the statute of the higher education institution. In addition, their number should not be less than 1 member less than the number of representatives of other main educational units of the higher education institution. According to the statute of the higher education institution and the agreement concluded between the higher education institution and the head of an international school/international master's-doctoral school the representatives of the international school / international master's-doctoral school in the Academic Council may be restricted from participation in the voting of only those issues that are not related to the international school/international master's-doctoral school.

5. The number of representatives of the international school / international master's and doctoral school in the Representative Council is defined and the procedure for their election is determined by the statute of the higher education institution. In addition, their number should not be less than 1 member less than the number of representatives of other main educational units of the higher education institution. According to the statute of the higher education institution and the agreement concluded between the higher education institution and the head of an international school/international master's-doctoral school the representatives of the international school / international master's-doctoral school in the Representative Council may be restricted from participation in the voting of only those issues that are not related to the international school/international master's-doctoral school.

Law of Georgia No 1500 of 13 April 2022 – website, 19.04.2022

**Article 31<sup>5</sup>. Quality Assurance Office of the International School / International Master's-Doctoral School**  
For systematic evaluation of academic and scientific research performance of an international school / international master's-doctoral school, as well as of professional development quality of its academic and scientific staff, for continuous development of education quality assurance system, a quality assurance office of the international school / international master's-doctoral school shall be established which acts according to the statute of the international school / international master's-doctoral school and Georgian legislation.

Law of Georgia No 105 of 16 December 2016- website, 05.01.2017

### **Article 34. Procedures for Holding Academic Positions**

1. An academic position may be held only on an open competition basis, which shall comply with the principles of transparency, equality and fair competition; and an academic position at an Orthodox theological higher education institutions may be held under the procedure established by the Catholicos-Patriarch of all Georgia.
2. The date and requirements for conducting competitions shall be published as provided for by the legislation of Georgia and the statute of a higher education institution, within not more than one month prior to the submission of applications.
3. Procedures for a competition shall be determined by the statute of the higher education institution.

Law of Georgia No 1611 of 10 August 2009 - LHG I, №25, 20.08.2009, Art.148

Law of Georgia No 4792 of 17 June 2011 - website, 06.07.2011

Law of Georgia No 187 of 28 December 2012 - website, 29.12.2012

**Article 35. Conditions for the Election and Appointment to Academic Positions**

1. For the position of a Professor:

a) a person with a Doctor's or an equivalent academic degree, who has at least six years of experience in a scientific and pedagogical fields and who meets the additional conditions established by the statute of a higher education institution may be elected to the position of a Professor.

b) a person maybe elected indefinitely who satisfies requirements determined by the subparagraph "a" of this paragraph and who has exceptional professional achievements or/and scientific achievements ( for instance, has published scientific works in the leading local and international journals and any other publications, has participated in national and international scientific research projects, etc.);

c) a person with a Doctor's or an equivalent academic degree, who has at least eight years of experience in a scientific and/or pedagogical field and who satisfy the additional requirements defined by the statute of art-creative higher education institution;

d) a person elected to the position of a professor at an art and creative higher education institution may, by a decision of the Academic Council, hold the position of professor for an indefinite term, if that person complies with the requirements established by subparagraph "c" of this paragraph and defined by the statute of the art and creative higher education institution, and if that person has been elected to the position of professor for a third consecutive term and/or has some special professional, pedagogical and/or scientific achievements.

2. A person with a Doctor's academic degree or an equivalent degree, who has at least three years of experience in scientific and pedagogical field, may be elected to the position of an Associate Professor. A person with a Doctor's academic degree or an equivalent degree, who has at least four years of experience in a scientific and pedagogical field and/or art (creative activity), may be elected to the position of an Associate Professor in the field of art (creative activity) (except for theoretical fields) at an art and creative higher education institution for at least a four-year term. Additional requirements may be determined by the statute of an art and creative higher education institution.

3. A person with a Doctor's academic degree or an equivalent degree may be elected to the position of an Assistant Professor for a three- or four-year term under the procedure defined by the statute of a higher education institution. A person with a Master's academic degree or an equivalent degree may be elected to the position of an Assistant Professor in the field of art (creative activity) (except for theoretical fields) at an art and creative higher education institution for at least a four-year term.

4. A doctoral student may be elected to the position of an Assistant for a three- or four-year term under the procedure defined by the statute of a higher education institution. A master's student may be appointed to the position of an Assistant in the field of art (creative activity) (except for theoretical fields) at an art and creative higher education institution for a two- or three-year term under the procedure defined by the statute of the higher education institution.

4<sup>1</sup>. In case of being elected to the position of a professor provided for in subparagraphs "a" and "b" of paragraph 1 of this article for a term of more than 5 years, the professor shall be subject to attestation once in 5 years in accordance with the rules established by the statute of the higher education institution. The professor elected for the position provided for in subparagraphs "a" and "b" of paragraph 1 of this Article and who has been elected to the position of Professor for more than 5 years, but has less than 5 years left in office after 5 years of being elected to the position of Professor, shall not be subject to attestation.

5. The possibility of occupying academic positions under paragraphs 1-4 of this Article by professionally qualified personnel may be defined by the statute of a higher education institution. In this case the person's qualification can be proved by professional experience, special training and/or publications. A person shall be deemed to have appropriate qualification if he/she has the competence required for achieving the learning outcomes provided for under the programme.

6. The requirements under this Article do not apply to an academic position of an Orthodox theological higher education institution.

#### **Article 37<sup>1</sup>. Scientific Personnel of a University**

1. The scientific personnel of an independent scientific research unit may consist of scholars and postdoctoral fellows.

2. Scholars are persons holding the following scientific positions: a chief research fellow, senior research fellow and a research fellow.

3. A postdoctoral student is a person who is selected for a specific research project on the basis of a competition in a main educational unit or in an independent research unit according to the rules and for a term determined by the Academic Council. A person may be elected to the position of a postdoctoral fellow only once.

Law of Georgia No 4582 of 27 November 2015- website, 10.12.2015

Law of Georgia No 105 of 16 December 2016- website, 05.01.2017

#### **Article 37<sup>2</sup>. Procedures for Occupying a Scientific Position**

1. A scientific position may only be occupied on the basis of an open competition to be conducted according to transparency, equality and fair competition principles.

2. The position of a chief research fellow:

a) can be occupied by a person with a Doctor's or an equivalent academic degree, who has at least six years of experience in a scientific research field and who meets additional conditions established by the statute of a higher education institution for the term defined by the higher education institution;

b) can be occupied indefinitely by a person who meets the requirements set out in subparagraph "a" of this paragraph and who has special scientific achievements (for example, has published scientific publications in leading local and international journals and other publications, participated in national and international scientific research projects, etc.).

3. A person with a Doctor's or an equivalent academic degree, may hold the position of a senior research fellow. A person shall hold the position of the senior research fellow for the term determined by the statute of a higher education institution.

4. A person with a Master's or an equivalent academic degree may hold the position of a research fellow. A person shall hold the position of a research fellow for the term determined by the statute of a higher education institution.

5. The date of the competition for occupying the scientific position and additional conditions shall be published under the procedure established by the legislation of Georgia and the regulations of the scientific research unit one month prior to submitting appropriate documents.

5<sup>1</sup>. In case of being elected to the position of a chief research fellow provided for in Paragraph 2 of this Article for a term of more than 5 years, the chief research fellow shall be subject to attestation once in 5 years in accordance with the rules established by the statute of the higher education institution. The chief research fellow elected to the position provided for by paragraph 2 of this Article, who has been elected to

that position for more than 5 years, but who has less than 5 years left in office after 5 years of being elected to the position of the chief research fellow, shall not be subject to attestation.

6. The procedure for recruiting the scientific personnel of an independent scientific research unit of a university and the additional requirements for occupying a scientific position at an independent scientific research unit of a university shall be developed by the Scientific Council of the independent scientific research unit and submitted to the Academic Council of a higher education institution for review. The Academic Council shall submit the procedure and additional requirements to the Representatives Council of the higher education institution for approval.

7. The procedure for recruiting the scientific personnel of an independent scientific research unit of a major educational unit and the additional requirements for occupying a scientific position at an independent scientific research unit of a major educational unit shall be developed by the Scientific Council of the independent scientific research unit of the major educational unit and submitted to the Council of the major educational unit for approval.

8. A person with a Doctor's academic degree may be elected as a postdoctoral fellow according to the procedure established by the Academic Council.

Law of Georgia No 4582 of 27 November 2015- website, 10.12.2015

Law of Georgia No 105 of 16 December 2016- website, 05.01.2017

#### **Article 37<sup>3</sup>. Labor Relations of the Scientific Personnel**

1. A written labor agreement shall be concluded with the scientific personnel.

2. The grounds for termination of the labor contract concluded with the scientific personnel shall be the following:

- a) personal statement;
- B) term expiration of the agreement of labor;
- c) gross or systematic violation of disciplinary provisions;
- d) violation of the conditions under the labor agreement;
- e) other cases determined by the Georgian legislation.

3. The issue of compatibility of an academic position and a scientific position shall be determined by the statute of a higher education institution.

Law of Georgia No 4582 of 27 November 2015- website, 10.12.2015

#### **Article 37<sup>4</sup>. Rights and Obligations of a Scientist**

1. Rights of a scientist shall be determined by Georgian legislation, the statute of the independent scientific research unit and/or a labour contract.

2. A scientist shall have the right to:

- a) conduct a scientific research without external involvement and publish the results of the research without any limitation except in the case when its limitation is envisaged by the labor contract or when it contains State secrets;
- b) independently determine the content, methods and means of the scientific research;
- c) participate in the completion of teaching and research components of the educational programmes;
- d) along with scientific research activities, participate in competitions for obtaining grant financing, and use the financing under an individual grant/grants and obtain additional financing;

3. A scientist shall be obliged to:

- a) comply with the requirements established under the legislation of Georgia and the regulations of an independent scientific research unit;
  - b) fulfill the obligations undertaken by a labor agreement;
  - c) annually submit an activity report according to the procedure established by the legislation of Georgia
4. A university/main educational unit and an independent scientific research unit shall ensure freedom of scientific research of the scientific personnel.

#### **Article 40. Administrative Positions and Other Personnel**

1. The administrative personnel of a higher education institution established by the State comprise the following: positions of the head (rector) of a higher education institution, the head of the administration, the head of the main educational unit and the director of the independent scientific research unit, as well as other positions provided by the statute of the higher education institution. Administrative positions of a legal entity of public law - a higher education institution also include the positions of the head of the quality assurance office of the higher education institution and the head of the quality assurance office of the main educational unit.
2. A person who has attained the age of 65 may not be elected or appointed to an administrative position of a higher education institution established by the State, unless otherwise expressly determined by the statute of the higher education institution.
3. The personnel of teachers include a teacher and a senior teacher.
4. A teacher may carry out practical and laboratory work without holding an academic position.
5. Support staff includes other persons necessary for the activities of the higher education institution provided for in the staff list.
6. A higher education institution may invite a specialist with appropriate qualifications to participate in and/or manage the teaching and/or scientific research processes without occupying an academic or a teacher's position determined by this Law.
7. A higher education institution may consider the option of giving remuneration from its budget (out of the income earned from economic activities of the higher education institution, except for the income from study fees established for accredited higher education programmes) to former academic or scientific

personnel on account of their special merits for the institution. The procedures and conditions for allocating remuneration shall be determined by the Academic Council and the Representative Council of the higher education institution.

Law of Georgia No 3374 of 20 March 2015- website, 31.03.2015.

#### **Article 42. Conflict of Interest in a Higher Education Institute Established by the State**

1. A person holding an administrative position may not, at the same time, hold any other administrative position at that higher education institution or serve as the head of any other structural unit.

1<sup>1</sup>. If holding an academic position constitutes a prerequisite for occupying an administrative position or membership of a managerial body, the expiration of the term of office at the academic position shall result in termination of the power at respective administrative position or managerial body once the results of the competition announced for holding an academic position have been approved, unless the person has been selected for respective academic position.

2. A member of the Board of Regents may not hold an administrative or academic position at a higher education institution established by the State. A member of the Academic Council may not at the same time hold an administrative position, except position of Rector, or be a member of the Representative Council at the same higher education institution.

3. The speaker of the Representative Council may not, at the same time, hold an administrative position at this higher education institution.

4. The incompatibility of offices of academic, teaching and support personnel, as well as other cases of incompatibility, shall be determined by the legislation of Georgia and the statute of the higher education institution.

## Chapter VI. Students

### Article 43. Student's Rights

1. A student has a right to:

- a) obtain quality education;
- b) participate in a scientific research;
- c) use the material and technical and, library and, informational and other resources of a higher education institution on equal terms, as provided for by the statute, and the internal regulations and provisions of the higher education institution;
- d) (deleted – 17.06.2011, №4792);
- e) elect a representative and be elected as a member of the students' self-government body, as well as of the management bodies of the higher education institution and its main educational units on the basis of universal, equal and direct suffrage by secret ballot, as provided for by the statute of the higher education institution;
- f) freely establish and/or join student's organizations according to his/her interests;
- g) express opinions freely and reasonably refuse to share ideas offered during the study process;
- h) transfer to an alternative higher education institution after the completion of the first year of studies in accordance with procedures established by the legislation of Georgia and the statute of the alternative higher education institution; The procedure for the transfer of State funding shall be determined by the Minister;
- h<sup>1</sup>) transfer to alternative Master's Programme by changing higher education institution as provided for by an order of the Minister; and transfer a State grant, obtained within the percentage thresholds determined for the annual State study scholarship for Master's Programmes allocated under the legislation of Georgia for certain academic disciplines, including prioritised academic disciplines, to another accredited Master's Programme in case of continuing studies for the same academic discipline or prioritised academic discipline at a higher education institution that is a member of the Unified Master's Examination Network as provided for by this Law;
- i) obtain scholarship, financial or material assistance and other benefits from the State, higher education institution or other sources as provided for by the legislation of Georgia and the statute of the higher education institution;
- j) choose an educational programme;
- k) participate in preparing an Individual Educational Programme;
- l) periodically evaluate the work of academic staff;
- m) exercise any other powers granted to them under this Law and legislation of Georgia.

1<sup>1</sup>. If the institution has been liquidated without determination of a successor, if the institution has lost authorization or the educational programme is no longer implemented, students shall have the right to mobility/transfer regardless of duration of the study period;

1<sup>2</sup>. A convicted student shall have no right to exercise the rights provided for by subparagraphs “e” and “f” of the paragraph 1 of this Article. Within the limits of Georgian legislation, for the convicted student may be restricted the rights provided for by subparagraphs “c”, “j” and “l” of the paragraph 1 of this Article.

2. (Deleted – 17.06.2011, №4792);
3. The higher education institution ensures appropriate conditions for students with disabilities to create the necessary conditions for their full-fledged education, which is defined by the Law of Georgia on the Rights of Persons with Disabilities and the statute of the higher education institution.
4. Personal information disclosed by a student in the presence of academic personnel, or information about personal and political opinions and religious confessions of students which become known to the academic personnel during the study process, as well as information on disciplinary measures against a student shall be confidential, unless otherwise authorised by the student or where it is a legal interest of the administration to ensure the safety and protect the lawful rights of others. Information on the academic performance of a student and on disciplinary measures taken against a student shall be kept separately. The administration shall keep information on a student as provided for by the General Administrative Code of Georgia.
5. A higher education institution may not exercise its rights and use its material and technical base in a manner that increases the risk of imposing censorship or restricting freedom of expression, except for cases determined by paragraph 7 of this Article.
6. A higher education institution shall be obliged to provide a fair assessment of a student's knowledge for which reason it shall develop adequate procedures.
7. Disciplinary proceedings against a student shall be proportionate to the committed disciplinary offence, and may be implemented only in the cases and in accordance with the procedures determined by the statute and the internal regulations of the higher education institution, and shall be conducted in accordance with this Law and by way of fair procedures. A higher education institution shall draft a Code of Ethics for Students that may impose restrictions on certain types of conduct of students related to the educational process. The higher education institution is obliged to define in detail the rules of conduct that lead to disciplinary liability.
8. The initiation of disciplinary proceedings against a student shall not restrict the student's right to participate in the learning process, except as provided by the statute and internal regulations of the higher education institution, if it threatens the protection of another's rights, health, property and safety of the educational institution. The issue of disciplinary proceedings against a student is decided by the higher education institution, the statute of which determines the body authorized to make a decision. A student shall have the right to attend the hearings concerning him/her.
9. The student who is the subject to a disciplinary proceeding shall be entitled to:
  - a) take, in written form, a grounded decision on the disciplinary proceeding against him/her;
  - b) attend the discussion of disciplinary proceedings and enjoy the right to defense;
  - c) provide to respective body of a higher education institute the information and evidence available to him/her;
  - d) participate in the examination of the evidences which have been obtained by respective body of a higher education body;
  - e) request the review of the issue of a disciplinary proceeding against him/her at a public session.
10. The burden of proof in the hearing of the issue of disciplinary proceedings shall be prosecuted. The decision on the disciplinary proceedings shall be substantiated and be based on the evidence obtained in accordance with procedures established by the legislation of Georgia and the statute and internal regulations of the higher education institution. All evidence that is the basis for the disciplinary proceedings shall be investigated by the appropriate body of the higher education institution.

11. A student may appeal before court the decision taken against him/her by a higher education institute.  
12. A student's status shall be terminated upon completion of respective educational programme or in any other cases provided for by the statute of a higher education institution.

13. A student of an Orthodox theological higher education institution does not enjoy the rights under subparagraphs “e” and “l” of paragraph 1 of this Article, nor the rights to obtain state educational scholarships and state educational scholarships for Master’s Programmes. A student of an Orthodox theological higher education institute shall have the right, in the manner prescribed by the Catholicos-Patriarch of All Georgia and by the statute of the accepting Orthodox theological higher education institute, move into any other Orthodox theological higher education institute, also move, in the manner prescribed by the Catholicos-Patriarch of All Georgia and by the statute of the Orthodox theological higher education institute, from the Orthodox theological higher education programme at the same institute into any other Orthodox theological higher education programme.

14. The mobility of a student of an orthodox theological higher education institute into any other education institute shall be prohibited, except for the case provided for by paragraph 13 of this Article.

#### **Article 44. Responsibilities of a Student**

A student shall be obliged to study all the subjects determined according to the programme established by a higher education institute which he/she has chosen at will and the study of which shall be obligatory; he/she shall comply with the statute and internal regulations of the higher education institute.

#### **Article 45. Rights of the Students’ Self-Government**

1. The students' self-government bodies, elected for each main educational unit, shall be established within a higher education institution on the basis of universal, equal and direct suffrage by secret ballot.

2. The unity of students' self-government bodies, elected within the main educational units, shall constitute the self-government of a higher education institution that develops regulations for the students' self-government bodies.

3. Under its regulations the students' self-government shall:

a) ensure participation of students in the management of higher education institutions;

b) facilitate the protection of student rights;

c) elect representatives to the council of the main educational unit and / or in the case provided for by the statute of the international school / international master's-doctoral school, to the advisory body established by the head of the international school / director of the international master's-doctoral school;

- d) have the right to make proposals concerning the improvement of the management system and education quality of a higher education institution that he/she shall submit to respective body;
- e) exercise any other rights provided for by the statute.

4. The administration of a higher education institution shall have no right to interfere with the activities of the students' self-government.

## **Chapter VII. Cycles of Higher Education**

### **Article 46. Cycles of an Academic Higher Education and Orthodox Theological Higher Education**

1. The academic higher education and the Orthodox theological higher education contain three cycles.
2. Within academic higher education and Orthodox theological higher education:
  - a) The Bachelor's educational programme includes no less than 240 credits (except for the case envisaged in paragraph 23 of this Article);
  - b) The Master's educational programme includes not less than 120 credits (except for the case envisaged in paragraphs 22 and 23 of this Article);
  - c) The duration of the Doctoral educational programme is not less than 3 years and its learning component includes not more than 60 credits.
- 2<sup>1</sup>. The educational programme during one academic year at a higher education institution includes 60 credits, on the average.
- 2<sup>2</sup>. A person, holding the certificate determined by Article 47<sup>2</sup>(5) of this Law, shall be granted the academic degree of Master of Education after completion of the Master's Programme in Education that consists of 60 credits.
- 2<sup>3</sup>. The higher education institution is authorized to develop a bachelor's educational programme, which includes at least 180 credits, and / or a master's educational programme, which includes at least 60 credits, in accordance with the rules established by the Minister. The rule provided for in this paragraph shall include reservations about the preconditions for admission to the relevant educational programme, the components of the educational programme and the distribution of credits.
3. Upon completion of each educational cycle, a relevant diploma shall be awarded together with a standard supplement.
4. Any person who does not or could not complete any of the above cycles shall be given an appropriate certificate.
5. A person who completes a short cycle educational programme, is awarded a professional diploma certifying the associated degree;

#### **Article 46<sup>1</sup>. The Ways of Implementing a Short Cycle Educational Programme and Recognising the Learning Outcomes Achieved**

1. Higher education institution is authorized to implement a short cycle educational programme as follows:
  - a) Within the Bachelor's educational programme or within the educational programme relevant to the generalized learning outcomes determined by the seventh level of the National Qualifications Framework, which also corresponds to the generalized learning outcomes of the sixth level of the National Qualifications Framework, when a student is awarded an associated degree as a result of accumulation of the credits provided for by this educational programme and of achieving the learning outcomes provided for by the short cycle educational programme;
  - b) In the form of an individual educational programme and award an associated degree to a vocational student, as a result of achieving the learning outcomes and accumulating the appropriate number of credits for the completion of the corresponding short cycle educational programme.
2. In the case stipulated by subparagraph “a” of paragraph 1 of this Article, the status of a student is obtained in accordance with Article 52 of this Law.
3. In the case provided for in subparagraph “b” of paragraph 1 of this Article, the status of a vocational student is obtained in accordance with the rules established by the Law of Georgia on Vocational Education.
4. In case of obtaining the right to study, according to the rule established by the legislation of Georgia, within the Bachelor's educational programme or within the educational programme relevant to the generalized learning outcomes determined for the seventh level of the National Qualifications Framework, which also corresponds to the generalized learning outcomes of the sixth level of the National Qualifications Framework, a higher education institution is authorized to recognise the learning outcomes of a student's academic achievement in the framework of a short cycle educational programme within a Bachelor's programme or within the educational programme relevant to the generalized learning outcomes defined by the seventh level of the National Qualifications Framework, which also corresponds to the generalized learning outcomes of sixth level of the National Qualifications Framework.
5. As a result of the examination of the contents of the academic courses of the short cycle educational programme, a higher education institution determines the compatibility of the learning outcomes achieved by this programme with the educational programme stipulated by paragraph 4 of this Article and makes a decision on recognizing the relevant credits, if the enrollment and training on the short cycle educational programme was carried out in accordance with the legislation of Georgia.
6. A higher education institution, in accordance with the rule established by the legislation of Georgia, is authorized to calculate the workload of a person with credits in the course of the educational programme which is not carried out according to the European Credit Transfer System. Credits shall be recognised by the procedure established by the statute of a higher education institution.

## **Chapter VIII. Procedure for Admission of Students to a Higher Education Institution**

### **Article 51. National Assessment and Examinations Center (NAEC)**

1. The National Assessment and Examinations Center is a legal entity under public law that organises Unified National and Unified Master's Exams and is authorised to carry out national assessments and international research work and to exercise other rights determined by the legislation of Georgia;

1<sup>1</sup>. When exercising its powers, the National Assessment and Examinations Centre shall develop databases in accordance with the procedures determined by the Minister of Education and Science of Georgia. In order to ensure access to information gathered in the process of keeping the databases and in the process of organising Unified National and Unified Master's Exams and also in exercising other rights, the National Assessment and Examinations Centre may use its available means, including telephones, insured post packages, e-mails, short text messages and others.

1<sup>2</sup>. The fees for services provided by National Assessment and Examinations Centre may be defined, and their amount and payment procedures shall be determined by the Minister of Education and Science of Georgia.

2. The Statute of National Assessment and Examinations Centre is developed and approved by the Minister of Education and Science of Georgia.

3. A Director of National Assessment and Examinations Centre shall be appointed to and dismissed from the position by the Minister of Education and Science of Georgia upon the agreement with the Prime-Minister of Georgia.

3<sup>1</sup>. When exercising its powers, the National Assessment and Examinations Centre may receive, keep and issue any document in written or electronic form. The procedures for and terms and conditions of receiving, keeping and issuing electronic documents by the National Assessment and Examinations Centre shall be determined by the Minister of Education and Science of Georgia.

4. The results of the Unified National Examinations conducted by National Assessment Examinations Centre shall be binding for all higher education institutions and they shall serve as a basis for granting State scholarships to the citizens or residents of Georgia in order to acquire higher education. All persons presenting a State document that certifies complete general education shall be eligible to take part in the Unified National Examinations for obtaining higher education.

5. The results of the Unified Master's Exams conducted by the National Assessment and Examinations Centre shall be binding for higher education institutions.

6. In order to enroll in an accredited Master's degree programme, all applicants have the right to participate in the examination/examinations conducted by the higher educational institution, who submit a document confirming the academic degree of higher education issued in accordance with the legislation of Georgia.

**Article 52. Grounds for the Admission of Students to the Bachelor's, Integrated Bachelor's and Master's in Teacher Training, Integrated Master's in Veterinary or Certified Medical Doctor's/Dentist's Educational Programmes of Higher Education Institutions.**

1. Only an applicant that has passed the Unified National Examinations under the procedure approved by the Ministry of Education and Science of Georgia shall be eligible to study for a bachelor's, integrated bachelor's and master's in teacher training, integrated master's in veterinary or certified medical doctor's/dentist's educational programmes of higher education institutions.

1<sup>1</sup>. Students shall be admitted to Orthodox theological higher education institutions on the Bachelor's Programme in theology on the basis of a proposal submitted by the Catholicos-Patriarch of all Georgia, in accordance with the procedures established by the Ministry of Education and Science of Georgia and based on the results received in individual subjects at the Unified National Examinations.

1<sup>2</sup>. The right to undertake the Georgian language training educational programme shall be enjoyed by the entrant who are Georgian citizens or a person provided for by Article 20<sup>13</sup> of Law of Georgia on the Procedure for Registering, Issuing Identity (Residence) Cards and Passports of Citizens of Georgia and Aliens Residing in Georgia, and who, at the Unified National Examinations, has passed only one of the following tests in the manner prescribed by the Ministry:

- a) Standardized test in Azerbaijani language;
- b) Standardized test in Armenian language;
- c) a test in Ossetian language;
- d) a test in Abkhazian language.

2. Before taking part in the Unified National Examinations, entrant shall take part in respective competition:

- a) to acquire higher education in arts or sports as provided for by higher education institutions carrying out arts or sports educational programmes;
- b) to acquire the right to go through the procedures determined by the legislation of Georgia for admission to military higher education institutions in accordance with the procedures established by these institutions.

3. For the purpose of supporting entrants and for ensuring the mobility of students, admission to higher education institutions without passing the Unified National Examinations, in accordance with the procedures and within the periods established by the Ministry of Education and Science of Georgia, shall be permitted for:

- a) citizens of foreign countries or stateless persons who have acquired complete general education or equivalent education in a foreign country;

b) citizens of Georgia who have acquired complete general education or its equivalent education in a foreign country and have studied on a complete general educational programme in a foreign country for previous two years.

c) citizens of foreign countries (except for students participating in a joint higher education programme and students participating in a higher education exchange programme) who study/have studied and have acquired credits/qualification in a foreign country at a higher education institution recognised under the legislation of that country.

d) citizens of Georgia (except for students participating in a joint higher education programme and students participating in a higher education exchange programme) who live/have lived and study/have studied for the period determined by the Ministry of Education and Sciences of Georgia and who have acquired credits/qualification in a foreign country at a higher education institution recognised under the legislation of that country.

3<sup>1</sup>. In order to support applicants, members of the Georgian national team, who will become gold medalist's/ silver medalist's /bronze medalists in the Olympic/Paralympic Games, as well as in the Chess Olympiads, can study at the State University of Physical Education and Sports of Georgia, a legal entity under public law, without passing the Unified National Examinations, in accordance with the rules and deadlines established by the Government of Georgia.

4. (Deleted - 06.08.2013, №917).

5. A higher education institution that is willing to accept students for bachelor's, integrated bachelor's and master's in teacher training, integrated master's in veterinary or certified medical doctor's/dentist's educational programmes, shall announce the coefficients granted by its educational programme to the results of the entrants in each examination subject. On the basis of Unified National Examinations, entrants are admitted to educational programmes according to the coefficients assigned to the exam subjects.

5<sup>1</sup>. A higher education institution implementing the Georgian language training educational programme shall, according to the number of students defined for the higher education institution by the National Center for Educational Quality Enhancement, announce, for the enrollment of students, the vacancies corresponding to the following percentages of the total number of students to be admitted by the Unified National Examinations:

a) 5% – for students to be admitted only on the basis of the results of the standardized test in the Azerbaijani language;

b) 5% – for students to be admitted only on the basis of the results of the standardized test in the Armenian language;

c) 1% - for students to be admitted only on the basis of the results of the Abkhazian-language test;

d) 1% - for students to be admitted only on the basis of the results of the Ossetian-language test.

5<sup>2</sup>. Taking into consideration the number of entrants registered for the Georgian language training educational programme and to be admitted on the basis of the tests of the Unified National Examinations, based on a grounded decision of the higher education institute and the agreement of the Ministry of Education, Science, Culture and Sports of Georgia, it is possible to change the percentage distributions provided for in paragraph 5<sup>1</sup> of this article within their sum.

5<sup>3</sup>. Within the framework of the number of students defined for the higher education institution by the National Center for Educational Quality Enhancement a higher education institution shall be obliged to define, for the students provided for by Article 52<sup>2</sup> of this Law, the number of places that constitutes, at least, 1% of the total number of students to be admitted based on the Unified National Examinations.

6. Within the number of students established as a result of authorization, a higher education institution may designate places for the persons provided for by paragraph 3 of this article.

7. (Deleted).

8. Upon the recommendation of the Ministry of Education and Science of Georgia, the Government of Georgia shall be authorised to determine the amount, and the terms and conditions, of financing for students under the social programme admitted to accredited higher educational programmes, in no less than 6% and no more than 20% of the annual volume for financing State educational scholarships.

9. The National Assessment and Examinations Centre shall compile the lists of applicants that have passed the Unified National Examinations and acquired the right to study for a bachelor's, integrated bachelor's and master's in teacher training, integrated master's in veterinary or certified medical doctor's/dentist's educational programmes at a major educational unit, and shall forward the lists to the appropriate major educational unit.

9<sup>1</sup>. NAEC shall draft lists of the entrants which have obtained the right to undertake the Georgian language training educational programme at a higher education institution, and submit those lists to respective higher education institution.

10. Higher education institutions and main educational units shall admit entrants only in accordance with the lists specified by paragraphs 9 and 9<sup>1</sup> of this article, except for the persons determined by paragraph 3 of this article.

11. Admission to a branch of a higher education institution shall be carried out by the higher education institution. This article shall not apply to the branches specified by Article 14(4) of this Law.

### **Article 52<sup>1</sup>. Grounds for Admission to the Master's programme at Higher Education Institution**

1. Only Master's candidates, who have overcome the minimum threshold limit determined by the legislation of Georgia or by a higher education institution may take part in the examination / examinations determined by the higher education institution for the academic disciplines, including prioritised academic disciplines, of the higher education institution, which institution is a member of the Unified Master Exams Network.

1<sup>1</sup>. Students shall be enrolled in the theological Master's educational programme at the Orthodox theological higher education institute without a general Master's examination, in the manner prescribed by the Catholicos-Partriarch of All Georgia.

2. The higher educational institution included in the unified master's examination network is authorized to conduct the exam/examinations determined by it both before the publication of the results of the unified master's exams and after the publication of the results of the unified master's exams.

3. (Deleted – 28.02.2012, №5718).

4. Only Master's candidates who have passed successfully the Unified Master's Exam/Exams under this Law may study for the Master's Programmes of higher education institutions that are members of the Unified Master's Exams Network, (except for Master's Programmes in arts or sports, where candidates are not admitted to these programmes on the basis of passing the Unified Master's Exams). This procedure shall not apply to the persons specified by paragraphs 7 and 7<sup>1</sup> of this article.

5. If a higher education institution, which is a member of the Unified Master's Exams Network, assigns coefficients to the individual parts of the tests of the Unified Master's Exams in the cases determined by Article 10(1) (d<sup>1</sup>) of this Law, the higher education institution shall use the total of coefficients of the master's exams determined by it for admission to the Master's Programmes.

6. If a higher education institution, which is a member of the Unified Master's Exams Network, fails to assign coefficients to the individual parts of the tests of the Unified Master's Exams in the cases determined by Article 10(1) (d<sup>1</sup>) of this Law, the higher education institution shall use the coefficients of the exam/exams determined by it for admission to the Master's Programmes.

7. For the purpose of supporting Master's candidates and for ensuring the mobility of students, studying at higher education institutions without passing the Unified Master's Exams in accordance with the procedures and within the periods determined by the Ministry, shall be permitted for:

a) Master's candidates who have obtained certificates of academic degrees of appropriate higher education abroad;

b) citizens of foreign countries (except for students participating in a joint higher education programme and students participating in a higher education exchange programme) who study/have studied and have acquired credits/qualification in a foreign country at a graduate school of a higher education institution recognised under the legislation of that country;

b<sup>1</sup>) citizens of Georgia (except for students participating in a joint higher education programme and students participating in a higher education exchange programme) who live/have lived and study/have studied for the period determined by the Ministry of Education and Sciences of Georgia and who have acquired credits/qualification in a foreign country at a graduate school of a higher education institution recognised under the legislation of that country.

c) Master's candidates who have been admitted to higher education institutions under Article 52(3) of this Law.

7<sup>1</sup>. Admission to study at higher education institutions without passing the Unified Master's Exams shall be permitted for persons who have overcome the minimum threshold limit in the examination determined by the list of international examinations approved by the Ministry.

8. Candidates for Master's Programmes in arts and sports shall be admitted in accordance with the procedures established by higher education institutions, except for cases where candidates are admitted to these programmes on the basis of the Unified Master's Exams.

9. Within the range of the number of students determined as a result of the authorisation, a higher education institution may define the admission limit for the persons specified in paragraphs 7 and 7<sup>1</sup> of this article.

### **Article 53. Unified National and Unified Master's Examinations**

1. Unified National and Unified Master's Examinations shall be prepared and conducted by the National Assessment and Examinations Centre.

2. The Minister shall approve the regulations for conducting the Unified National Examinations and the procedures for the allocation and distribution of State educational scholarships, and the regulations for conducting the Unified Master's Examinations and the procedures for the allocation and distribution of State educational scholarships for Master's Programmes, upon the recommendation of the National Assessment and Examinations Centre.

3. Persons interested in taking part in the Unified National and Unified Master's Examinations shall apply to the National Assessment and Examinations Centre in a written and/or electronic form by means of special software. The procedures and conditions for submitting applications shall be established by the Minister upon the recommendation of the National Assessment and Examinations Centre

3<sup>1</sup>. (Deleted – 11.03.2011, №4431).

4.(Deleted – 11.03.2011, №4431).

5. (Deleted).

6. The Unified National Examinations programme shall be approved by the Minister of Education and Science of Georgia upon the recommendation of the National Assessment and Examinations Centre.

7. A fee for taking part in the Unified National and Unified Master's Examinations shall be determined by a normative administrative act of the Minister of Education and Science of Georgia. The procedures for, and the terms and conditions of exemption from the payment of fees shall be approved by the Minister of Education and Science of Georgia.

8. The Ministry may determine the periods and procedures for submitting and reviewing administrative complaints regarding the Unified National and Unified Master's Examinations, other than the periods and procedures determined by the General Administrative Code of Georgia. The decisions made by the National Assessment and Examinations Centre with regard to the Unified National and Unified Master's Examinations may be appealed to court and the appeal thereof shall not cause the suspension of the disputed acts in proceedings.

## **Chapter VIII<sup>1</sup> Authorization**

*Law of Georgia No 3528 of 21 July 2010 - LHG I, No 47, 05.08.2010, Art, 299*

### **Article 56<sup>1</sup>. Scope of Authorization**

1. Authorization is a procedure for acquiring the status of a higher education institution, which is intended to ensure the meeting of standards necessary for the implementation of appropriate activities in order to issue an education certificate recognised by the State.
2. Authorization standards shall apply to:
  - a) Mission and strategic development of higher education institution;
  - b) Organizational structure and management of higher education institution;
  - c) Educational programmes;
  - d) Staff of a higher educational institution;
  - e) Students and their support services;
  - f) Research, development and/or other creative activity;
  - g) Material, information and financial resources.
3. The term of authorisation is six years.
4. Authorization shall be carried out by the National Centre for Educational Quality Enhancement as provided for by the Authorisation Regulations of an Education Institutions.

Law of Georgia No 3528 of 21 July 2010 - LHG I, No 48, 05.08.2010, Art, 299

Law of Georgia No 4787 of 19 February 2016 - website, 07.03.2016

### **Article 56<sup>2</sup>. Decisions with Regard to Authorisation**

1. In order to carry out authorisation of higher education institutions the National Centre for Educational Quality Enhancement shall form a Group of Experts for Authorisation of a Higher Education Institution, the rules of formation and activities of which shall be determined by the Authorisation Regulations of Educational Institution.
2. A decision on authorization shall be made by the Council for the Authorization of Educational Institutions (hereinafter the – Authorization Council) the members of which shall be composed of permanent and invited members. Members invited to the Council for the Authorization shall only participate if in the accreditation application submitted by the higher education institution is indicated regulated academic higher education programme envisaged by subparagraph "b" of paragraph 2 of Article 75 of this Law. The invited members of the Council for the Authorization shall have the right to vote.
  - 2<sup>1</sup>. The Prime Minister of Georgia appoints and dismiss permanent and invited members of the authorization council upon the recommendation of the Ministry. During the selection of candidates for the invited members of the Authorization Council, the Ministry is guided by the requirements and criteria established by the World Federation of Medical Education regarding the staffing of the Council.
3. The authorization council makes one of the following decisions based on the authorization documentation and the report of the expert panel on authorization of higher education institutions:
  - a) authorization;
  - b) refusal from authorization;

c) revocation of authorization.

3<sup>1</sup>. The Council for the Authorization shall have the right, during the process of authorization of a higher education institute or within the process of checking the fulfillment of conditions for authorization by the higher education institute, take a decision on the restriction for the higher education institution of the right to admit students/vocational students for at least one year. The procedure and conditions for this decision, as well as the maximum period for restricting the right for higher education institutions to admit students/vocational students shall be determined by the statute of authorization of the education institutions.

4. The Authorisation Council shall justify all decisions made by it.

5. A decision on authorization shall, within 10 work days after it is adopted, be published at the website of the National Education Quality Development Center.

#### **Article 56<sup>3</sup>. Decision with Regard to Authorisation and Legal Consequences of Authorisation**

1. A decision with regard to authorisation shall be made if an educational institution meets all the authorisation standards.

2. In the case of taking a decision on authorization, the Council for the Authorization shall in the manner prescribed by the statute of authorization of a higher education institution, determine for the higher education institution the number of places of students for the period of authorization.

3. As a result of the authorization, the higher education institution is entitled to accept students to the accredited higher education programme, to the educational programme of training in the Georgian language in accordance with the procedure established by the legislation of Georgia, and to issue a qualification document, except for the case provided for in paragraph 3<sup>1</sup> of Article 56<sup>2</sup> of this law.

#### **Article 56<sup>4</sup>. Decisions to Refuse or Revoke Authorisation and Legal Consequences Thereof**

1. Decisions to refuse authorisation shall be made where an education institution fails to meet one of the authorisation standards.

2. On the basis of the inspection results of a higher education institution the Authorisation Council may make a decision to revoke the authorisation of the higher education institution upon the recommendation of the National Centre for Educational Quality Enhancement, where the institution fails to meet the authorisation standards or violates the legislation of Georgia in the field of education regarding the origination, suspension or termination of student or vocational student status.

3. In case of refusing authorization or cancellation of authorization:

a) an institution will not obtain a status of higher education institution or will lose such status from the date when respective decision enters into force;

b) in accordance with paragraph 22 of Article 11 of the Law of Georgia "On Education Quality Improvement", the educational institution continues its educational activities within the period established by the Authorization Council, within which the right to admit students/entrants/master's degree candidate's/doctorate candidates is limited;

c) in accordance with paragraph 22 of Article 11 of the Law of Georgia "On the Development of the Quality of Education", the student has the right to continue his/her studies in the same educational institution or to transfer to another relevant educational institution for the period determined by the authorization council;

d) in accordance with paragraph 22 of Article 11 of the Law of Georgia "On Education Quality Improvement", the student's status shall be suspended for 5 years from the expiration of the period established by the Authorization Council (if such a period exists), from the entry into force of the decision of the Authorization Council on refusal of authorization or cancellation of authorization and he/she is entitled to exercise the right of mobility;

e) an entrant who successfully passed the Unified National Examinations and obtained a right to be enrolled to the Higher Education Institution according to the ranking document approved by the LEPL National Assessment and Examinations Center, shall be authorized to exercise the right of mobility;

f) a candidate of master's degree, who has been listed in the ranking document with the coefficients of the master's exams shall be authorized to exercise the right of mobility;

4. In the case of a decision to refuse authorization or a decision to revoke authorization, a legal entity is entitled to submit an authorization application to the National Center for the Development of Education Quality to obtain the same status as an educational institution 1 year after the decision to refuse authorization or a decision to revoke authorization was made.

## **Chapter X. Accreditation Process**

### **Article 63. Scope of Accreditation**

1. The purpose of accreditation is to introduce a systematic self-evaluation of education institutions and facilitate the development of quality assurance mechanisms for the improvement of education quality by means of determining the compliance of educational programmes of higher education institutions with accreditation standards.

1<sup>1</sup>. The accreditation procedures determined by this Law do not apply to the Orthodox theological higher education programmes delivered by Orthodox theological higher education institutions

1<sup>2</sup>. The accreditation procedures established under this Law shall not apply to the education programmes implemented by Kutaisi International University.

1<sup>3</sup>. Accreditation of a higher education programme (including a joint higher education programme) can be carried out by a foreign organization with relevant competence recognized by the National Center for Educational Quality Enhancement in the manner established by the accreditation regulation.

2. The accreditation standards are as follows:

- a) Education Programme Purpose, Learning Outcomes and their Compliance with the Programme;
- b) Teaching Methodology and Organization, Adequate Evaluation of Programme Mastering;
- c) Student Achievements and Individual Work with Them;
- d) Providing Teaching Resources;
- e) Teaching Quality Enhancement Opportunities.

3. State educational scholarships and State educational scholarships for Master's Programmes shall be allocated to finance the educational programme of an educational institution (except the Orthodox theological higher educational institution) that has obtained an accreditation or was accredited by a foreign organization with relevant competence recognized by the NCEQE. Accreditation granted by this organization is recognized by the Center in accordance with the procedure established by the Accreditation Regulations.

4. Implementation of the higher education programme (except for the Orthodox theological higher

education programmes of the Orthodox theological educational institution) and the Georgian language training educational programme is possible only in case of obtaining accreditation.

5. The accreditation shall be undertaken by the National Education Quality Improvement Center.

6. An Accreditation Council for Educational Programmes is established to make a decision on accreditation (hereinafter referred to as "Accreditation Council") that consists of permanent and invited members. Members invited to the Accreditation Council shall only participate in its activities, if, in the accreditation application submitted by the higher education institution is indicated regulated academic higher education programme envisaged by subparagraph "b" of paragraph 2 of Article 75 of this Law. The invited members of the accreditation council exercise the right of voting.

6<sup>1</sup>. The Prime Minister of Georgia appoints and dismisses permanent and invited members of the accreditation council upon recommendation by the ministry. During the selection of candidates for invited members of the Accreditation Council, the Ministry is guided by the requirements and criteria established by the World Federation of Medical Education regarding the staffing of the Accreditation Council.

7. The NCEQE shall supervise the fulfillment of the accreditation conditions. If accreditation conditions are violated, the National Centre for Educational Quality Enhancement may require the Accreditation Council to revoke accreditation.

8. Higher education institutions, including legal entities under public law, may jointly establish a legal entity under private law for quality assurance purposes, assessments of which may be reviewed by the National Centre for Educational Quality Enhancement during the accreditation process of the educational programmes of higher education institutions.

#### **Article 66. Decisions with Regard to Accreditation**

1. Decisions with regard to the accreditation of educational programmes of higher education institutions shall be made by the Accreditation Council in accordance with the Accreditation Regulations of the Educational Programmes of Education Institutions and based on the opinion of Accreditation Experts Panel as provided for by the legislation of Georgia.

2. With regard to accreditation there may be four types of decisions on:

- a) On accreditation;
- b) On conditional accreditation;
- c) On refusal of accreditation;
- d) On cancellation of accreditation.

[3. The term of accreditation of an educational programme is seven years. The educational programme submitted to the Center for accreditation during the calendar year when educational programmes classified in the field of study of the said educational programme do not have to undergo re-accreditation, accreditation is granted until the next period of accreditation of educational programmes classified in the field of study of this educational programme. Conditional accreditation term of the educational programme is no longer than 4 years. The educational programme submitted to the Center for accreditation during the calendar year when educational programmes classified in the field of study of the said educational programme do not have to undergo re-accreditation, conditional accreditation is granted until the next period of accreditation of educational programmes classified in the field of study of this educational programme, but not more than for 4 years. The accreditation is canceled in case of expiration of authorization term or cancellation of authorization. (To enter into force from 1 July 2022)]

4. In case of the first and every subsequent accreditation of an educational programme, the decision on accreditation is made according to the rule established under the accreditation statute, if the educational programme fully and/or substantially meets the accreditation standards.

5. In case of first accreditation of the educational programme and for every subsequent accreditation, the decision on conditional accreditation shall be made according to the rule established under the accreditation statute, if the educational programme partially meets the accreditation standard.

6. A decision on the conditional accreditation of an educational programme may not be taken twice consecutively.

[7. In relation to the regulated academic higher education programme provided for in subparagraph “b” of paragraph 2 of Article 75 of this law, when making a decision provided for in subparagraphs “a” or “b” of paragraph 2 of this Article, the Accreditation Council within the limits of the maximum number of student places established for the higher education institution, determines the maximum number of places for students during the accreditation period in accordance with the procedure established by the accreditation regulations. (To enter into force from 1 July 2022)]

8. In case of refusal or revoking of accreditation for the higher education programme of a higher education institution:

a) The higher education institution is restricted from admitting students/entrants/Master's Programme candidates/doctoral candidates to the higher education programme and Georgian language training educational programme, for which the accreditation has been refused, cancelled or expired;

b) According to the Article 22, paragraph 11 of the law of Georgia "On Education Quality Improvement" a student who studies with State funding shall be entitled to continue the studies at the same higher educational programme for the term (if any) established by the Accreditation Council and to receive State funding or exercise the right to mobility, transfer to other accredited educational programme and transfer the remaining funds allocated by the State to him/her to that higher educational programme;

c) According to the Article 22, paragraph 11 of the Law of Georgia "On Education Quality Improvement", the student who studies on the accredited higher educational programme or Georgian language training educational programme, after expiration of the term (if any) established by the Accreditation Council, shall be subject to termination of the student status for 5 years after the Accreditation Council's decision on refusing or canceling the accreditation enters into force and this student shall be entitled to exercise their right to mobility.

d) An entrant who successfully passed the Unified National Examinations and obtained a right to be enrolled to the Higher Educational Programme according to the ranking document approved by the LEPL National Assessment and Examinations Center, shall be authorized to exercise the right to mobility;

e) A candidate of the Master's programme, who has been listed in the ranking document with the coefficients of the Master's Exams shall be authorized to exercise the right to mobility;

9. In case of expiration of the accreditation period for a higher education programme or a Georgian language training programme, based on the decision of the Accreditation Council, a student has the right to continue their studies in the same educational programme until the end of the ongoing semester and receive State funding. The status of a student is suspended for a period of 5 years after the end of the current academic semester, and he/she is entitled to exercise the right to mobility.

10. (Deleted - 30.03.2022, No. 1466).

#### **Article 80. Financing of Higher Education by State Educational Scholarships**

1. A citizen of Georgia and a person provided for by Article 20<sup>13</sup> of Law of Georgia on the Procedure for Registering, Issuing Identity (Residence) Cards and Passports of Citizens of Georgia and Aliens Residing in Georgia, which have been enrolled in the accredited educational programme of a higher educational institution in the manner prescribed by this Law, may obtain a State study grant.

2. Aliens, including a foreign citizen with the status of compatriot living abroad, may be granted State educational scholarships only within then threshold limit of 2% of the annual amount of State educational scholarships under the State programme determined by the Ministry of Education and Science of Georgia.

3. It shall be prohibited to allocate to the same person for each cycle of study more than more State study grant.

4. The tuition fee of a student of a higher education institution shall be covered only by the State within the funds available under the State study grant, except for the cases of programme funding issued by the ministries.

#### **Article 80<sup>1</sup>. Funding Higher Education with the State Study Master's Grant**

1. A citizen of Georgia and a person provided for by Article 20<sup>13</sup> of Law of Georgia on the Procedure for Registering, Issuing Identity (Residence) Cards and Passports of Citizens of Georgia and Aliens Residing in Georgia, which have been enrolled into the unified master's examination network on the accredited educational programme of a higher educational institution in the manner prescribed by this Law, may obtain a State study grant.

2. Foreigners, including the foreigners holding the status of a compatriot residing abroad may obtain a State study Master's grant within the threshold limit of 2% of the annual amount of State study grants under the State programme determined by the Ministry.

3. A student with a Master's degree may be financed from the State educational scholarships for Master's Programmes only once, in accordance with one academic discipline, as well as in accordance with a prioritised academic discipline.

4. The State shall cover the tuition fee of a student who is enrolled for an accredited educational programme of a higher education institution – member of the Unified Master's Examination Network, which fee is set by the higher institution concerned, only within the limits of the State Master's study grant.

5. Master's students of the Kutaisi International University shall be funded through targeted State grants, the amount of which shall be determined by decision of the Government of Georgia upon recommendation of the Executive Director of the Kutaisi International University.

## **Article 81. Amount of State Study Grant and State Master's Study Grant**

1. The tuition fees for the educational programmes of higher education institutions established by the State shall be determined by higher education institutions as provided for by the legislation of Georgia.

2. The Government of Georgia shall determine an annual amount of a State study grant that fully covers tuition fees for a bachelor's, integrated bachelor's and master's in teacher training, integrated master's in veterinary or certified medical doctor's/dentist's accredited educational programme and a teacher training educational programme and veterinary training programme at a higher education institution established by the State. The State shall finance higher education for a bachelor's programme for 4 years (and for five years if a Georgian language preparation programme is studied along with an accredited bachelor's education programme); an accredited educational programme of bachelor's degree envisaged under paragraph 23 of Article 46 of this Law - within 3 years (4 years - in case if a Georgian language education preparation programme is studied along with an accredited Bachelor's education programme envisaged by paragraph 23 of Article 46 of this Law,); an accredited integrated bachelor's and master's in teacher training programme of 300 credits and integrated master's in veterinary programme of 300 credits shall be financed for not more than five years (and for not more than six years if a Georgian language education training programme is studied along with the integrated bachelor's and master's in teacher training programme and integrated master's programme in veterinary); a certified dentist's educational programme of 300 credits

shall be financed for not more than five years (and for six years if a Georgian language education training programme is studied along with the certified dentist's accredited educational programme); a medical doctor's educational programme of 360 credits shall be financed for not more than six years (and for seven years if a Georgian language education training programme is studied along with the medical doctor's accredited educational programme), and a teacher training educational programme shall be financed for not more than one year. The Government of Georgia may also determine partial amounts of an annual State study grant that partially cover tuition fees for a bachelor's, integrated bachelor's and master's in teacher training, integrated master's in veterinary or certified medical doctor's/dentist's accredited educational programme at a higher education institution established by the State.

2<sup>1</sup>. (Deleted).

2<sup>2</sup>. (Deleted).

2<sup>3</sup>. Annual quantity of State study master's grant of accredited master's degree programme of higher education institutions founded by the State shall be determined by the Government of Georgia according to educational programmes' directions established by the Government of Georgia. The State shall finance tuition fees for Master's programmes for two years, except for the Master's Programmes in arts and sports if admission to these programmes does not require passing the Unified Master's Exams, whereas the accredited educational Master programme envisaged in paragraph 23 of Article 46 of this Law - for 18 months.

2<sup>4</sup>. The amount/amounts of the State study grant shall not include the cost of financing for the period of study relevant to the credits that are recognized by a higher education institution under the procedure established by the legislation of Georgia, except as provided for in Article 49<sup>2</sup> (4) of this Law. In this case, the value of the State study grants within the amount/amounts of the State study grant determined by the Government of Georgia shall be calculated under the procedure approved by the Ministry.

3. If the tuition fee of an accredited educational programme of a legal entity of private law is higher than the amount of the State study grants or the State master's study grant, respectively, defined by the State, the higher education institution shall be entitled to set an additional fee which should be covered by other than State sources. The tuition fee of an accredited master's programme of a higher education institution, established by the State may exceed the amount of the State master's study grant only in agreement with the Government of Georgia.

3<sup>1</sup>. The fee for an accredited educational programme of an international school/international master's-doctoral school of a higher educational institution established by the State may, by the decision of the academic council of this higher educational institution, in agreement with the Government of Georgia, exceed the amount of State study grant or the State master's grant and/or other State grant stipulated by law.

4. If the tuition fees for the accredited educational programmes of higher education institutions are less than the amount of State educational scholarships or State educational scholarship for master's programmes determined by the State, the State educational scholarships or State educational scholarships for master's programmes shall be equal to the tuition fees for these programmes.

5. The agreement between a higher education institution and a student and/or vocational student shall determine the tuition fees for an appropriate educational programme of the higher education institution, and the conditions for making possible changes to the agreement for the duration of the educational programme. A higher education institution may not increase the tuition fees determined under the agreement by way of violating the conditions of the agreement. The terms and conditions of the agreement

related to tuition fee should be known before the commencement of registration of the entrants for the Unified National Examination. The above terms shall, unaltered, become part of the agreement. The tuition fees, determined for the year of admission of students and/or vocational students to higher education institutions, may be unilaterally increased where circumstances substantially change and this fact is established by an ordinance of the Government of Georgia.

6. If a student, holding a State educational scholarship or a State educational scholarship for master's programmes, moves to another higher education institution, the State shall allocate the State educational scholarship or State educational scholarship for master's programmes for the studies of the student at that higher education institution within the maximum threshold limit of the State educational scholarships or State educational scholarships for master's programmes, except for the cases specified by Article 43(1)(h1) of this Law.

7. The amount of financing allocated for a student admitted to an arts or a sports higher education institution established by the State, who obtains a scholarship from the assignments allocated from the State budget for a controlling body of the institution, or State educational scholarships or State educational scholarships for master's programmes, shall not exceed the maximum amount of State educational scholarships or State educational scholarships for master's programmes.

#### **Chapter XIV. Property of a Higher Education Institution, Established by the State and Monitoring of the Observance of Normative Acts**

*Law of Georgia No 3528 of 21 July 2010 - LHG I, No 48, 05.08.2010, Art, 299*

*Law of Georgia No 4792 of 17 June 2011 - website, 06.07.2011*

#### **Article 84. Property of Higher Education Institutions Established by the State**

1. The property of a higher education institution established by the State consists of the property transferred to it by State, legal and private entities, and of the property acquired by it with its own funds.
2. The State shall impose taxes on the initial transfer of property to a higher education institution established by the State as a non-entrepreneurial (noncommercial) legal entity in accordance with the legislation of Georgia.

Law of Georgia No 3528 of 21 July 2010 - LHG I, No 48, 05.08.2010, Art, 299

Law of Georgia No 4792 of 17 June 2011 - website, 06.07.2011

#### **Article 85. Using the Property of Higher Education Institutions Established by the State**

1. The real property of a LEPL higher education institution or part thereof may be purchased, disposed of or leased, and any decision, outside the scope of educational, scientific research activities, regarding the property may be made only by resolution of the Board of Representatives of the higher education institution and upon the approval of the Ministry and the Ministry of Economy and Sustainable Development of Georgia, as provided for by the legislation of Georgia.

1<sup>1</sup>. Any decision regarding the movable property of a legal entity of public law – a higher educational institution, if it goes beyond the scope of educational and scientific-research activities, can only be made by the decision of the representative council of the higher educational institution, with the approval of the Ministry, in accordance with the procedure established by the legislation of Georgia.

2. A Higher Education Institution Development Fund may be established for the purpose of managing the property of a higher education institution established by the State as a non-entrepreneurial (non-commercial) legal entity under private law, and part of the property and finances of the higher education institution shall be transferred to that Fund.

3. A higher education institution shall establish a Higher Education Institution Development Fund and shall provide it with the property necessary for its operation. The taxation of initial transfer of assets shall be regulated by the law of Georgia.

4. A higher education institution shall approve the statute of a Higher Education Institution Development Fund upon the approval of the Board of Regents, which statute shall define the authority of the Director of the Fund and the rules of management and disposal of the property transferred to the Fund.

5. The consent of the Board of Regents is required for the entire or partial disposal and encumbrance of the property of a higher education institution established by the State as a non-entrepreneurial (non-commercial) legal entity under private law.

6. The property transferred by the State to an arts and/or a sports higher education institution, established by the State as provided for by the legislation of Georgia, may be transferred with the right of free ownership and use to a general education institution as a non-entrepreneurial (non-commercial) legal entity, which delivers out-of-school arts and/or sports educational programmes determined by Article 11(5) of this Law; the transfer shall be made upon the consent of the Board of Regents (upon the consent of the Ministry of Culture, Sports and Youth Affairs of Georgia, the Ministry of Education and Science of Georgia, and the Ministry of Economy and Sustainable Development of Georgia in the case of legal entities under public law).

#### **Article 86. Assets Transferred to the Higher Education Institutions by the State**

1. Upon the establishment of a higher education institution, the State shall transfer thereto the relevant assets in accordance with the procedure envisaged by the law of Georgia.

2. The list of assets subject to transfer shall be attached to the act of establishment of the higher education institution.

3. The inventory of transferred assets shall indicate:

a) The list of assets;

b) the results of evaluation of the condition of the property by an independent audit, or balance sheet data.

4. The property remaining as a result of the liquidation of a higher education institution established by the State, shall be returned to the State in full, as provided for by the legislation of Georgia. The liquidation of a non-entrepreneurial (non-commercial) legal entity established by the State shall result in the liquidation of the Higher Education Institution Development Fund, and the property remaining as a result of liquidation shall be returned to the State in full as provided for by the legislation of Georgia.

##### **Article 86<sup>3</sup>. Obligations of a Higher Education Institution and Presumption of Accuracy of Data of the Higher Education Management Information System**

1. A higher education institution shall be obliged to include respective information in the higher education management information system within the time frames prescribed by the legislation of Georgia.

2. The failure of a higher education institution to timely include respective information in the higher education management information system may serve as grounds for suspending or refusing to take the appropriate action to be taken based on the data of the higher education management information system.

3. If there is a difference between the information included in a legal act of a higher education institution and respective information included in the higher education management information system, the data included in the higher education management information system shall be taken into consideration.

4. In cases provided for by the legislation of Georgia, forms of confirmation of the information included in the higher education management information system may be established.

Law of Georgia No 3444 of 20 September 2018 – website, 09.10.2018

**Article 86<sup>4</sup>. Responsibility for the Accuracy and Completeness of the Information included in the Higher Education Management Information System**

For the accuracy and completeness of the information included in the higher education management information system shall be responsible a subject which has an obligation to reflect this information in system.

Law of Georgia No 3444 of 20 September 2018 – website, 09.10.2018

**Chapter XV. Transitional Provisions**

**Article 87. Management of a Higher Education Institution**

1. Higher education institutions established as legal entities under public law on the basis of the edicts of the President of Georgia prior to the entry of this Law into force shall be deemed incorporated.

2. The entry of this Law into force shall cause the early termination of the authorities of Rectors and Faculty Deans of LEPL higher education institutions. The Rector's term of power shall be prematurely terminated by the order of the President of Georgia. The President of Georgia shall have the right to task the Rector dismissed with the obligation to act as a Rector, or appoint a professor of that higher education institution as an Acting Rector. The President of Georgia shall have the right to prematurely dismiss the Acting Rector. Early termination of authority of a Faculty Dean shall be documented by a legal act of an Acting Rector of a higher education institution, who is authorised to devolve the Dean's responsibilities on the dismissed Dean, or to appoint another candidate as an Acting Dean.

3. The first elections of the management authorities of LEPL higher education institutions shall be held by the higher education institutions in accordance with the procedures established by the Ministry of Education and Science of Georgia not later than two years after the entry of this Law into force.

4. LEPL higher education institutions shall submit new statutes prepared in accordance with this Law to the Ministry of Education and Science of Georgia for approval not later than six months after the first elections of the management authorities determined by this Law are held.

5. According to this law, once the first composition of the academic council is elected, based on a voting shall be determine one thirds of the members the period of whose election shall be determined by the period which is half of the duration of the basic educational cycle.

6. Under this Law, the term of the candidates for Rectors, Heads of Administration and Faculty Deans of higher education institutions determined by Articles 22(3), 23(1) and 29(1) of this Law, shall respectively include the term during which they have held the position of a Rector and/or Faculty Dean at the higher education institutions, for two full consecutive terms, including as Acting Rector and/or Acting Faculty Dean.

7. Higher education institutions shall completely replace their current study programmes with the educational programmes (Bachelor's, Master's, certified specialist's, Doctoral Programmes) under this Law and shall grant appropriate degrees determined by this Law not later than the beginning of the academic year 2007-2008. Before completely changing the current programmes with the educational programmes (Bachelor's, Master's, certified specialist's) determined by this Law and after finishing one-level, and at

least a five-year educational programme, the graduates of higher education institutions shall be granted a higher education diploma, which shall be equal to a Master's diploma. Procedures for ensuring the equivalence with the Master's diploma, including additional educational modules, shall be determined by an appropriate faculty of the higher education institution.

8. Higher education institutions shall, in order to ensure the implementation of the educational programmes provided for by this Law, before the beginning of an academic year 2009-2010, ensure the shift to the European credit transfer system.

9. The Ministry of Education and Science of Georgia and higher education institutions shall ensure the compliance of appropriate legal acts with this Law before 31 December 2009.

10. The Ministry of Education and Science of Georgia shall approve the procedures specified by Article 7(1) (11) of this Law before the beginning of the academic year 2010-2011.

11. The Ministry of Education and Science of Georgia shall approve the Authorisation Regulations of Education Institutions determined by Article 7(1)(f) of this Law before 15 September 2010, and approve the Accreditation Regulations of the Educational Programmes of Education Institutions determined by Article 7(1)(f) of this Law before 1 March 2011.

12. President of Georgia, Government of Georgia, Ministry of Education and Science of Georgia and Higher Education Institutions until March 1, 2011 should ensure the relevance of legal acts to this law.

13. Institutions that carry out a regulated academic higher education programme under Article 75(2)(e) of this Law shall be conferred the right to carry out a maritime academic higher education programme, irrespective of the accreditation, before commencement of the 2017-2018 academic year

#### **Article 88. Status and Funding of Higher Educational Institutions**

1. Higher education institutions accredited under Edict No 418 of 20 July 1998 of the President of Georgia on the Approval of the Statutes and Membership of Accreditation Council of Higher Education Institutions shall be considered as holding the institutional accreditation provided for by this Law prior to the beginning of the academic year 2007-2008. Documents certifying the completion of an educational programme that are granted under the legislation of Georgia prior to the beginning of the academic year 2007-2008 to students of institutions that were refused accreditation as provided for by the above edict, shall be considered as recognised by the State.

1<sup>1</sup>. The document issued on the manner prescribed by Georgian legislation before the beginning of an academic year 2005-2006 certifying the participation in the education programme which have been issued by the higher education institutions licensed or considered as licensed under the law, has been recognized by the state, regardless of accreditation of this institution.

1<sup>2</sup>. The document certifying completion of the higher education programme issued by the Academy of the Ministry of Internal Affairs of Georgia, a legal entity of public law operating in the sphere of governance of the Ministry of Internal Affairs of Georgia, considered licensed by law, before the beginning of the 2007-

2008 academic year, according to the procedure established by the legislation of Georgia, is recognized by the state, regardless of the accreditation of this higher educational institution.

2. (Deleted).

3. Before the accreditation of the programmes of higher education institutions, but not later than the beginning of the academic year 2013-2014, the programmes of all licensed higher education institutions as legal entities under private law and legal entities under public law which hold institutional accreditation shall be considered as accredited.

4. (Deleted).

5. (Deleted).

6. The Government of Georgia shall, from an academic year 2005-2006 shall ensure gradual transition to the system of funding of higher education defined by this law.

7. State educational scholarships and State educational scholarships for master's programmes shall be granted before 1 September 2010 to newly established licensed higher education institutions holding institutional accreditation, or determined by Article 66<sup>1</sup> (2) of this Law, for the remaining term of accreditation. Where accreditation of an appropriate programme is not possible at the moment of submission of applications for acquiring authorisation by such institutions, the programme shall be considered as accredited before providing appropriate conditions.

7<sup>1</sup>. Before September 1, 2010, taking into consideration the interests of the students admitted to newly-established licensed higher education institutions holding institutional accreditation or determined by Article 66<sup>1</sup> (2) of this Law before the expiration of the term of institutional accreditation, the Accreditation Council may make a decision to accredit educational programmes for less than five years. The legal consequences of accreditation shall apply to these students only.

8. The Government of Georgia shall determine the maximum, medium and minimum sums of full and partial amounts of a State study grant for a higher education programme starting from the 2005 – 2006 academic year through the 2022 – 2023 academic year. Higher education institutions established by the State shall ensure that tuition fees for a higher education programme for the citizens of Georgia are determined for the 2005 – 2006 academic year through the 2022 – 2023 academic year according to the full amounts of a State study grant determined by the Government of Georgia. Tuition fees for educational programmes implemented by a State-based higher educational institution as well as for joint educational programmes implemented by a State-based higher educational institution and a foreign higher educational institution recognized in accordance with the legislation of a foreign country, which are different from those provided for in this article can be determined by agreement with the Government of Georgia.

9. (Deleted).

10. (Deleted – 28.02.2012, №5718).

11. (Deleted – 28.02.2012, №5718).

12. Before the beginning of an academic year 2007-2008, legal entities under public law- higher educational institutions shall submit to the Ministry of Education and Science of Georgia proposals of the expediency of their formation into higher education institutions.

13. The Government of Georgia may reorganize a legal entity under public law- a higher education institution into a legal entity under private law following which, the above legal entity will be considered a legal successor of respective legal entity under public law.

14. The Government of Georgia, within a month after this provision becomes effective, shall ensure the establishment of the Council of Regents and approval of its statute.

**Article 89. National Assessment and Examinations Centre, National Centre for Education Accreditation and Compatibility of Educational Programmes**

1. Before the beginning of an academic year 2006-2007, the Ministry of Education and Science of Georgia shall approve the regulation for the National Examination Centre.
2. By the beginning of an academic year 2007-2008, the Government of Georgia shall ensure the beginning of operation of the State Accreditation Service.
3. Before its establishment the functions of the National Examinations Centre shall be performed by the Ministry of Education and Science of Georgia and the LEPL National Assessment and Examinations Centre.  
3<sup>1</sup>. Legal Entity under Public Law – National Examinations Centre shall be a legal successor of the LEPL- National Examinations Centre, and the Legal Entity under Public Law- National Centre for Educational Accreditation shall be a successor of the LEPL – National Accreditation Office.  
3<sup>2</sup>. Legal Entity under Public Law – National Centre for Educational Accreditation shall be reorganized into LEPL- National Centre for Educational Quality Enhancement. LEPL- National Centre for Educational Quality Enhancement shall be a legal successor of the Legal Entity under Public Law – National Centre for Educational Accreditation.  
3<sup>3</sup>. The Legal Entity under Public Law- the National Examinations Center shall be reorganized into the LEPL- the National Evaluation and Examinations Center. The Legal Entity under Public Law- the National Evaluation and Examinations Center shall be a legal successor of the LEPL- the National Examinations Center.
4. The Ministry of Education and Science of Georgia for an academic year of 2005-2006 shall ensure the implementation of the United National Examinations in Georgian Language and Literature, General Skills, Foreign Languages (English, German, French or Russian) and Mathematics, and for an academic year of 2006-2007 – also in other subjects. The procedures for conducting examinations and their mandatory and/or optional character shall be determined by the Ministry of Education and Science of Georgia as provided for by this Law.

5. Before the establishment of the State Accreditation Office of higher education institutions, its functions shall be performed by the Accreditation Council of Georgian higher education institutions, established under Edict No 418 of 20 July 1998 of the President of Georgia on the Approval of the Regulations and Membership of Accreditation Councils of Higher Education Institutions.

5<sup>1</sup>. Before completing the procedures related to the reorganisation of the LEPL State Accreditation Office as the National Centre for Education Accreditation, its functions shall be performed by the LEPL State Accreditation Office, and before completing procedures related to changing the name of the LEPL National Examinations Centre, its functions shall be performed by the LEPL National Examinations Centre.

5<sup>2</sup>. The Ministry of Education and Science of Georgia shall be assigned to implement procedures related to the reorganisation of the LEPL National Centre for Education Accreditation into the LEPL National Centre for Educational Quality Enhancement. Before the completion of such procedures, the functions of the LEPL National Centre for Educational Quality Enhancement shall be performed by the LEPL National Centre for Education Accreditation.

5<sup>3</sup>. The Ministry of Education and Science of Georgia shall, before 1 September 2013, be tasked with carrying out the activities relating to the reorganization of LEPL- National Examinations Center into the LEPL- the National Evaluation and Examinations Center. Before the completion of such procedures, the functions of the LEPL National Assessment and Examinations Centre shall be performed by the LEPL National Examinations Centre.

6. (Deleted).

6<sup>1</sup>. Before the beginning of an academic year 2017-2018, the Ministry of Education and Science of Georgia shall ensure the implementation of accreditation of the educational programme to teachers' training.

6<sup>2</sup>. The Ministry of Education and Science of Georgia shall ensure that procedures under Article 7(1) (m<sup>1</sup>) and Article 54<sup>2</sup> of this Law are developed and approved before commencement of the 2017–2018 academic year. Until the appropriate procedure is approved, a person with higher education shall be admitted to a teacher education training programme and a teacher training certificate shall be issued according to the procedure approved by a higher education institution.

6<sup>3</sup>. Before 31 December 2011 the Ministry of Education and Science of Georgia shall approve the procedures determined by Article 7(1) (f<sup>1</sup>) of this Law.

6<sup>4</sup>. Before the beginning of an academic year 2012-2013, the Ministry of Education and Science of Georgia shall ensure the accreditation of the educational programme for training in the Georgian language. Higher education institutions are obliged to obtain accreditation of the Georgian language education training programme before the beginning of the academic year 2012-2013. Before conducting the first accreditation of the Georgian language education training programme, the Georgian language education training programme of higher education institutions shall be considered as accredited.

7. Before the beginning of an academic year 2006-2007, higher education institutions shall ensure the transfer to the Master's 120-credit programme.

8. Before the beginning of the academic year 2005-2006, a higher education diploma obtained as a result of the completion of a one-level, and at least five-year educational programme, shall be equivalent to a Master's diploma. Before the beginning of the academic year 2005-2006 a higher education diploma obtained as a result of the completion of a one-level, and less than five-year educational programme, shall be equivalent to a Bachelor's diploma.

8<sup>1</sup>. Persons admitted before the beginning of the academic year 2007-2008 and having completed at least a five-year medical (including veterinary medicine) educational programme, shall be granted a certified medical doctor's (veterinary) diploma that is equivalent to a Master's diploma.

8<sup>2</sup>. A diploma, granted by the end of the academic years 2004-2005, 2005-2006 and 2006-2007 as a result of the completion of at least a five-year educational programme shall be equivalent to a Master's diploma; a certified specialist's diploma granted as a result of the completion of a four-year educational programme shall be equivalent to a Bachelor's diploma; and a certified specialist's diploma granted as a result of the completion of at least a three-year educational programme shall be equivalent to a higher vocational education diploma.

8<sup>3</sup>. A diploma granted before the beginning of the academic year 2005-2006 as a result of the completion of a one-level, four-year educational programme for a secondary specialty, for the purposes of which the results of the completion of an educational programme for a major specialty were taken into account, and which was considered as identical to a five-year educational programme for the same specialty of the institution that delivered the educational programme, shall be equivalent to a Master's diploma.

8<sup>4</sup>. In order to continue studies at a higher education institution, a diploma certifying the secondary vocational education, which is equivalent to a higher vocational education diploma under the law, shall be considered equivalent to a State document certifying completion of the full general educational programme.

8<sup>5</sup>. Before entry of this paragraph into force a certified veterinary's academic degree, granted after the completion of a veterinary's 300-credit educational programme, shall be equivalent to a Master's academic degree. Persons admitted to a veterinary's 300-credit educational programme, may complete the programme, after which they shall be granted a certified veterinary's academic degree that is equivalent to a Master's academic degree.

8<sup>6</sup>. Before the beginning of the 2007-2008 academic year, the diploma of higher education issued as a result of the completion of the higher educational programme of the Academy of the Ministry of Internal Affairs of Georgia, a legal entity of public law operating in the field of governance of the Ministry of Internal Affairs of Georgia, is equated with a master's degree.

9. The academic degree of a candidate of science earned before this law enters into force is considered equivalent to a Doctoral academic degree.

10. Paragraph 9 of this article shall also apply to the persons which either will become post-graduate students (candidates) and obtain, at a higher education institution, a degree of a candidate of science, but this will happen not later than 31 December 2006.

10<sup>1</sup>. In his rights, to the person holding a Doctoral academic degree shall be equivalent the person who, before 2007, was awarded a scientific-pedagogic rank of a docent or professor in respective artistic-creative or architectural areas.

10<sup>2</sup>. Persons having completed a one-level educational programme during the implementation of which they were authorised to continue studies for post-graduate programmes, may continue studies for Doctoral Programmes.

11. LEPL higher education institutions shall move the professors, teachers and scientific personnel employed in the institution to the appropriate academic positions determined by this Law before the beginning of the academic year 2006-2007.

12. Before the beginning of an academic year 2006-2007, the Ministry of Education and Science of Georgia shall ensure the adoption of the acts provided for by sub-paragraphs f, g, i, m and o of Article 7(1) of this law.

12<sup>1</sup>. Before 15 April 2009, the Ministry of Education and Science of Georgia shall ensure the approval of the statute of holding Master's examinations and of procedure for allocation of the State study master's grants.

12<sup>2</sup>. Persons having acquired a document certifying an academic degree of higher education before 2013, after the Unified Master's Exams and before the examination/examinations determined by higher education institutions, and who were admitted to Master's Programmes of higher education institutions as provided for by the legislation of Georgia, shall be considered as having passed the Unified Master's Exams.

13. In the case of any conflict between the rules determined by this Law and the Law of Georgia on Education, the rules determined by this Law shall prevail.

14. The higher education institutions, which in 2006 were granted the institutional accreditation, require for the implementation of higher professional educational programmes to be subject to repeated accreditation in the section of professional higher education.

15. Before the beginning of the academic year 2008-2009 the Government of Georgia shall ensure the compliance of LEPL higher education institutions with Article 2(w, w1, z29) and Article 9(1) of this Law.

16. (Deleted).

17. In the academic year 2007-2008 the admission to higher vocational education programmes of accredited higher education institutions shall be carried out in accordance with procedures other than the procedures determined by this Law, on the basis of the Unified National Examinations as provided for by the Ministry of Education and Science of Georgia.

17<sup>1</sup>. It shall be prohibited to admit students to the educational programme of a certified specialist (professional higher education) after an academic year 2010-2011. To the persons enrolled up to present, the State study grant shall be issued in the manner applicable before 1 September 2010.

17<sup>2</sup>. If studies continue under the Bachelor's programme, certified doctor/dentist/veterinary educational programmes, a higher educational institution shall count the credits accumulated by a certified specialist, count for the purposes of the Bachelor's programme, certified medic/dentist/veterinary educational programmes. For studying for the Bachelor's programme, certified medic/dentist/veterinary educational programmes, a certified specialist shall be enrolled in a higher educational institution, in the manner prescribed by Georgian legislation.

17<sup>3</sup>. Higher education institutions delivering educational programmes for craftsmanship prior to 1 September 2010 may carry out educational activities before the completion of the appropriate programme by persons admitted to the educational programme for craftsmanship. Higher education institutions shall have the right not to admit students to educational programmes for craftsmanship after 1 September 2010.

18. In 2009 accredited higher education institutions as legal entities under private law and newly established licensed higher education institutions as legal entities under private law specified by Article 66<sup>1</sup> (2) of this Law, may refuse to join the Unified Master's Examination Network and may admit Master's candidates in accordance with the different procedures determined by Article 52<sup>1</sup> of this Law.

19. In the presence of respective circumstances in 2009, an accredited higher education institution shall have the right, before the unified Master's examinations, to conduct the examination(s) determined for a candidate for a Master's degree. Before 7 June 2009 accredited higher education institutions shall determine

the procedures for conducting the examination/examinations for Master's candidates, determined by the higher education institutions, as provided for by Article 10(1)(h) of this Law.

20. When the Authorisation Regulations of Education Institutions determined by Article 7(1)(f) of this Law enters into force, all licensed higher education institutions, except for accredited higher education institutions or newly established licensed higher education institutions determined by Article 66<sup>1</sup> (2) of this Law, which operated until 1 September 2010, shall undergo the process of authorisation in order to acquire the right to grant State documents certifying higher education. Accredited higher education institutions or newly established licensed higher education institutions determined by Article 66<sup>1</sup> (2) of this Law, which operated until 1 September 2010, shall be considered as authorised for the remaining accreditation period. After the expiration of the said period these institutions shall obtain authorisation in order to acquire the right to grant State documents certifying higher education. After this period expires, they shall be obliged to undertake authorization in order to obtain the right to issue the document certifying the education recognized by the State.

21. The legal regime applicable before 1 September 2010 shall apply to the individuals enrolled to a higher education institution that has been licensed before 1 September 2010.

22. The legal consequences of undergoing the process of authorisation by licensed higher education institutions shall not apply to persons admitted to these institutions before undergoing the process of authorisation. They shall be subject to the legal regime established by Georgian legislation and applicable before undertaking the authorization. State recognition of the education acquired by persons admitted to licensed higher education institutions shall be carried out by the LEPL National Centre for Educational Quality Enhancement in accordance with the conditions determined by the Ministry of Education and Science of Georgia, and in the case of admission to higher education institutions as provided for by the legislation of Georgia. The terms and cost of recognition by the State of the higher education obtained by the persons which were enrolled in the licensed higher education institutions shall be established by the normative administrative-legal act of the Ministry of Education and Science of Georgia.

23. Within 10 days from 1 September 2010, all licensed higher education institutions, except for accredited higher education institutions or newly established licensed higher education institutions determined by Article 66<sup>1</sup> (2) of this Law that operate until 1 September 2010, shall submit a list (both in printed and electronic forms) of persons admitted to these institutions to the LEPL National Centre for Education Quality Enhancement.

23<sup>1</sup>. The persons indicated in the list of persons admitted to licensed higher education institutions determined by paragraph 23 of this article, shall be authorised to continue studies at the licensed higher education institutions that have submitted the list of persons admitted to these institutions to the LEPL National Centre for Education Quality Enhancement.

24. The Ministry of Education and Science of Georgia shall ensure admission of the entrants to higher education institutions without passing the Unified National Examinations, who failed to take the Unified National Examinations in 2010 due to the fault of the authorities within the system of the Ministry. The fault shall be ascertained by appropriate proceedings. Entrants shall be admitted to higher education institutions for the term of one year, by an individual administrative act of the Minister of Education and Science of Georgia. During this term the Ministry of Education and Science of Georgia shall finance the studies of such persons within the maximum amount of State educational scholarship determined by the Government of Georgia. The Ministry of Education and Science of Georgia shall take into consideration in the registration application a priority list of the faculty and academic higher and/or professional higher

educational programme and/or higher education institute for Georgian training educational programme, as well as the number of vacant places available per the total number of the students defined for the higher education institute as a result of institutional accreditation. Such persons shall acquire the right to continue studies for academic disciplines and/or specialties only after passing the Unified National Examinations the following year. After passing the unified national examinations, a higher educational institute shall, in the manner prescribed by Georgian legislation, recognize the credits obtained by those individuals, whereas the State study grant shall be awarded in the manner prescribed by Article 54(2) of this Law.

25. Before the entry of this paragraph into force, reorganisation by an authorised body by way of merging the LEPL accredited higher education institution with the educational institution carrying out higher educational programmes not recognised by the State, shall result in the application of the legal regime prescribed for the students under the legislation of Georgia with regard to persons with complete general education admitted to such programmes.

26. All legal consequences specified for the use of a real certificate shall apply to persons, who were admitted to higher education institutions as a result of Unified National Examinations before the entry of this paragraph into force, but were not granted a document certifying complete general education, a School Leaving Certificate, due to criminal or administrative legal proceedings.

27. Persons admitted conditionally to the first year of a Bachelor's Programme of a higher military education institution in 2011, without acquiring the status of a cadet as provided for by the legislation of Georgia, shall be granted the status of a cadet and the right to continue studies for an appropriate educational programme of the higher military education institution only after overcoming the minimum threshold limit in the Unified National Examinations in 2012.

28. Aliens, having acquired the right to continue studies at Georgian higher education institutions before the entry of this law into force and who hold a document issued in Georgia certifying State higher education, may study at higher education institutions without passing the Unified Master's Examinations in accordance with the procedures and within the periods established by the Ministry of Education and Science of Georgia.

29. A Georgian higher education institution that has concluded a student exchange agreement with a foreign education institution before the entry of this paragraph into force, shall request written information from the National Centre for Education Quality Enhancement on the recognition of the foreign education institution by the legislation of the corresponding foreign country.
