

On 6-10 November, 2023 within the Erasmus+ international mobility supporting week, the representatives of the Erasmus+ ICM projects coordinator European universities from Czechia (VSB –Technical University of Ostrava) and Turkey (Sivas Cumhuriyet University) visited Georgian Technical University for teaching and training activities. In total 3 colleagues from Czechia and 1 - from Turkey: Veronika Meca (Project Coordinator), Prof. Jiří Pokorný and Prof. Marek Smetana and Assoc. Prof. Burak TÜZÜN.

Within the framework of the Erasmus+ mobility promotion week, the representatives of the coordinator universities conducted the lectures and presentations for the GTU students and colleagues at the Faculties of Civil Engineering; Chemical Technology and Metallurgy; Mining and Geology. There were conducted the working meetings at the Faculties as well in order to further deepen educational and research cooperation.

During the mobility stay at GTU, foreign colleagues had the opportunity to get to know our University, ongoing educational and research activities and achievements. Herewith, within the social-cultural activities organized by GTU IRD foreign colleagues had the opportunity to explore Tbilisi, Mtskheta and Gori and get acquainted with traditional Georgian cuisine.

The information received from the Faculties:

The Faculty of Chemical Technology and Metallurgy - „Professor Burak Tüzün (Sivas Cumhuriyet University, Turkey) visited Georgian Technical University on November 6-10, 2023 as part of the Erasmus+ academic staff mobility week. He visited the Faculty of Chemical Technology and Metallurgy and met the faculty staff. Mr. Burak gave a presentation about his university, his research direction, and also delivered a lecture course in drug technology for the students of the pharmacy and chemistry programs.

"At the meeting issues of cooperation with Georgian Technical University were discussed, joint scientific research with foreign colleagues and publication of articles in highly rated foreign journals, active involvement in student and employee exchange programs were planned", says the Acting Dean of the Faculty of Chemical Technology and Metallurgy, Professor Liana Targamadze“.

Faculty of Civil Engineering - „On November 9, 2023, as part of the Erasmus+ academic staff mobility week, the professors of Ostrava Technical University: Veronika Mesa, Jiri Pokorn and Marek Smetana were guests at the Faculty of Construction of the Technical University of Georgia. The meeting was held in the library of the Faculty of Civil Engineering. The guests met the students and professors of the Faculty of Civil Engineering. Veronica Mesa gave a presentation on recommended safety issues in construction around the world. There was an exchange of experiences and visions. The foreign guests visited the construction training, scientific, expert examination and bridge testing laboratories and training bases of the Technical University of Georgia.

At the meeting of faculty administration and professors with representatives of Ostrava Technical University, issues of cooperation with Technical University of Georgia were discussed. More involvement in student and employee exchange programs and mobility was planned“.

Faculty of Mining and Geology - “ In the framework of the Erasmus+ academic staff mobility week at the Technical University of Georgia, visiting Ostrava (Czech Republic) Technical University Dean of the Faculty of Engineering, Professor Jiri Pokorn, Assistant Professor Marek Smetana of the same Faculty and Professor Veronika Meka, Deputy Dean of the Faculty of Mining and Geology of STU for International Relations and In the field of science, they met with Nina Maisuradze and the head of the Department of Labor Safety and Emergency Management, Professor Nino Ratiani.

At the meeting, which was attended by: Dean of the Faculty of Mining and Geology, Professor Anzor Abshilava, professors and teachers of the faculty, students, representatives of the Department of International Relations of STU Marika Zviadadze and Nino Zhizhilashvili, representatives of the Faculty of Engineering of Ostrava Technical University gave four presentations - "Crisis Management", " Fire Safety", "Civil Defense", "Virtual Reality and Modeling in Safety", were presented.

Professor Omar Lanchava of the Faculty of Mining and Geology presented a presentation on the topic - "Study of the effect of suppression during tunnel fire" for consideration.

According to Professor Nina Maisuradze, Deputy Dean of the Faculty of Mining and Geology, the meeting with the Czech colleagues was interesting. The guests invited their colleagues to Ostrava Technical University.

Within the framework of the visit, the Czech guests visited the educational laboratories and museums of the Faculty of Mining and Geology.

For information, the Technical University of Georgia has close cooperation with the Hradec Kralove and Technical Universities of the Czech Republic, the Institute of Theoretical and Applied Mechanics of the Academy of Sciences of the Czech Republic, the Technical University of Ostrava and the Mendel University of Brno“.
