

On 6-10 December 2023, Assoc. Prof. Muhammet Yunus Şişman from the Faculty of Economics and Administrative Sciences at the Kütahya Dumlupınar University – DPU (Kütahya, Turkey) visited Georgian Technical University for teaching activities within Erasmus+ ICM project.

It should be noted that Assoc. Prof. Şişman, as the Director of International Office, was the coordinator of the ongoing Erasmus+ ICM project during 2020-2023.

There were conducted various working meetings at the International Relations Department during the mobility stay at GTU, discussing the details of working on joint project proposals, including the perspectives of the creation of the Turkish Language and Culture Center in order to further deepen educational and research cooperation between the universities.

Turkish colleague visited GTU Central Library, had the opportunity to get to know GTU prominent engineers achievements, historical monuments as well as popular architectural buildings and constructions.

According to the mobility program, young lecturer had a working meeting at the Faculty of Business Technology with the students and Georgian colleagues.

Information received from the Faculty of Business Technology: “At the Faculty of Business Technology of the Georgian Technical University a working meeting was held under the Erasmus + program. Muhammad Younus Sisman, associate professor at Kütahya Dumlupınar University, spoke about the importance of the exchange program, As a presentation, he introduced us to his university, city and landmarks. The meeting went very fruitfully and in a question-and-answer mode, Students have received comprehensive information on many important issues. The meeting was also attended by professors and dean”.
