

Prerequisites for admission to master's programs

Educational program	Prerequisites for admission to programs
Construction	
Construction Engineering and Management	
Water Engineering (English)	It is mandatory to provide a document proving proficiency in English at level B2.
Energy and Electrical Engineering	
Technology Project Management and Industrial Policy	
Engineering Geodesy	
Occupational Safety and Health	
Mining and Geoengineering	
Oil and Gas Technologies	
Oil and Gas Technologies (Russian)	A person who holds a bachelor's degree or equivalent academic degree in Engineering, Production and Construction, as well as in the field of Natural Sciences, Mathematics and Statistics (Geology, Geophysics, Chemistry) is entitled to study in a master's degree program.
Chemical and Biological Engineering	It is mandatory to provide a document proving proficiency in English at B2 level.
Chemistry	It is mandatory to provide a document proving proficiency in English at B2 level.
Metallurgy	1. A person with at least a bachelor's degree or an equivalent academic degree from the following broad fields of the classification of study is entitled to study in a master's degree program: Natural Sciences, Mathematics and Statistics; Engineering, Manufacturing and Construction.

	2. It is mandatory to provide a document proving proficiency in English at B2 level.
Materials Science	<p>1. A person with at least a bachelor’s degree or an equivalent academic degree from the following broad fields of the classification of study is entitled to study in a master’s degree program: Information and Communication Technologies; Natural Sciences, Mathematics and Statistics; Engineering, Manufacturing and Construction.</p> <p>2. It is mandatory to provide a document proving proficiency in English at B2 level.</p>
Environmental Engineering	<p>1. A person with at least a bachelor’s degree or an equivalent academic degree from the following broad fields of the classification of study is entitled to study in a master’s degree program: Information and Communication Technologies; Natural Sciences, Mathematics and Statistics; Engineering, Production and Construction; Agriculture, Forestry, Fisheries, Veterinary Medicine.</p> <p>2. It is mandatory to provide a document proving proficiency in English at B2 level.</p>
Pharmacy	<p>1. A person with at least a bachelor’s degree or equivalent academic degree from the following broad fields of the classification of study is entitled to study in a master’s degree program: Health, Social Welfare; Information and Communication Technologies; Natural Sciences, Mathematics and Statistics; Engineering, Manufacturing and Construction; Agriculture, Forestry, Fisheries, Veterinary Medicine</p> <p>2. It is mandatory to provide a document proving proficiency in English at B2 level.</p>
Transport	
Logistics	
Mechanical Engineering and Technology	
Entrepreneurial Management	
Industrial Engineering and Technology	
Architecture	A person with a Bachelor of Architecture academic degree is entitled to study on the program.
Law	A person with a Bachelor of Laws degree is entitled to study on the program.

International relations	
Informatics	It is mandatory to provide a document proving proficiency in English at level B2.
Control Systems, Automation and Test Engineering	It is mandatory to provide a document proving proficiency in English at level B2.
Digital telecommunications Technologies	It is mandatory to provide a document proving proficiency in English at level B2.
Mathematics	It is mandatory to provide a document proving proficiency in English at level B2.
Engineering Physics	It is mandatory to provide a document proving proficiency in English at level B2.
Computer Systems and Network Technology	It is mandatory to provide a document proving proficiency in English at level B2.
Biomedical Engineering and Medical Informatics	It is mandatory to provide a document proving proficiency in English at level B2.
Biomedical Engineering (English)	It is mandatory to provide a document proving proficiency in English at level B2.
Medical Physics	It is mandatory to provide a document proving proficiency in English at level B2.
Design (English)	<ol style="list-style-type: none"> 1. Passing an interview before a special commission of the GTU, where one must present one's own graphic works (drawings and sketches); 2. Interviews will be held on September 5th and September 9th, 2025, at 12:00 (Address: Tbilisi; Kostava Street 77, GTU Building VIII, 2nd floor, room 4) 3. It is mandatory to provide a document proving proficiency in English at level B2.
Agricultural Hydromelioration	It is mandatory to submit a document confirming proficiency in a foreign language at B2 level (English, German, French, Russian).
Agricultural Technologies	A person with at least a Bachelor's degree in Agricultural Sciences, Science/Natural Sciences, or an equivalent academic degree is entitled to study at a Master's degree program.

Food Technology	
Forestry	A person with at least a Bachelor's degree in Agricultural Sciences, Science/Natural Sciences, or an equivalent academic degree is entitled to study at a Master's degree program.
Livestock Farming	<ol style="list-style-type: none"> 1. A person with at least a bachelor's degree or an equivalent academic degree is entitled to study in a master's degree program according to the detailed field of the classifier of study: Fisheries; Veterinary Science; Veterinary Science - Unclassified; Plant and Animal Husbandry; Biology. 2. It is mandatory to provide a document proving proficiency in English at level B2.
Viticulture and Winemaking	<ol style="list-style-type: none"> 1. A person with a bachelor's degree or an equivalent academic degree is entitled to study in a master's degree program according to the detailed field of study in the classifier of study: Interdisciplinary - Viticulture and Winemaking; Biology; Environmental Science; Food Processing; Plant and Animal Husbandry; Horticulture, 2. It is mandatory to provide a document proving proficiency in English at level B2.
Technology of Growing Medicinal Plants	
Viticulture and Enology (English)	<ol style="list-style-type: none"> 1. A person with at least a Bachelor of Agricultural Sciences, Bachelor of Natural Sciences, or an equivalent academic degree is entitled to study at a master's degree program. 2. It is mandatory to provide a document proving proficiency in English at level B2.
Public Administration	It is mandatory to provide a document proving proficiency in English at level B2.
Banking Process Management	It is mandatory to provide a document proving proficiency in English at level B2.
Hotel Service Management	It is mandatory to provide a document proving proficiency in English at level B2.
Business Administration	It is mandatory to provide a document proving proficiency in English at level B2.
Mass Communication/Journalism	
Public Relations	

Economy	
European Studies
