

### Prerequisites for admission to doctoral programs

Educational program	Prerequisites for admission to programs
<b>Construction</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Military Engineering</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Water Resources Engineering</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Energy and Electrical Engineering</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Innovation and Operations Management</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Engineering Geodesy</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Oil and Gas Technologies</b>	<ol style="list-style-type: none"> <li>1. A person who holds a master's degree or equivalent academic degree in Engineering, Manufacturing, and Construction is entitled to study in a doctoral educational program.</li> <li>2. It is mandatory to provide a document proving proficiency in English at level B2.</li> </ol>
<b>Chemical and Biological Engineering</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Chemistry</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Metallurgy</b>	<ol style="list-style-type: none"> <li>1. A person with a master's degree or equivalent academic degree from the following broad fields of the classification of study is entitled to study in a doctoral educational program: Natural Sciences, Mathematics and Statistics; Engineering, Manufacturing and Construction.</li> <li>2. It is mandatory to provide a document proving proficiency in English at level B2.</li> </ol>
<b>Materials Science</b>	<ol style="list-style-type: none"> <li>1. A person with a master's degree or equivalent academic degree, who has been awarded the degree from one of the following broad fields of the classification of study, is entitled to study in a doctoral educational program: Natural Sciences, Mathematics and Statistics; Engineering, Manufacturing and Construction;</li> <li>2. It is mandatory to provide a document proving proficiency in English at level B2.</li> </ol>

<p><b>Transport</b></p>	<p>1. A person with a master’s degree or an equivalent academic degree, whose duration of study in a doctoral program is at least 3 years, is entitled to study in a doctoral program. 41 is assigned from the following broad fields of the classification of fields of study: Engineering, Production and Construction.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<p><b>Mechanical Engineering and Technology</b></p>	<p>1. A person with a master’s degree or equivalent academic degree, who has been awarded a degree from one of the following broad fields of the classification of study, is entitled to study in a doctoral educational program: Engineering, Manufacturing, and Construction.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<p><b>Architecture</b></p>	<p>1. A person who holds a master’s degree or an equivalent academic degree from the detailed fields of the classifier of study is entitled to study in the doctoral program: Architecture and Urban Planning, Architectural Restoration.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<p><b>International Relations</b></p>	<p>1. A person with a master’s degree in the Social Sciences, Humanities, Law, Public Administration, Security and Defense is entitled to study in a doctoral program. Persons with a master’s degree in other fields are admitted to a doctoral program in special cases, for the purpose of conducting interdisciplinary research, by decision of the academic department.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<p><b>Informatics</b></p>	<p>1. A person who holds a master’s degree or equivalent academic degree in the following fields is entitled to study at a doctoral educational program: Informatics, Engineering, Exact and Natural Sciences, and Economics.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<p><b>Mathematics</b></p>	<p>1. A person who holds a master’s degree or equivalent academic degree in a narrow field of the classification of study: Mathematics and Statistics is entitled to study in a doctoral educational program.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<p><b>Control Systems, Automation and Test Engineering</b></p>	<p>1. A person who holds a master’s degree or an equivalent academic degree in the narrow field of the classification of study, Engineering and Engineering Business, from the detailed fields: Electronics and Automation, Electricity and Energy, Motor Vehicles, Ships and Aircraft, Engineering and Engineering Business -</p>

	<p>Unclassified; narrow fields: Information and Communication Technologies, Mathematics and Statistics, is entitled to study in a doctoral educational program.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<b>Digital Telecommunication Technologies</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Engineering Physics</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Biomedical Engineering (English)</b>	<p>1. A person who holds a master's degree or equivalent academic degree from a narrow field of the classification of study is entitled to study in a doctoral educational program: Engineering and Engineering Business, Healthcare, Biological and related sciences, Information and Communication Technologies.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<b>Agricultural Technologies</b>	<p>1. A person with a Master's degree in Agricultural Sciences, Chemistry, and Biology/Life Sciences/Applied Biosciences or an equivalent academic degree is entitled to study in the doctoral program.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<b>Livestock Farming</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Agricultural Engineering</b>	<p>1. A person who holds a master's degree or an equivalent academic degree in the detailed field of the Classifier of study - Engineering and Engineering Business (Unclassified) is entitled to study in a doctoral educational program.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<b>Forestry</b>	<p>1. A person who holds a master's degree or an equivalent academic degree from the detailed fields of the classifier of study - Forestry; Plant and Animal Husbandry; Horticulture; Environmental Protection Technology; Natural Environment and Wildlife; Environmental Science; Biology, is entitled to study in a doctoral educational program.</p> <p>2. It is mandatory to provide a document proving proficiency in English at level B2.</p>
<b>Food Technology</b>	1. A person who holds a Master's degree in Food Technology, Agronomy, Veterinary Science, Animal Husbandry, Forestry, Chemical and Biological Engineering, Agricultural Engineering, Physics, Chemistry, Biology/Life Sciences/Applied Biosciences or an equivalent academic degree or diploma is entitled to study in a doctoral educational program.

	2. It is mandatory to provide a document proving proficiency in English at level B2.
<b>Agrarian Economy</b>	1. Admission to the doctoral educational program will be based on the detailed field of study of the classifier of study - Economics; Agronomy; Management and Administration; Environmental Protection Technology; Food Processing; Plant and Forestry, Horticulture, Fisheries.  2. It is mandatory to provide a document proving proficiency in English at level B2.
<b>Business Administration</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Economy</b>	1. The program is open to students with a relevant education, a master's degree or equivalent academic degree in the detailed field of study classifier - Economics; Education; Political Sciences and Civics; Social and Behavioral Sciences; Accounting and Taxation; Finance, Banking and Insurance; Management and Administration; Marketing and Advertising; Law; Statistics; Tourism; Mathematics; Informatics; Philosophy; Health and Social Welfare; Engineering and Engineering Business.  2. It is mandatory to provide a document proving proficiency in English at level B2.
<b>Archaeology</b>	It is mandatory to provide a document proving proficiency in English at level B2.
<b>Social Sciences</b>	1. A person who holds a Master's degree or an equivalent academic degree in the broad field of the classification of study is entitled to study in a doctoral program: Education; Arts; Humanities; Social Sciences; Journalism and Information; Business, Administration and Law.  2. It is mandatory to provide a document proving proficiency in English at level B2.
<b>Theology - History of the Georgian Church</b>	1. A person who holds a Master's degree or an equivalent academic degree in the broad field of the Classifier of study is entitled to study in a doctoral program: Education; Arts, Humanities; Social Sciences, Journalism and Information; Business, Administration and Law;  2. It is mandatory to provide a document proving proficiency in English at level B2.
