**2. Text Structure:**

- First and last name;

- Article Title;

- Abstract Georgian, English or Russian languages, up to a maximum of 150 words;

- Key words;

- The text;

- References.

## Poster Sessions

---

During the conference there will be the possibility to display posters of scientific papers in the common areas and to answer the questions of attendees during the breaks.

### **Guidelines for Preparing a Poster Presentation:**

Presenters will interact with attendees while standing next to their Poster Presentation. Attendees at Poster Presentations will stroll by looking for topics of interest.

Presenters need to attract attention with a good topic and a visually interesting presentation.

**Organization and clarity** are critical. A poster presentation should attract people's interest as they walk by and then be easily reviewed to stimulate a one-to-one discussion with the presenters. The goal is to encourage informed discussion about your research. The poster should be easily readable from 1.5 meters (4 feet) away.

**Support:** Although we will provide you with tools (adhesive tape, etc.) for hanging your poster, it is recommended that you bring your own materials as a back up.

**Format:** There will also be other authors with their poster presentations in the gallery. For that reason, we encourage you to avoid exceeding the dimensions of a **50 cm** width **and 80 cm** high and hang your posters vertically.

**Type of letter, font and size:** We recommend using the following font and font size: **Type of font: Arial – Title: At least 36 points. – Headings: 30 points or more. – Text: At least 24 points.**

**Other recommendations:** We recommend you to use illustrations, schemas and graphics so that your presentation can be more attractive.

Poster - presentation fee - **20 EUR.**

Participants of the poster - presentation will be awarded **certificates** and their posters will be published in the conference proceedings.
